Review of the Core Curriculum, Second Edition  
 Emergency Medicine: A Focused Review of the Core ...  
 This is a 22 chapter text based on the contents of the national AAEM Written Board Review Course, and written to prepare you for the: Emergency medicine qualifying exam (formerly the "written boards"), Emergency medicine annual resident in-service exam, ConCert Exam

- 79 color images - 225 question practice in-service examination - 22 chapters written by experts in the field.  
 Emergency Medicine: A Focused Review of the Core ...  
 The M3 curriculum came out of a need to provide a framework for a consistent experience for students rotating through Emergency Medicine during their third year. The focus of this curriculum is the exposure of the student

to core EM concepts. This material is meant to both supplement and be independent of the M4 curriculum, with certain topics geared towards the M3 student.  
 M3 Curriculum - Society for Academic Emergency Medicine Section 2 of the Core Curriculum lists the core competences in Emergency Medicine, namely: •the ability to triage and resuscitate patients (Section 2.1)

•the symptoms, signs and situations Emergency Physicians (EPs) should be able to address (Section 2.2)

•the conditions EPs should be able to recognise and initially manage (Section 2.3)

**EUROPEAN CORE CURRICULUM FOR EMERGENCY MEDICINE** has a unique field of action, both within the emergency department and the community, and the revised curriculum document incorporates both the relevant body of knowledge and associated competencies, but also establishes the essential principles for a rigorous training programme. European Curriculum of Emergency Medicine We provide a comprehensive four-week orientation program, focused on emergency medicine core content, basic communication skills, procedural skills and cadaver labs, simulation sessions, shadow shifts and mentored shifts in the emergency department (ED).

**Residency Curriculum - Hopkins Medicine M4 Curriculum.** The original CDEM curriculum was crafted with an audience for M4 students. It was meant to capture the most common conditions a fourth-year student would encounter while rotating in the ED.
