Interest Inventory Test The Strong-Campbell Interest Inventory, or SCII, is the fruit of the collaboration of two psychologists who may be considered as the frontrunners of vocational interest assessment. These two are Edward K. Strong, Jr. (who created a predecessor of the SCII called Strong Interest Inventory) and David Campbell. Strong came up with the idea of creating an interest assessment tool after noticing that the differences in the likes and dislikes of people tend to be consistent over time. The Strong-Campbell Interest Inventory; a Reliable ... The Strong Interest Inventory is a career self assessment tool. Career development specialists administer it to clients as a way to measure their interests and ultimately help them choose a career or college major. It was developed by E.K. Strong, a psychologist, in the early twentieth century. A Brief History of E.K. Strong's Interest Inventory Strong Interest Inventory - All About This Career Assessment The Strong Interest Inventory is an interest inventory used in career assessment. As such, career assessments may be used in career counseling. The goal of this assessment is to give insight into a person's interests, so that they may have less difficulty in deciding on an appropriate career choice for themselves. It is also frequently used for educational guidance as one of the most popular career assessment tools. The test was developed in 1927 by psychologist Edward Kellogg Strong, Jr. to help Strong Interest Inventory - Wikipedia The Strong Interest Inventory® Test is a psychological instrument that began its formation in the years following World War I through the work of E.K. Strong, Jr. Strong went on to publish the first version of the Inventory in 1927. The purpose of the Inventory was based around studying the occupational interests of men and women.
