This Handbook presents up-to-date scholarship on the causes and predictors, processes, and consequences of divorce and relationship dissolution. Featuring contributions from multiple disciplines, this Handbook reviews relationship termination, including variations depending on legal status, race/ethnicity, and sexual orientation. The Handbook focuses on the often-neglected processes involved as the relationship unfolds, such as infidelity, hurt, and remarriage. It also covers the legal and policy aspects, the demographics, and the historical aspects of divorce. Intended for researchers, practitioners, counselors, clinicians, and advanced students in psychology, sociology, family studies, communication, and nursing, the book serves as a text in courses on divorce, marriage and the family, and close relationships.

Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

Since Descartes famously proclaimed, "I think, therefore I am," science has often overlooked emotions as the source of a person's true being. Even modern neuroscience has tended, until recently, to concentrate on the cognitive aspects of brain function, disregarding emotions. This attitude began to change with the publication of Descartes' Error in 1995. Antonio Damasio—"one of the world's leading neurologists" (The New York Times)—challenged traditional ideas about the connection between emotions and rationality. In this wondrously engaging book, Damasio takes the reader on a journey of scientific discovery through a series of case studies, demonstrating what many of us have long suspected: emotions are not a luxury, they are essential to rational thinking and to normal social behavior.

In the late 1970s, Richard convinced his wife, Sandra, they should leave their promising professional careers and comfortable suburban lifestyle to start an azalea nursery in the foothills of the Blue Ridge Mountains. With no horticultural training or business experience, few mechanical skills, and absolutely no idea what they were getting themselves into, numerous adventures followed. In the third book in the planned four-book series, Richard continues the couple's colorful story, a story of triumph and despair, of high expectations and harsh reality, and of the people who touched their lives along the way. In the tradition of Laura Ingalls Wilder's "Little House" series, Mountain of My Dreams shares the true story of one family's memorable, often remarkable 30-year journey. Much more than just another "back to the land" chronicle, this is a heartwarming tale of a man, a woman, and their belief in each other. If you've ever wondered why the less-traveled road is less traveled, you need to read their story.

It often happens that people compromise their faith to suit their lifestyle. Their black and white sense of right and wrong gets trapped in a gray area. In NO COMPROMISE, founder and president of Family Policy Institute (FPI), Errol Naidoo, maintains that the major reason for the moral decline in the world today is the lack of conviction and commitment of Christians to be salt and light in society. Even though prayer is the foundation of everything a Christian does, NO COMPROMISE states that Christians shouldn't "just pray" and not engage in politics and social issues. Naidoo spurs readers on not only to be people of prayer, but also people of action. They should adjust their lifestyle according to their faith, no compromise!

A trapped immortal planning escape... A prince who is the key... And a magic book that may lead the key to open the lock... Just turned 18, Prince Temmin Antremont has finally joined his father's court, only to walk straight into a power struggle between the secular and the sacred. The twin gods of love and sex call Temmin to serve in the Lovers' Temple for two years, a call made even more tempting by the seductive twins who embody the gods. Prophecy suggests that Temmin's entrance into the Temple spells the kingdom's end, and the King will stop at nothing to prevent it. But the king's own advisor, a strange immortal called Teacher, comes to Temmin's aid. Why? And does the kingdom's fate really hinge on one young man's decision? Lovers and Beloveds is the first book in the acclaimed Victorianesque fantasy series An Intimate History of the Greater Kingdom, which continues with Son in Sorrow. Raves and a 4-star average at Goodreads! "Everything I adore in high fantasy--lush worldbuilding, political intrigue, and compelling characters--combined with something I rarely find in high fantasy--intelligent, well-written, relevant sex. MeiLin Miranda's a damn fine writer and definitely one I'll be keeping my eye on in the future!" -- M.K. Hobson, author of The Native Star "If George R. R. Martin's Song of Ice and Fire series captures the gritty realism of medieval history, Lovers and Beloveds reveals the intimate and personal dynamics of power in aristocracies. It weaves together a rich multi-layered story that explores how sex and power shape history and individual

destiny--sharing a perspective that's beyond the 'men, swords, and thrones' (capital H) history that's often seen in fantasy." -- book blogger Frida Fantastic "[C]aptivating - almost like an anthropological study of sex, identity, gender, relationships, power, fetish, etc. Unlike your normal smut novel or porn piece, the sex is heart-breakingly realistic, full of warts and rough edges. ... Overall Rating: 4.5 stars. Thought-provoking, well-written, emotionally powerful." -- Maria T. The Smartphone Paradox is a critical examination of our everyday mobile technologies and the effects that they have on our thoughts and behaviors. Alan J. Reid presents a comprehensive view of smartphones: the research behind the uses and gratifications of smartphones, the obstacles they present, the opportunities they afford, and how everyone can achieve a healthy, technological balance. It includes interviews with smartphone users from a variety of backgrounds, and translates scholarly research into a conversational tone, making it easy to understand a synthesis of key findings and conclusions from a heavily-researched domain. All in all, through the lens of smartphone dependency, the book makes the argument for digital mindfulness in a device age that threatens our privacy, sociability, attention, and cognitive abilities.

All across the United States, individuals, families, communities, and health care systems are struggling to cope with substance use, misuse, and substance use disorders. Substance misuse and substance use disorders have devastating effects, disrupt the future plans of too many young people, and all too often, end lives prematurely and tragically. Substance misuse is a major public health challenge and a priority for our nation to address. The effects of substance use are cumulative and costly for our society, placing burdens on workplaces, the health care system, families, states, and communities. The Report discusses opportunities to bring substance use disorder treatment and mainstream health care systems into alignment so that they can address a person's overall health, rather than a substance misuse or a physical health condition alone or in isolation. It also provides suggestions and recommendations for action that everyone--individuals, families, community leaders, law enforcement, health care professionals, policymakers, and researchers--can take to prevent substance misuse and reduce its consequences.

Leading experts consider how development programs can increase the levels of knowledge, skill, technical know-how and productive capacity of populations in the South. The volume is organized into three parts on ownership, institutional capital and knowledge networks. They explore the participatory empowerment that builds capacity, a framework enabling social forces to contribute, and a new paradigm of knowledge in the network age. The result shows how, in future productivity, capacity development through technical cooperation can be successfully pursued. Contributors include Sunil Chako, Steve Denning, Sakiko Fukuda-Parr, Ruth Hill, Sanjay Lall, Carlos Lopes, Khalid Malik, Thandika Mkandawire, Raj Panday, and Joseph Stiglitz.

A Synopsis of Materials and Teaching Process: Values-based stories, grades 5-22, three stories each level, address interest categories of adventure, biography, children/family, church history/religion, cross-cultural stories, history, problems/challenges, human relations, and missions. The first class session offers an inventory of each student's reading experience, interests, and felt needs. Students indicate story preferences within the categorized stories. A graded story list aids teacher planning. In daily free class discussion, students use questions generated while reading and the thought questions provided with each story. "Appendix C: The Daily Class Discussion Assignment" helps

thinking flow. The teacher assigns the Final Written Reflection for that day's story and begins process on the subsequent story. "Dr. Nance did not see a 'truck driver' who could not read or write well—she saw potential. I cannot really comment on the technical side of what she did, and I cannot tell you how or what she did—but whatever it was—it obviously worked. She transformed a truck driver who had done little reading into someone who finished his bachelor's, master's, and has now completed a doctoral degree! What I do know is that her kind spirit and gentle encouragement spurred me onwards toward a thirst for reading and learning all I can. The simple reality is this: the work Dr. Mary Nance has done ... works! I am living proof!" —Dr. Ashley Olinger, Senior Pastor, First Baptist Church, Williston, North Dakota

When the Pentagon releases the biggest computer contract in history for bids, it gets everyone in Washington's attention, from the myriad computer services companies to the President of the United States. The multi-billion dollar NMS (Navy Material System) could sway political fortunes, make or break careers, and will serve to energize the FBI in its quest to uncover industry corruption. The political maneuvering, business posturing and personal vendettas surrounding NMS create a complex mosaic of intrigue, boardroom struggles and political chicanery at the highest levels of government. Not to mention the sex, drugs and industrial espionage that are intertwined as the proposals move from initial submittal to BAFO (Best And Final Offer) to award and protest.

The Jungle is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, Appeal to Reason, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

Jean Baudrillard's classic text was one of the first to focus on the process and meaning of consumption in contemporary culture. Originally published in 1970, the book makes a vital contribution to current debates on consumption. The book includes Baudrillard's most organized discussion of mass media culture, the meaning of leisure, and anomie in affluent society. A chapter on the body demonstrates Baudrillard's extraordinary prescience for flagging vital subjects in contemporary culture long before others. This English translation begins with a new introductory essay.
