This book contains seven excellent Internal Assessments (IA) for the IB Chemistry course. Our goal is to help you understand how success is achieved in the IA so that you can go on to obtain a similar result. Alongside these IAs is a clear and comprehensive guide on how to write yours, including everything from how to choose an interesting topic to how to integrate the IA with your studies and the syllabus. The guide also includes links to various online resources which may help you achieve the maximum mark. Sections include: - Structure: how to plan your Chemistry IA the ideal way - Ideas: an exhaustive list of excellent sources and websites - Assessment: maximizing your marks with one eye on the grading criterion - Technology: what tools can be used to improve your IA Our guide makes frequent reference to the grading matrix and the format that your IA should follow, as well as highlighting details which you must bear in mind when carrying out your investigation. EIB Education (Elite IB Tutors) are a globally recognized authority in the International Baccalaureate. Having supported thousands of students across 40 countries in the past 7 years, EIB supports students, families and schools through the entire IB journey.

Exam Guide with Key Points Pearson Education ESL

This IB Chemistry book may be your best bet for a comprehensive and effective review of the SL or HL course material. The book has friendly and understandable explanations of complex concepts, with 250 practice questions for the test, as well as a complete listing of all related terms and their explanation. Important equations are listed throughout each content chapter, covering what you need to know in order to excel in the SL or HL test. Questions with answers include an overview section, and an additional in-depth section if you need further clarification. The user-friendly format makes it one of the best IB Chemistry review book available. It provides a means for developing study plans that you can customize to fit your needs. It isn't too skimpy or too overwhelming with information. It also provides a great way for structuring your studying, which is helpful if you consider yourself somewhat less than a totally organized student.
