Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community. People leaving prison with such convictions often have difficulties in resettling. They carry the burden of the conviction itself, which may be both stigmatising and isolating, and they are the subject of sex offender register requirements, parole and other supervisory conditions. Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country. They work closely with the police and probation services but rely entirely on volunteers prepared to give up their time to work with people often otherwise shunned by communities. Circles offer support to the person concerned but also hold them accountable for their future behaviour. They aim to ensure there are 'no more victims'. This book is based on original research and provides a close-up picture of how these Circles of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services.

This groundbreaking edited volume evaluates prisoner reentry using a critical approach to demonstrate how the many issues surrounding reentry do not merely intersect but are in fact reinforcing and interdependent. The number of former incarcerated persons with a felony conviction

living in the United States has grown significantly in the last decade, reaching into the millions. When men and women are released from prison, their journey encompasses a range of challenges that are unique to each individual, including physical and mental illnesses, substance abuse, gender identity, complicated family dynamics, the denial of rights, and the inability to voice their experiences about returning home. Although scholars focus on the obstacles former prisoners encounter and how to reduce recidivism rates, the main challenge of prisoner reentry is how multiple interdependent issues overlap in complex ways. By examining prisoner reentry from various critical perspectives, this volume depicts how the carceral continuum, from incarceration to reentry, negatively impacts individuals, families, and communities; how the criminal justice system extends different forms of social control that break social networks; and how the shifting nature of prisoner reentry has created new and complicated obstacles to those affected by the criminal justice system. This volume explores these realities with respect to a range of social, community, political, and policy issues that former incarcerated persons must navigate to successfully reenter society. A springboard for future critical research and policy discussions, this book will be of interest to U.S. and international researchers and practitioners interested in the topic of prisoner reentry, as well as graduate and upper-level undergraduate students concerned with contemporary issues in corrections, community-based corrections, critical issues in criminal justice, criminal justice policies, and reentry.
