CHSPE Preparation Book 2020-2021 Mosby Incorporated  
A lost classic of Western herbalism—rediscovered and restored with 200 full-color images. Herbalist to King Charles I, John Parkinson (1567–1650) was a master apothecary, herbalist, and gardener. Famous in his own lifetime for his influential books, his magnum opus, the *Theatrum Botanicum*, was published in 1640 and ran to 1,766 large pages. The sheer scope and size was perhaps to prove the book's downfall, because while it was much revered—and plagiarized—it was never reprinted and, centuries later, has attained the status of an extremely rare and valuable book. Parkinson was writing at a time when Western herbalism was at its zenith, and his skills as a gardener (from his grounds in Covent Garden) combined perfectly with his passion for science, observation, and historical scholarship. In the *The Herbalist's Bible*, Julie Bruton-Seal and Matthew Seal have beautifully combined selections from Parkinson's book with their own modern commentary on how each plant is used today to create a truly one-of-a-kind, comprehensive collection of herbal information old and new. Parkinson's clear and lively description of a chosen plant's "vertues" or healing properties side-by-side with the editors' notes—including copious herbal recipes—make this the perfect book for students and practitioners of herbalism, historians, and gardeners, all of whom will welcome this restoration of Parkinson's lost classic.

**What It Means and How to Make It Happen** The Rosen Publishing Group, Inc

This book examines a wide range of innovative approaches for coastal wetlands restoration and explains how we should use both

academic research and practitioners' findings to influence learning, practice, policy and social change. For conservationists, tidal flats and coastal wetlands are regarded as among the most important areas to conserve for the health of the entire oceanic environment. As the number of restoration projects all over the world increases, this book provides a unique assessment of coastal wetland restorations by examining existing community perceptions and by drawing on the knowledge and expertise of both academics and practitioners. Based on a four-year sociological study across three different cultural settings – England, Japan and Malaysia – the book investigates how citizens perceive the existing environment; how they discuss the risks and benefits of restoration projects; how perceptions change over time; and how governmental and non-governmental organisations work with the various community perceptions on the ground. By comparing and contrasting the results from these three countries, the book offers guidance for future conservation and restoration activities, with a specific view to working with local citizens to avoid conflict and obtain long-term investment. This book will be of great interest to students and scholars of coastal restoration, wetland conservation and citizen science, as well as environmental sociology and environmental management more broadly. It will also be of use to practitioners and policymakers involved in environmental restoration projects.

This book teaches medical coding for anesthesia and pain management. It will prepare the reader for passing the Certified Anesthesia and Pain Management Coder (CANPC) exam as well as improving their professional practice. The book goes beyond the concepts and applications that are required to pass the exam. It provides critical insights into actual scenarios faced by coders in the real world. 70 unique cases are presented that will highlight

the correct coding method. These give the reader practice in applying principles to actual patient cases. The author's unique formula allows the reader to arrive at the best coding decision for the most complex patients. Each case is discussed from a clinical viewpoint to explain the coding rationale. This book is both an invaluable asset for anyone working towards a CANPC exam but also serves as a useful reference for those currently holding the certificate.

The Global Status Report on Road Safety 2018, launched by WHO in December 2018, highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians, cyclists and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives.

Jamie Reidy is the guy who's been there, done that, and walked away with the insider stories. Inside *Hard Sell: Now a Major Motion Picture* LOVE and OTHER DRUGS, you'll find yourself rooting for Reidy and shocked by the realities of the world that paid his salary. This comedic expose traces Reidy's experiences from Pfizer training to life as the "V-Man," when Reidy became Pfizer's number-one drug rep during the Viagra craze. With equal parts self-confidence and self-mockery, Reidy takes the reader on a hilarious romp through pharma-culture while revealing the controversial side of the drug industry. From viewing a circumcision to gaining a doctor's rapport to providing insight on why doctors choose to prescribe Drug X over Drug Y, and from how to bargain "sigs" and "scripts" to why the Viagra pill is shaped as a diamond, Reidy discloses everything. A witty, behind-the-scenes look at an industry that touches everyone in America with a prescription, *Hard Sell* uncovers truths about the pharmaceutical industry you'd rather not know and practices you'd like to believe weren't employed. *Hard Sell* has been

adapted into a major motion picture starring Jake Gyllenhaal and Anne Hathaway.

What do you do when your life feels as busy as a three-ring circus? *Juggling Elephants* tells a simple but profound story about one man with a universal problem. Mark has too much to do, too many priorities, too much stress, and too little time. As he struggles to balance his many responsibilities without cracking under the pressure, Mark takes a break to attend the circus with his family. There he has a surprising conversation with a wise ringmaster. He leaves with a simple but powerful lesson: Trying to get everything done is like juggling elephants -- impossible. So Mark begins to think about his work, family, and personal life the way a ringmaster thinks about the many acts in a three-ring circus. He discovers that managing his various acts can be fun and easy once he changes his attitude and follows his new friend's ongoing guidance. Mark soon realizes: • If you keep trying to juggle elephants, no one, including you, will be thrilled with your performance. • A ringmaster cannot be in all three rings at once. • The key to the success of a circus is having quality acts in all three rings. • Intermission is an essential part of any good circus. *Juggling Elephants* is a wonderfully lighthearted guide for everyone who feels like they're about to be squashed. It will help you better focus your time and energy, so you'll be able to enjoy more of the things that are important to you. Above all, it will teach you how to run your circus, instead of letting the circus run you.
