Active Table of Contents

** This book comes complete with a Touch-or-Click Table of Contents, divided by each section. The Lais of Marie de France are a series of twelve short narrative Breton lais by the poet Marie de France. They are written in the Anglo-

Norman and were probably composed in the late 12th century. The short, narrative poems generally focus on glorifying the concept of courtly love through the adventures of their main characters. Despite her stature in Anglo-Norman literature and medieval French literature generally, little is known of Marie herself, though it is thought that she was born in France and wrote in England. Marie de France's lais, told in octosyllabic, or eight syllable verse, are notable

for their celebration of love, individuality of character, and vividness of description – hallmarks of the emerging literature of the times. Five different manuscripts contain one or more of the lais, but only one, Harley 978, a thirteenth century manuscript housed in the British Library, preserves all twelve. It has been suggested that if the author had indeed arranged the Lais as presented in Harley 978, that she may have chosen this overall structure to contrast the positive and

negative actions that can result from love. In this manuscript, the odd *lais* — "Guigemar," "Le Fresne," etc. — praise the characters who express love for other people. By comparison, the even *lais*, such as "Equitan," "Bisclavret" and so on, warn how love that is limited to oneself can lead to misfortune. The Harley 978 manuscript also includes a 56-line prologue in which Marie describes the impetus for her composition of the *lais*. In the prologue, Marie writes that she was

inspired by the example of the ancient Greeks and Romans to create something that would be both entertaining and morally instructive. She also states her desire to preserve for posterity the tales that she has heard. Two of Marie's *lais* — "Lanval," a very popular work that was adapted several times over the years (including the Middle English *Sir Launfal*), and "Chevrefoil" ("The Honeysuckle"), a short composition about Tristan and Iseult — mention King Arthur and

his Knights of the Round Table. Marie's *lais* were precursors to later works on the subject, and Marie was probably a contemporary of Chrétien de Troyes, another writer of Arthurian tales. You can buy other wonderful religious books from Wyatt North Publishing! Enjoy.
Dictionnaire national ou Dictionnaire universel de la langue française Simon and Schuster
This book is an anthology with a difference. It presents a distinctive variety of Anglo-Norman

works, beginning in the twelfth century and ending in the nineteenth, covering a broad range of genres and writers, introduced in a lively and thought-provoking way. Facing-page translations, into accessible and engaging modern English, are provided throughout, bringing these texts to life for a contemporary audience. The collection offers a selection of fascinating passages, and whole texts, many of which are not anthologised or translated anywhere else. It explores

little-known byways of Arthurian legend and stories of real-life crime and punishment; women's voices tell history, write letters, berate pagans; advice is offered on how to win friends and influence people, how to cure people's ailments and how to keep clear of the law; and stories from the Bible are retold with commentary, together with guidance on prayer and confession. Each text is introduced and elucidated with notes and full references, and the material is divided into

three main sections: Story (a variety of narrative forms), Miscellany (including letters, law and medicine, and other non-fiction), and Religious (saints' lives, sermons, Bible commentary, and prayers). Passages in one genre have been chosen so as to reflect themes or stories that appear in another, so that the book can be enjoyed as a collection or used as a resource to dip into for selected texts. This anthology is essential reading for students and scholars of Anglo-Norman

and medieval literature and culture. Wide-ranging and fully referenced, it can be used as a springboard for further study or relished in its own right by readers interested to discover Anglo-Norman literature that was written to amuse, instruct, entertain, or admonish medieval audiences.

In recent decades the explosive growth of

globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as

a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.
