nature of the financial
markets. Introduction. The
money and capital
markets are at the
economic centre of the
industrial and commercial
world. Both firms and
individuals rely upon the
efficient operation of
these markets for
obtaining capital for
invest- ment purposes or
money to meet their
short-term financial
needs. Over the last fifty
years the opera- tion of
the money and capital
markets has been
progressively 'globalised'

both to finance
international trade but
