Conflict is ubiquitous and inevitable, but people generally dislike it and try to prevent or avoid it as much as possible. So why do clashes of right and wrong occur? And why are some more serious than others? In *Moral Time*, sociologist Donald Black presents a new theory of conflict that provides answers to these and many other questions. The heart of the theory is a completely new concept of social time. Black claims that the root cause of conflict is the movement of social time, including relational, vertical, and cultural time—changes in intimacy, inequality, and diversity. The theory of moral time reveals the causes of conflict in all human relationships, from marital and other close relationships to those between strangers, ethnic groups, and entire societies. Moreover, the theory explains the origins and clash of right and wrong not only in modern societies but across the world and across history, from conflict concerning sexual behavior such as rape, adultery, and homosexuality, to bad manners and dislike in everyday life, theft and other crime, racism, anti-Semitism, anti-Americanism, witchcraft accusations, warfare, heresy, obscenity, creativity, and insanity. Black concludes by explaining the evolution of conflict and morality across human history, from the tribal to the modern age. He also provides surprising insights into the postmodern emergence of the right to happiness and the expanding rights of humans and non-humans across the world. *Moral Time* offers an incisive, powerful, and radically new understanding of human conflict—a fundamental and inescapable feature of social life.

Edward Lear began his career as an ornithological illustrator, becoming one of the first major artists to draw birds from living models. During this period he was employed to paint the birds from the private menagerie owned by Edward Stanley, the 13th Earl of Derby and one of Lear's closest friends. In 1837, Lear's health started to decline. His deteriorating eyesight and failing lungs forced him to abandon the detailed painting required for depicting birds, and, with the help of the earl, he moved to Rome where he established himself as a poet of literary nonsense. While Lear was visiting the Earl of Derby, he wrote poems and drew silly sketches to entertain the earl's children. In 1846, he collected together his pile of limericks and illustrations and published his first poetical book, titled *A Book of Nonsense* and dedicated to the Earl of Derby and his children. He decided to publish under the pseudonym Derry down Derry, but after he started making plans for more books, he republished under his real name. His next book, *Nonsense Songs, Stories, Botany, and Alphabets* wasn't published until 24 years later, in 1870. Lear then released *More Nonsense*, which contains more limericks, in 1872, and *Laughable Lyrics* in 1877. This final book in the series contains many of Lear's most famous fantastical creatures, such as the Quangle Wangle. The influence of Lear's poetry in the twentieth-century can be seen in styles like the surrealism movement and the theater of the absurd.
