'Very funny and frank' Independent 'Reads like Scrubs: The Blog ... funny and awful in equal measure' Observer \* \* \* \* \* The bestselling real life story of a hapless junior doctor, based on his columns written anonymously for the Telegraph. IF YOU'RE GOING to be ill, it's best to avoid the first Wednesday in August. This is the day when junior doctors graduate to their first placements and begin to face having

to put into practice what they have spent the last six years learning. Starting on the evening before he begins work as a doctor, this book charts Max Pemberton's touching and funny journey through his first year in the NHS. Progressing from youthful idealism to frank bewilderment, Max realises how little his job is about 'saving people' and how much of his time is taken up by signing forms and trying to figure out all the important things no one has explained yet -- for example, the crucial question of how to tell whether someone is dead or not. Along the way, Max and his fellow fledgling doctors grapple with the complicated questions of life, love, mental health and how on earth to make time to do your laundry. All Creatures Great and Small meets Bridget Jones's Diary, this is a humorous and accessible peek into a world which you'd normally need a medical degree to witness. If you enjoy Trust Me, I'm a (Junior) Doctor, don't miss the follow-up titles Where Does It Hurt? and The Doctor Will See You Now.

From the acclaimed author of *How to Love* comes another stunning contemporary novel, perfect for fans of Sarah Dessen. Molly Barlow is facing one long, hot summer—99 days—with the boy whose heart she broke and the boy she broke it for . . . his brother. Day 1: Julia Donnelly eggs my house my first night back in Star Lake, and that's how I know everyone still remembers everything. She has every right to hate me, of course: I broke Patrick Donnelly's heart the night everything happened with his brother, Gabe. Now I'm serving out my summer like a jail sentence: Just ninety-nine days till I can leave for college and be done. Day 4: A nasty note on my windshield makes it clear Julia isn't finished. I'm expecting a fight when someone taps me on the shoulder, but it's just Gabe, home from college and actually happy to see me. "For what it's worth, Molly Barlow," he says, "I'm really glad you're back." Day 12: Gabe wouldn't quit till he got me to come

to this party, and I'm surprised to find I'm actually having fun. I think he's about to kiss me—and that's when I see Patrick. My Patrick, who's supposed to be clear across the country. My Patrick, who's never going to forgive me.

Auditing is generally considered to be a particularly practical discipline. This hampers theoretical research, as does its complex nature. The unquestioning acceptance and implementation of rules governing auditing practice could lead to poor outcomes. This book provides a theory of auditing that underpins auditing practice. Identifying the objectives of auditing in the context of financial reporting, this book examines underlying beliefs to provide a deeper understanding of the concepts of auditing. In analyzing the field from a theoretical perspective, the author encounters important concepts such as materiality, verification, evidence, risk and professional judgement. Philosophical ideas about the social construction of reality are employed to explain the role of theory in a building block of the business world. This book is vital reading for auditing scholars globally, whilst its conclusions offer an interesting case study in the philosophy of professional judgement
