Suzy's achingly heartfelt journey explores life, death, the astonishing wonder of the universe...and the potential for love and hope right next door. Imprisoned with ISIS Orbit

As a child, Petr Jasek (Peter Yash-eck) watched Soviet tanks roll through the streets of his village in Czechoslovakia, taking the country by force and subjecting it to decades of Communist oppression. Petr grew up in the underground church and benefitted from financial help and Bibles smuggled in to his family. As an adult living in the free Czech Republic, Petr chose to begin serving persecuted Christians—especially in Islamist hotspots in Africa and the Middle East. In 2015, he was arrested in Sudan, convicted as an enemy of the state, and sentenced to life in prison, where he was forced to share a group cell with ISIS terrorists. The true story of what God did in and through Petr has already inspired tens of thousands around the world. Now, for the first time, Petr tells the whole story.

A Novel Bollingen Foundation

In this New York Times bestseller, two women in different eras face similar life-altering decisions, the politics of exclusion, the terrible choices we face in wartime, and the redemptive power of love. In 1945, Elsie Schmidt is a naive teenager, as eager for her first sip of champagne as she is for her first kiss. She and her family have been protected from the worst of the terror and desperation overtaking her country by a high-ranking Nazi who wishes to marry her. So when an escaped Jewish boy arrives on Elsie's doorstep on Christmas Eve, Elsie understands that opening the door would put all she loves in danger. Sixty years later, in El Paso, Texas, Reba Adams is trying to file a feel-good Christmas piece for the local magazine, and she sits down with the owner of Elsie's German Bakery for what she expects will be an easy interview. But Reba finds herself returning to the bakery again and again, anxious to find the heart of the story—a story that resonates with her own turbulent past. For Elsie, Reba's questions are a stinging reminder of that last bleak year of World War II. As the two women's lives become intertwined, both are forced to

confront the uncomfortable truths of the past and seek out the courage to forgive.

A Novel Chronicle Books

THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience! A groundbreaking dive into the role psychedelics have played in the origins of Western civilization, and the real-life quest for the Holy Grail that could shake the Church to its foundations. The most influential religious historian of the 20th century, Huston Smith, once referred to it as the "best-kept secret" in history. Did the Ancient Greeks use drugs to find God? And did the earliest Christians inherit the same, secret tradition? A profound knowledge of visionary plants, herbs and fungi passed from one generation to the next, ever since the Stone Age? There is zero archaeological evidence for the original Eucharist - the sacred wine said to guarantee life after death for those who drink the blood of Jesus. The Holy Grail and its miraculous contents have never been found. In the absence of any hard data, whatever happened at the Last Supper remains an article of faith for today's 2.5 billion Christians. In an unprecedented search for answers, *The Immortality Key* examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet. Religion and science converge to paint a radical picture of Christianity's founding event. And after centuries of debate, to solve history's greatest puzzle. Before the birth of Jesus, the Ancient Greeks found salvation in their own sacraments. Sacred

beverages were routinely consumed as part of the so-called Ancient Mysteries – elaborate rites that led initiates to the brink of death. The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis, where a holy beer unleashed heavenly visions for two thousand years. Others drank the holy wine of Dionysus to become one with the god. In the 1970s, renegade scholars claimed this beer and wine – the original sacraments of Western civilization – were spiked with mind-altering drugs. In recent years, vindication for the disgraced theory has been quietly mounting in the laboratory. The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity. And with a single dose of psilocybin, the psychopharmacologists at Johns Hopkins and NYU are now turning self-proclaimed atheists into instant believers. But the smoking gun remains elusive. If these sacraments survived for thousands of years in our remote prehistory, from the Stone Age to the Ancient Greeks, did they also survive into the age of Jesus? Was the Eucharist of the earliest Christians, in fact, a psychedelic Eucharist? With an unquenchable thirst for evidence, Muraresku takes the reader on his twelve-year global hunt for proof. He tours the ruins of Greece with its government archaeologists. He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine. He unravels the Ancient Greek of the New Testament with the world's most controversial priest. He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity's oldest monuments. He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English. And with leads from the archaeological chemists at UPenn and MIT, he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity. The Immortality Key reconstructs the suppressed history of women consecrating a forbidden, drugged Eucharist that was later banned by the Church Fathers. Women who were then targeted as witches during the Inquisition, when Europe's sacred pharmacology largely disappeared. If the scientists of today have resurrected this technology, then Christianity is in crisis. Unless it returns to its roots. Featuring a Foreword by Graham Hancock, the NYT bestselling author of *America Before*.

Disney/Pixar Turning Red Little Golden Book Houghton Mifflin

The author of the highly acclaimed *The Fates Will Find Their Way* returns with a novel about a far-flung family reunited for one weekend by their father's death. Five minutes before her flight is set to take off, Kate Pulaski, failed screenwriter and newly failed wife with scarcely a hundred dollars to her name, learns that her estranged father has killed himself. More shocked than saddened by the news, she gives in to her siblings' request that she join them, along with her many half-siblings and most of her father's five former wives, in Atlanta, their birthplace, for a final farewell. Written with huge heart and bracing wit, *REUNION* takes place over the following four days, as family secrets are revealed, personal foibles are exposed, and Kate—an inveterate liar looking for a way to come clean—slowly begins to acknowledge the overwhelming similarities between herself and the man she never thought she'd claim as an influence, much less a father. Hannah Pittard's "engaging and vigorous"* prose masterfully illuminates the problems that can divide modern families—and the ties that

prove impossible to break. (*Chicago Tribune)

And His Fortunes in the World War Godine+ORM

One of the world's greatest men has been kidnapped. Nobel laureate, international financier, and philanthropist Peter Novak - a billionaire who has committed his life and fortune to fostering democracy around the world through his Liberty Foundation - has been captured by the forces led by the near-mythical terrorist known as The Caliph. Holding Novak in a near impenetrable fortress, The Caliph has refused to negotiate for his release, planning instead to brutally execute Novak in a matter of days. Running out of time and hope, Novak's people turn to a man with a long history of defeating impossible odds: Paul Janson. For decades, Janson was an operative and assassin whose skills and exploits made him a legend in the notorious U.S. covert agency Consular Operations. No longer able to live with the brutality, bloodshed, and personal loss that marked his career, Janson has retired from the field and nothing could lure him back. Nothing except Peter Novak, a man who once saved Janson's life when everyone else was powerless to help. With the considerable resources of The Liberty Foundation at his disposal, Janson hastily assembles a crack extraction team, setting in motion an ingenious rescue operation. But the operation goes horribly wrong and Janson is marked for death, the target of a "beyond salvage" order issued from the highest level of the government. Now he is running for his life, pursued by Jessica Kincaid, a young agent of astonishing ability who - as a student of Janson's own lethal arsenal of tactics and techniques - can anticipate and counter his every move. To survive, Janson must outrace a conspiracy that has gone beyond the control of its originators. To win, he must counter it with a conspiracy of his own. With mere days, perhaps only hours, remaining, and shadowed by a secret that links Janson's violent life with that of the visionary peacemaker Peter Novak, Janson's only hope is to uncover the nearly unimaginable truth behind these events - a truth that has the power to foment wars, topple governments, and change the very course of history.

Disney/Pixar Turning Red: The Graphic Novel Simon and Schuster
When *The Unbearable Lightness of Being* was first published in English, it was hailed as "a work of the boldest mastery, originality, and richness" by critic Elizabeth Hardwick and named one of the best books of 1984 by the New York Times Book Review. It went on to win the Los Angeles Times Book Prize for Fiction and quickly became an international bestseller. Twenty years later, the novel has established itself as a modern classic. To commemorate the anniversary of its first English-language publication, HarperCollins is proud to offer a special hardcover edition. A young woman in love with a man torn between his love for her and his incorrigible womanizing; one of his mistresses and her humbly faithful lover -- these are the two couples whose story is told in this masterful novel. Controlled by day, Tereza's jealousy awakens by night, transformed into ineffably sad death-dreams, while Tomas, a successful surgeon, alternates loving devotion to the dependent Tereza with the ardent pursuit of other women. Sabina, an independent, free-spirited artist, lives her life as a series of betrayals -- of parents, husband, country, love itself -- whereas her lover, the intellectual Franz, loses all because of his earnest goodness and fidelity. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight. Hence we feel, says the novelist, "the unbearable lightness of being" -- not only as the consequence of our private acts but also in the public sphere, and the two inevitably intertwine. This magnificent novel encompasses the extremes of comedy and tragedy, and embraces, it seems, all aspects of human existence. It juxtaposes geographically distant places (Prague, Geneva, Paris, Thailand, the United States, a forlorn Bohemian village); brilliant and playful reflections (on "eternal return," on kitsch, on man and animals -- Tomas and Tereza have a beloved dog named Karenin); and a variety of styles (from the farcical to the elegiac) to take its place as perhaps the major achievement of one of the world's truly great writers.
