"This series is getting stronger with every book."—Dear Author on Silent Witness This new collection includes the first 5 titles in The Dylan Scott Mystery series by Shirley Wells. PRESUMED DEAD Dismissed in disgrace from the police force for assaulting a suspect, Dylan Scott has no job, his wife has thrown him out and—worse luck—his mother has moved in. So when Holly Champion begs him to investigate the disappearance of her mother thirteen years ago, he can't say no, even though it means taking up residence in the dreary Lancashire town of Dawson's Clough for the duration. Although the local police still believe Anita Champion took off for a better life, Dylan's inquiries turn up plenty of potential suspects. But one sleepy Northern town can keep a lot of secrets. DEAD SILENT Ten months ago, Samantha Hunt set off for work...and was never seen again. Dylan Scott wants to believe the young woman's alive—by all accounts Sam was a lovely girl, devoted to her younger stepsisters, well-liked at her work, in love with her boyfriend. But as usual not everything is as it seems in sleepy Dawson's Clough. Sam's boyfriend has a violent past. She may have been having an affair with her boss. And Dylan can't shake the feeling that her stepfather is hiding something. Who wanted to silence Sam, and why? SILENT WITNESS After his ex-wife bled to death in a bathtub covered in his fingerprints, the case against Aleksander Kaminski seemed open and shut. Though sentenced to life in prison, he swears he's innocent, a claim supported by his current wife. Having been unjustly jailed himself, P.I. Dylan Scott is compelled to pursue the case; if there's even a small chance the man is innocent, he has to help. The other obvious suspect—the victim's second husband—has a watertight alibi. But Dylan has a strong hunch that as usual, there's more going on than meets the eye in Dawson's Clough. But if Kaminski didn't murder his childhood sweetheart, who did? DEAD CALM Detective Dylan Scott thinks cruising well above the Arctic Circle in November is nothing short of madness; he agrees to the Norwegian holiday to keep his wife and mother happy. At least the biggest problem he'll have to deal with is boredom. But that boredom quickly dissipates when the unpleasant elderly woman in the neighboring cabin is found dead. Everyone thinks Hanna Larsen had a heart attack. Everyone except Dylan. Dylan is convinced there's a killer aboard the Midnight Sun—a killer who may strike again. DYING ART Dylan Scott vowed never to return to the dreary town of Dawson's Clough. But one visit from a beautiful ex-lover and he's back in Lancashire, investigating a possible murder. The police think Prue Murphy died during a burglary gone wrong, but her sister isn't so sure—and neither is Dylan. After all, the killer overlooked the only valuable thing in Prue's flat. Who could have wanted the quirky young woman dead, and why? Dylan's search for answers takes him to France, where he discovers Prue's family didn't know her as well as they thought they did. And the more he digs, the more secrets he unearths—secrets someone would kill to keep buried. **Auto e fisco. As a follow up to the bestselling Killing Kebab: An Underworld Exposed (2010), the new book from Mandy Wiener, Ministry of Crime: An Underworld Explored, examines how organised crime, gangsters and powerful political figures have been able to capture the law enforcement authorities and agencies. These various organisations have been eviscerated, hollowed out and left ineffective. They have been infiltrated and compromised and, as a result, prominent underworld figures have been able to flourish in South Africa, setting up elaborate networks of crime with the assistance of many cops. The criminal justice system has been left exposed and it is crucial that the South African public knows about the capture that has occurred on different levels.

Roger Fraser continues to battle the vexing absurdities of modernism, his aim to stay out of the doghouse by adopting meditation as an antidote to combat his hang-ups. When it comes to neutralising uppity officials and slaying implacable harridans masquerading as mewling princesses, Roger has no equal in the world of high-finance and within his wife Charlotte’s social set. He survives a no-nonsense outward bound course instructor, boldly engages status quo doyens including an intractable hanging judge and a very persistent spook, avoids being mugged by lazoonland trailer trash, and subdues an autocratic drama teacher. On a lighter note, Roger dodges the clutches of jailbait schoolgirls, is bedeviled by an overzealous impresario and battles intransigent shrews amongst a plethora of highly contentious and hilarious incidents, but despite his new found remedy, inevitably he winds up in the doghouse, wondering where it all went wrong. **Ward's Automotive Yearbook** GRIN Verlag

Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, EGADE Business School, language: English, abstract: The automobile industry is famous for being ahead of the curve in most areas. Automotive companies cannot rely on a one-time announcement or word-of-mouth chatter to keep a steady stream to customers. These companies have to have well developed advertising strategies in their marketing processes, in order to sustain a profitable growth in all the markets they serve throughout the world.

Mercedes-Benz (MB) is a German high-class automobile company. Its products stand for luxury, reliability and dependability. The company belongs to the multinational division of the German manufacturer Daimler AG and has its headquarters in Stuttgart, Baden-Württemberg, Germany. The company has 274,616 employees and gained a profit of 10,887 billion U.S. dollar with revenue of 147,257 billion U.S. dollars. Mexico is very important for the company’s North American strategy, which can be proved by the fact that Mercedes-Benz produces its cars in Monterrey, Nuevo Leon, Mexico. According to the McKinsey Global Media Report 2013 Latin America provided the highest growth in expenditure for advertising, in 2012 the increase was 13.3 percent. The increasing investments of automotive companies are a reason for it - in 2011 the industry expanded its expenditures in advertising by 101 percent. A critical analysis of the MB’s marketing strategy in Mexico is the purpose of this research paper. Since we are not able to cover all aspects of the marketing of MB due to the limitation of 10 to 15 pages for this paper, the study will be focusing on the following areas: sponsoring, social media, TV advertisements and magazine commercials. Thus, other areas of marketing like brand management or viral marketing will not be addressed. The products and services the company offers in Mexico will be mentioned. The

marketing strategy of Mercedes-Benz México will be described and target groups will be defined. At the end of this paper we will state how MB can use its marketing in Mexico more efficiently in order to gain higher profits.

Various combinations of commercially available technologies could greatly reduce fuel consumption in passenger cars, sport-utility vehicles, minivans, and other light-duty vehicles without compromising vehicle performance or safety. Assessment of Technologies for Improving Light Duty Vehicle Fuel Economy estimates the potential fuel savings and costs to consumers of available technology combinations for three types of engines: spark-ignition gasoline, compression-ignition diesel, and hybrid. According to its estimates, adopting the full combination of improved technologies in medium and large cars and pickup trucks with spark-ignition engines could reduce fuel consumption by 29 percent at an additional cost of \$2,200 to the consumer. Replacing spark-ignition engines with diesel engines and components would yield fuel savings of about 37 percent at an added cost of approximately \$5,900 per vehicle, and replacing spark-ignition engines with hybrid engines and components would reduce fuel consumption by 43 percent at an increase of \$6,000 per vehicle. The book focuses on fuel consumption-the amount of fuel consumed in a given driving distance-because energy savings are directly related to the amount of fuel used. In contrast, fuel economy measures how far a vehicle will travel with a gallon of fuel. Because fuel consumption data indicate money saved on fuel purchases and reductions in carbon dioxide emissions, the book finds that vehicle stickers should provide consumers with fuel consumption data in addition to fuel economy information.

In der deutschen Automobilindustrie ist es heutzutage überaus schwer für die Hersteller ihre Zielgruppen auf kommunikativem Weg zu erreichen. Bei der vorherrschenden Reizüberflutung durch Print- und elektronische Medien kommt lediglich ein Bruchteil der Information beim Adressaten an. Die Automobilhersteller sind heute also nicht nur mit der Herausforderung einer Produktdifferenzierung konfrontiert, sondern um diese überhaupt effektiv zu kommunizieren, müssen sie ein Alleinstellungsmerkmal in ihrer Kommunikationspolitik suchen („Unique Advertising Proposition“), mit dem sie ihre Zielgruppen auf emotionaler Ebene erreichen. Das vorliegende Buch beschäftigt sich ausführlich mit den Besonderheiten der deutschen Automobilindustrie und der daraus resultierenden besonderen Bedeutung des Erlebnismarketings in dieser Branche. Ferner wird die Integration des Eventmarketings in die Kommunikationspolitik der deutschen Automobilhersteller behandelt sowie einige typische Marketing-Events vorgestellt und kritisch bewertet.
