Twenty-two years ago, author Peter Venison's *Hotel Management* became a best seller in the hotel and tourism industry, labeled a "must read" on the curriculum of every hotel school, and landed on the bookshelf of every hotel manager. Despite many requests for a follow-up volume, Venison declined, on the basis that he had nothing new to say. Now he does. Holed up for several weeks in five star hotels while concluding a complicated business deal, Venison realized that the standards offered by the industry still fall short of perfection. As a result, he has put pen to paper to produce this handy catalogue of suggestions to hoteliers, based upon his considerable personal experience as a hotelier and perpetual hotel guest. *100 Tips for Hoteliers* guides you from the inception of a hotel to its opening and operation, offering practical tips for each stage of the journey. It should prove equally useful to hotel school students as a checklist of what they can expect, and

also to practicing hotel managers as a reminder of their responsibilities. Proceeds from the sale of *100 Tips for Hoteliers* will be donated to the Duke of Edinburgh Cup charity. *Cutting Edge Thinking and Practice* PHI Learning Pvt. Ltd.

The

overarching concept of the text spotlights three major areas of expertise required for the success of lodging professionals: management of resources, administration of assets, and knowledge of technical operations. The text explores the role of the housekeeping department in hotel/lodging operations, and focuses mainly on the effective communication between the housekeeping, front office, and engineering and maintenance staff. This edition will have the same focus on the management- and administration-based philosophy from the 1st Edition, but with a stronger focus on the engineering aspects of housekeeping. The book also incorporates new concepts of energy conservation and risk management to address the latest sustainability and security trends in the industry, as well as updated information on guestroom technology.
