When a local context really makes the difference... The new edition of this original Australian text continues to offer the most balanced coverage of theory and research for Australian students and

educators and appeals to students from many backgrounds. It covers the domains of development including neurological, cognitive, social, physical and personality. The text is organised chronologically by chapter. Within each chapter content is organised topically. This structure allows for a degree of flexibility and lecturers can choose the way they wish to approach the content, whether it is topically or chronologically. *Psychology* Pearson

One of the top sellers in the field, "Cognitive Psychology" is well-written, humorous, and remains the most comprehensive and balanced text in the area of undergraduate cognition. MacLin and MacLin, inheriting the textbook from the late Robert L. Solso, boldly revised and reorganized the Eighth Edition to

reflect emerging trends in the field, while retaining the strengths that made it one of the most popular texts among students and professors. The text features a sequential model of human cognition from sensation to perception, to attention, to memory, to higher-order cognition, and features new cutting-edge coverage of consciousness, cognitive neuroscience, memory and forgetting, and evolutionary psychology.

The most authoritative and comprehensive text in Abnormal Psychology The esteemed author team of Jim Butcher, Sue Mineka, and Jill Hooley offers students the most thoroughly researched, engaging, and up-to-date explanation of psychopathology, creating a learning experience that provokes thought and increases awareness. By adopting a comprehensive bio-psycho-social perspective, this text takes students to levels of understanding that other books do not offer. Hundreds of new references have been added to reflect the ever-changing field of abnormal psychology. This 15th edition includes specialized

feature boxes highlighting many of the changes that are expected in the upcoming revision of the Diagnostic and Statistical Manual (DSM-5). A better teaching and learning experience This program will provide a better teaching and learning experience- for you and your students. Here's how: *Personalize Learning - The new MyPsychLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. *Explore Research - The authors present their diverse research interests in an exciting way that provokes thought and increase awareness.

Helps future teachers apply the theory and research of educational psychology to increase student learning and development. Provides a sound theoretical and research-based foundation and specific and concrete illustrations and guidelines for applying this theory and research with students. Each chapter begins with a case study taken from actual classroom practice. Eggen and Kauchak then weave the case throughout each chapter-extracting specific illustrations from it, and in some instances taking dialogue directly from the case-to illustrate classroom applications of the theory and research. Eggen and Kauchak include many other concrete examples, taken both from classrooms and from daily living, to illustrate the content of each chapter.

"H"elps students relate current research in the field of personality psychology to their daily lives."Written with an approachable, story-telling style, Marianne Miserandinohelps students understand how personality psychology applies to students' everyday lives. "Personality Psychology: Foundations and Findings "presents an evidence-based text with integrated cultural references and the key building blocks of

the subject matter ("Foundations"): traits, genetics, self and identity, neuroscience, intrapsychic aspects, regulations and motivation, and cognition as it applies to the human personality. "Findings "refers to the cutting edge research in each of these areas in which personality psychologists are actively engaged every day. Miserandino is an APA-award winning teacher and has placed learning tools such as self-assessments within each chapter that guide students into a complete understanding throughout the text. Miserandino has also written the instructor's manual.Learning GoalsUpon completing this book, readers should be able to: Analyze both the foundations and findings of the research process Learn about themselves, the people

around them, and how personality psychology applies to their everyday lives Understand and interpret new discoveries in psychology and related fields as they occur in the future Click here to view a sample chapter <http://bit.ly/Miserandino>
