This book integrates the fundamental theories of decentralization and rural development, providing a comprehensive explanation of how they can be successfully implemented to improve the livelihoods of rural communities in Indonesia. The topics addressed in this book include participatory budgeting, social capital, community participation, local capacity development, and poverty alleviation, which are discussed in detail from the perspectives of local politics, public administration, rural economy, and community studies. The multifaceted interrelations between these disciplines are analyzed to formulate a framework identifying the opportunities and challenges involved in formulating guiding principles for the implementation of decentralization. Readers are provided with the necessary intellectual groundwork through theoretical discussions and case studies involving grassroots realities in Indonesian villages. This book is highly recommended for all readers who are seeking an in-depth understanding of modern efforts to effectively implement decentralization in developing countries to promote local democratization, community empowerment, and poverty alleviation.

### Communities and Livelihood Strategies in Developing Countries

Whether the goal is building a local park or developing disaster response models, collaborative governance is changing the way public agencies at the local, regional, and national levels are working with each other and with key partners in the nonprofit and private sectors. While the academic literature has spawned numerous case studies and context- or policy-specific models for collaboration, the growth of these innovative collaborative governance systems has outpaced the scholarship needed to define it. Collaborative Governance Regimes breaks new conceptual and practical ground by presenting an integrative framework for working across boundaries to solve shared problems, a typology for understanding variations among collaborative governance regimes, and an approach for assessing both process and productivity performance. This book draws on diverse literatures and uses rich case illustrations to inform scholars and practitioners about collaborative governance regimes and to provide guidance for designing, managing, and studying such endeavors in the future. Collaborative Governance Regimes will be of special interest to scholars and researchers in public administration, public policy, and political science who want a framework for theory building, yet the book is also accessible enough for students and practitioners.

Every month in every neighborhood in Chicago, residents, teachers, school principals, and police officers gather to deliberate about how to improve their schools and make their streets safer. Residents of poor neighborhoods participate as much or more as those from wealthy ones. All voices are heard. Since the meetings began more than a dozen years ago, they have led not only to safer streets but also to surprising improvements in the city's schools. Chicago's police department and school system have become democratic urban institutions unlike any others in America. Empowered Participation is the

compelling chronicle of this unprecedented transformation. It is the first comprehensive empirical analysis of the ways in which participatory democracy can be used to effect social change. Using city-wide data and six neighborhood case studies, the book explores how determined Chicago residents, police officers, teachers, and community groups worked to banish crime and transform a failing city school system into a model for educational reform. The author's conclusion: Properly designed and implemented institutions of participatory democratic governance can spark citizen involvement that in turn generates innovative problem-solving and public action. Their participation makes organizations more fair and effective. Though the book focuses on Chicago's municipal agencies, its lessons are applicable to many American cities. Its findings will prove useful not only in the fields of education and law enforcement, but also to sectors as diverse as environmental regulation, social service provision, and workforce development.

**Fourth Regional Plan** Yayasan Pustaka Obor Indonesia Christian mission in the twenty-first century has become the responsibility of a global church. The heart of 'mission' is the drive to cross geographical, cultural and social barriers in order to share the good news of Jesus Christ with all peoples. Drawing on his involvement in missionary work over many years, Samuel Escobar explores how the church spreads the Christian faith. God's Word forms the foundation for his reflections, while he uses insights from theological and historical studies as well as from the social sciences to gain a clearer understanding of the church's missionary calling. **Restoring Fiscal Discipline for Poverty Reduction in Peru** Musepaper

Sustainability of rural communities is threatened by a plethora of factors including climate change and disasters which interact in an intricate manner in making rural people vulnerable and poor. This book is the output of empirical research on communities and livelihood strategies in developing countries. It reveals how rural communities are functioning and earning their livelihoods by making the best use of the resources, local/internal or external/new and the combination of the two to counteract the various challenges they face, with the ultimate goal of becoming resilient to local or global shocks and sustaining that resilience. Local governance is identified as crucial in ensuring sustainable livelihoods as it ensures healthy collaboration between communities, on the one hand and civil society and those communities, on the other hand, in promoting self-sustaining development trajectories. Similarly, the role of social capital is not ignored as it brings in community drive and a sense of purpose, direction and solidarity among community members which facilitates problem solving in periods of crises and disasters.

**IMO Member State Audit Scheme (IMSAS) 2015** Langham Global Library

Buku bunga rampai ini menarik karena bukan saja mengupas perkembangan permasalahan, kebijakan dan strategi PAD tetapi juga bagaimana kapasitas daerah dikaitkan dengan capaian pembangunan regional. Selain itu juga, buku ini mengungkapkan hasil penelitian lapangan yang telah dilakukan pada tahun 2016, di mana Provinsi DKI Jakarta, Provinsi Jawa Barat, Kota Bandung dan Kota Tangerang dijadikan sebagai lokus dan fokus pembahasan. Hasil penelitian menemukan bahwa memasuki tahun ke-17 penerapan otonomi daerah di Indonesia, permasalahan yang dihadapi dalam peningkatan PAD relatif masih sama. Umumnya pemerintah daerah belum mampu mengidentifikasi potensi sumber pendapatannya dan sebagian besar daerah masih belum dapat mengoptimalkan penerimaan pajak daerah, retribusi daerah, atau bahkan penerimaan dari hasil kekayaan daerah yang dipisahkan. Selain itu, daerah juga menganggap rendahnya PAD sebagai akibat dari ruang gerak daerah yang terbatas, sementara potensi pendapatan pajak yang besar masih diatur oleh pusat, seperti Pajak Penghasilan dan Pajak Pertambahan Nilai. Terakhir, kesiapan Sumber Daya Manusia (SDM), baik dalam kuantitas maupun kualitas dirasakan

belum optimal. Buku ini mencoba mengulas beberapa kebijakan dan strategi yang dapat dilakukan daerah untuk mengatasnya. [A Periodic Table Inspired Matte Soft Cover Notebook Journal to Write In. 120 Blank Lined Pages for Merlot Lovers](#) Princeton University Press
