are back-with retirement planning advice for those who need it! Whatever your current financial situation, you must continue to strive for a viable retirement plan by finding the most effective ways to save, the best accounts to save in, and the right amount to save, as well as understanding how to insure against setbacks and handle the uncertainties of a shaky

economy. Fortunately, the Bogleheads, a group of like-minded individual investors who follow the general investment and business beliefs of John C. Bogle, are here to help. Filled with valuable advice on a wide range of retirement planning issues, including some pearls of wisdom from Bogle himself, The Bogleheads' Guide to Retirement Planning has everything

you need to succeed at this endeavor. Explains the different types of savings accounts and retirement plans Offers insights on managing and funding your retirement accounts Details efficient withdrawal strategies that could help you maintain a comfortable retirement lifestyle Addresses essential estate planning and gifting issues With The Bogleheads' Guide to Retirement

Planning, you'll discover exactly what it takes to secure your financial future, today.

The Only Retirement Guide You'll Ever Need

John Wiley & Sons
The irreverent guide to investing, Boglehead style The Boglehead's Guide to Investing is a DIY handbook that espouses the sage investment wisdom of John C. Bogle. This witty and wonderful book offers contrarian advice that

provides the first step on the road to investment success, illustrating how relying on typical "common sense" promoted by Wall Street is destined to leave you poorer. This updated edition includes new information on backdoor Roth IRAs and ETFs as mainstream buy and hold investments, estate taxes and gifting, plus changes to the laws regarding Traditional and Roth IRAs,

and 401k and 403b retirement plans. With warnings and principles both precisely accurate and grandly counterintuitive, the Boglehead authors show how beating the market is a zero-sum game. Investing can be simple, but it's certainly not simplistic. Over the course of twenty years, the followers of John C. Bogle have evolved from a loose association of investors to a major force

with the largest and most active non-commercial financial forum on the Internet. The Boglehead's Guide to Investing brings that communication to you with comprehensive guidance to the investment prowess on display at Bogleheads.org. You'll learn how to craft your own investment strategy using the Bogle-proven methods that

have worked for thousands of investors, and how to: Choose a sound financial lifestyle and diversify your portfolio Start early, invest regularly, and know what you're buying Preserve your buying power, keeping costs and taxes low Throw out the "good" advice promoted by Wall Street that leads to investment failure Financial markets are essentially

closed systems in which one's gain garners another's loss. Investors looking for a roadmap to successfully navigating these choppy waters long-term will find expert guidance, sound advice, and a little irreverent humor in The Boglehead's Guide to Investing.
