A Critical Approach  
 Cengage Learning  
 This volume provides an extensive overview of current research on the complex relationships between gender and communication. Featuring a broad variety of chapters written by leading and upcoming scholars, this edited collection uses diverse theoretical frameworks to provide insight into recent concerns regarding changing gender roles, representations, and resources in

communication studies. Established research and new perspectives address vital themes in this comprehensive text, including the shifting politics of gender, ethical and technological trends in gendered media, and gender in daily life. Comprising 39 chapters by a team of international contributors, the Handbook is divided into six thematic sections: • Gendered lives and identities • Visualizing gender • The politics of gender • Gendered contexts and strategies • Gendered violence and communication • Gender advocacy in action These sections examine central issues, debates, and problems, including the ethics and politics of gender as identity, impacts of media and technology, legal and legislative battlegrounds for gender inequality and LGBTQ+ human rights, changing institutional contexts, and recent research on gender violence and communication. The final section links academic research on gender and communication to activism and advocacy beyond the academy. The Routledge Handbook of Gender and Communication will be an

invaluable reference work for students and researchers working at the intersections of gender studies and communication studies. Its international perspectives and the range of themes it covers make it an essential and pragmatic pedagogical resource.

While women in the United States account for nearly half the workforce, they continue to encounter unique personal, social, and structural dynamics as leaders. Authors Lisa DeFrank Cole and Sherylle J. Tan explore these dynamics and more in *Women and Leadership: Journey Towards Equity*. Grounded in leadership theory and research, this text delves into the barriers and challenges women face on their leadership journeys, including stereotypes, bias, inequality, discrimination, and domestic responsibilities. The text includes several chapters devoted to strategies and tools for overcoming obstacles, creating structural change, and moving towards greater equity.

*Gender and Close Relationships* deals with gender and its possible effects on aims and behaviour in close

relationships: dating, romantic and sexual partnerships, marriage and friendship. The authors warn their readers that they should not be looking at why there are gender differences, but at whether, when and under what conditions. The book starts with the explanatory concepts that have been found useful in considering these questions. The authors suggest two dimensions of explanations for gender differences: one dimension involves structural (social roles and expectations) versus individual (traits, needs etc.) explanations. The other dimension distinguishes between socialisation and biological explanations.... This is not just a

*Undoing Gender* constitutes Judith Butler's recent reflections on gender and sexuality, focusing on new kinship, psychoanalysis and the incest taboo, transgender, intersex, diagnostic categories, social violence, and the tasks of social transformation. In terms that draw from feminist and queer theory, Butler considers the

norms that govern--and fail to govern--gender and sexuality as they relate to the constraints on recognizable personhood. The book constitutes a reconsideration of her earlier view on gender performativity from *Gender Trouble*. In this work, the critique of gender norms is clearly situated within the framework of human persistence and survival. And to "do" one's gender in certain ways sometimes implies "undoing" dominant notions of personhood. She writes about the "New Gender Politics" that has emerged in recent years, a combination of movements concerned with transgender, transsexuality, intersex, and their complex relations to feminist and queer theory.

How does gender influence social movements? How do social movements deal with gender? In *Gender and Social Movements*, Jo Reger takes a comprehensive look at the ways in which people organize around gender issues and how gender shapes social movements. Here gender is more than

an individual quality, it is a part of the very foundation of social movements, shaping how they recruit, mobilize and articulate their strategies, tactics and identities.

Moving past the gender binary, Reger explores how movements can shift understandings of gender and how backlash and countermovements can often follow gendered movement successes.

Adopting both an intersectional and global lens, the book introduces readers to the idea that gender as a form of societal power is integral in all efforts for social change. With a critical overview across different types of movements and gender activism, such as the women's liberation, #MeToo and transgender rights movements, this book offers a solid foundation for those seeking to understand how gender and social movements interact.

Written by award-winning African novelist Mariama

Bâ and translated from the original French, *So*

*Long a Letter* has been

recognized as one of Africa's 100 Best Books of the 20th Century. The brief narrative, written as an extended letter, is a sequence of reminiscences—some wistful, some bitter—recounted by recently widowed Senegalese schoolteacher Ramatoulaye Fall. Addressed to a lifelong friend, Aissatou, it is a record of Ramatoulaye's emotional struggle for survival after her husband betrayed their marriage by taking a second wife. This semi-autobiographical account is a perceptive testimony to the plight of educated and articulate Muslim women. Angered by the traditions that allow polygyny, they inhabit a social milieu dominated by attitudes and values that deny them status equal to men. Ramatoulaye hopes for a world where the best of old customs and new freedom can be combined. Considered a classic of contemporary African women's literature, *So Long a Letter* is a must-read for anyone interested in African literature and the passage from colonialism to modernism in a Muslim country. Winner of the prestigious Noma Award

 Gender in Communication: A Critical Introduction embraces the full range of diverse gender identities and expressions to explore how gender influences communication, as well as how communication shapes our concepts of gender for the individual and for society. This comprehensive gender communication book is the first to extensively address the roles of religion, the gendered body, single-sex education, an institutional analysis of gender construction, social construction theory, and more. Throughout the book, you are equipped with critical analysis tools you can use to form your own conclusions about the ever-changing processes of gender in communication. New to the Third Edition: Current examples in the chapter openers illustrate how a critical gendered lens is necessary and useful by discussing recent events, such as Jon Stewart's critique of the outcry over a J. Crew ad, reactions to Serena Williams's body, photos of a young boy who likes to wear dresses,

and the use of Photoshop to create thigh gaps. Updated chapters on voices, work, education, and family reflect major shifts in the state of knowledge. Expanded sections on trans and gender non-conforming identities reflect changes in language. All other chapters have been updated with new examples, new concepts, and new research. More than 500 new sources have been integrated throughout, and new sections on debates over bathroom bills, intensive mothering, humor, swearing, and Title IX have been added. "His" and "her" pronouns have been replaced with "they" in most cases, even if the reference is singular, in an effort to be more inclusive.  In this engrossing and original book, Leslie Salzinger takes us with her into the gendered world of Mexico's global factories. Her careful ethnographic work, personal voice, and sophisticated analysis capture the feel of life inside the maquiladoras and make a compelling case that transnational production is a gendered

process. The research grounds contemporary feminist theory in an examination of daily practices and provides an important new perspective on globalization.

Globally climate-induced disasters have been impacting marginalised communities' lives, livelihood and gendered relations. This book explores the effects of Cyclone Aila (as a result of climate change) in 2009 on the rural livelihoods and gendered relations of two ethnically

distinct forest communities – Munda, an indigenous group, and Shora, a Muslim group – dwelling near the Sundarbans Forest in Bangladesh. Examining the cyclone's medium- to long-term impacts on livelihoods and comparative aspects of gendered relations between these two contrasting communities, this book addresses a gap in current critical development studies. It adopts an ethnographic research design and analyses the alterations to livelihood activities and reconfiguration of gender relations within the Munda and Shora communities since 2009. The study primarily contends that post-Aila, livelihoods and gendered relations have been substantially transformed in both communities, making the case that the improvement of local infrastructure, as an important part of the geographical location, has noticeably progressed the living conditions and livelihoods of some members of the Munda and Shora communities. Connecting climate-induced changes with the construction and alteration of gendered livelihood patterns, the

book will be of interest to a wide range of academics in the fields of Asian Studies, Sociology

of Environment, Social Anthropology, Human Geography, Gender and Cultural Studies, Human

Geography, Disaster Management and Forestry and Environmental Science.
