From his first appearance as Mork from Ork on the 1970s sitcom Happy Days, Robin Williams was heralded as a singular talent. In the pre-cable television era, he was one of the few performers to successfully transition from TV to film. An Oscar-winning actor and preternaturally quick-witted comedian, Williams became a cultural icon, leaving behind a large and varied body of work when he unexpectedly took his own life in 2014. This collection of new essays brings together a range of perspectives on Williams and his oeuvre, including beloved hits like Mrs. Doubtfire, Good Morning, Vietnam, Good Will Hunting, The Fisher King, Dead Poets Society and Aladdin. Contributors explore his earlier work (Mork and Mindy, The World According to Garp) and his political and satirical films (Moscow on the Hudson, Toys). Williams's darker, less well-known fare, such as Being Human, One Hour Photo, Final Cut and Boulevard, is also covered. Williams's artistry has become woven into the fabric of our global media culture.

At the edge of a cliff lies the wreck of a small sailboat. How did it get there? "Waves carried it up in a storm," says an old sailor. But is it possible that waves could ever get that high? There is another story -- the story of a boy and his obsessive desire to be the greatest sailor, the story of a storm that carried the boy and his boat to a place where boats glide like gulls high above the water and not upon it. Chris Van Allsburg tells that story of the boy and his boat, the Zephyr, in words and haunting, full-color pastel paintings. His sailboats sail the night sky with the stars in pictures so vivid that the reader can almost hear the wind in the sails. Here is a work of unusual artistry that will enchant readers of all ages for many years to come.

Like its predecessor, this latest "Jumanji" movie combines fantasy action and adventure with some comedy, a touch of romance, and real-life lessons about courage, friendship, and empathy--all with the help of some low-key race and gender fluidity. At the end of the last film, the four high school students who got sucked into an old-school video game console and found themselves turned into archetypal adventure heroes (some more heroic than others), were so happy to get home that they smashed the game. But the movie made a lot of money, and so the game is operational again, and this time the now-college-age kids are joined by a couple of old-school characters. Go to more information about the movie and experience fascinating trivia, facts and quizzes.
