Hal Wallis might not be as well known as David O. Selznick or Samuel Goldwyn, but the films he produced -- *Casablanca*, *Jezebel*, *Now Voyager*, *The Life of Emile Zola*, *Becket*, *True Grit*, and many other classics (as well as scores of Elvis movies) -- have certainly endured. As producer of numerous films, Wallis made an indelible mark on the course of America's film industry, but his contributions are often overlooked and no full-length study has yet assessed his incredible career. A former office boy and salesman, Wallis first engaged with the business of film as the manager of a Los Angeles movie theater in 1922. He attracted the notice of the Warner brothers, who hired him as a publicity assistant. Within three months he was director of the department, and appointments to studio manager and production executive quickly followed. Wallis went on to oversee dozens of productions and formed his own production company in 1944. Bernard F. Dick draws on numerous sources such as Wallis's personal production files and exclusive interviews with many of his contemporaries to finally tell the full story of his illustrious career. Dick combines his knowledge of behind-the-scenes Hollywood with fascinating anecdotes to create a portrait of one of Hollywood's early power players.

Now a major motion picture directed by and starring Clint Eastwood, a riveting novel of an aging rodeo star's last ride. Mike's best years are behind him. There was a time when he was the best rider in the circuit, but a divorce and years of hard living have worn his body down. After an accident, his career comes to an abrupt end, but his boss gives him one last job: he must cross the border into Mexico, kidnap his boss's son, Rafo, from his boss's ex-wife, to be used as leverage in their ongoing divorce. Mike arrives to find the boy has already run away, and his plan is immediately exposed to the local police. When he finds Rafo living on the streets of Mexico city, supporting himself through petty crime and winnings from the occasional cockfight, Mike convinces the boy to come back to Texas. Still running from the law, the two set out on a journey northward that forges an unlikely

friendship and forces both to reckon with the choices they've made in pursuit of being "macho." Originally published in 1976, N. Richard Nash's novel of friendship and the search for identity is now being adapted for the big screen.

Avoiding the easy definitions and caricatures that tend to celebrate or condemn the "hip hop generation," Hip Hop Matters focuses on fierce and far-reaching battles being waged in politics, pop culture, and academe to assert control over the movement. At stake, Watkins argues, is the impact hip hop has on the lives of the young people who live and breathe the culture. He presents incisive analysis of the corporate takeover of hip hop and the rampant misogyny that undermines the movement's progressive claims. Ultimately, we see how hip hop struggles reverberate in the larger world: global media consolidation; racial and demographic flux; generational cleavages; the reinvention of the pop music industry; and the ongoing struggle to enrich the lives of ordinary youth.

Raw Thought, Raw Nerve Farrar, Straus and Giroux

A National Book Critics Circle Finalist for Criticism A deeply Malcolmian volume on painters, photographers, writers, and critics. Janet Malcolm's *In the Freud Archives* and *The Journalist and the Murderer*, as well as her books about Sylvia Plath and Gertrude Stein, are canonical in the realm of nonfiction—as is the title essay of this collection, with its forty-one "false starts," or serial attempts to capture the essence of the painter David Salle, which becomes a dazzling portrait of an artist. Malcolm is "among the most intellectually provocative of authors," writes David Lehman in *The Boston Globe*, "able to turn epiphanies of perception into explosions of insight." Here, in *Forty-one False Starts*, Malcolm brings together essays published over the course of several decades (largely in *The New Yorker* and *The New York Review of Books*) that reflect her preoccupation with artists and their work. Her subjects are painters, photographers, writers, and critics. She explores Bloomsbury's obsessive desire to create things visual and literary; the "passionate collaborations" behind Edward Weston's nudes; and the character of the German art photographer Thomas Struth, who is "haunted by the Nazi past," yet whose photographs have "a lightness of spirit." In "The Woman Who Hated Women," Malcolm delves beneath the "onyx surface" of Edith Wharton's fiction, while in "Advanced Placement" she relishes the black comedy of the Gossip

Girl novels of Cecily von Ziegesar. In "Salinger's Cigarettes," Malcolm writes that "the pettiness, vulgarity, banality, and vanity that few of us are free of, and thus can tolerate in others, are like ragweed for Salinger's helplessly uncontaminated heroes and heroines." "Over and over," as Ian Frazier writes in his introduction, "she has demonstrated that nonfiction—a book of reporting, an article in a magazine, something we see every day—can rise to the highest level of literature." One of Publishers Weekly's Best Nonfiction Books of 2013

The Book of the Dead Random House
Former hacker Kevin Poulsen has, over the past decade, built a reputation as one of the top investigative reporters on the cybercrime beat. In *Kingpin*, he pours his unmatched access and expertise into book form for the first time, delivering a gripping cat-and-mouse narrative—and an unprecedented view into the twenty-first century's signature form of organized crime. The word spread through the hacking underground like some unstoppable new virus: Someone—some brilliant, audacious crook—had just staged a hostile takeover of an online criminal network that siphoned billions of dollars from the US economy. The FBI rushed to launch an ambitious undercover operation aimed at tracking down this new kingpin; other agencies around the world deployed dozens of moles and double agents. Together, the cybercops lured numerous unsuspecting hackers into their clutches. . . Yet at every turn, their main quarry displayed an uncanny ability to sniff out their snitches and see through their plots. The culprit they sought was the most unlikely of criminals: a brilliant programmer with a hippie ethic and a supervillain's double identity. As prominent "white-hat" hacker Max "Vision" Butler, he was a celebrity throughout the programming world, even serving as a consultant to the FBI. But as the black-hat "Iceman," he found in the world of data theft an irresistible opportunity to test his outsized abilities. He infiltrated thousands of computers around the country, sucking down millions of credit card numbers at will. He effortlessly hacked his fellow hackers, stealing their ill-gotten gains from under their noses. Together with a smooth-talking con artist, he ran a massive real-world crime ring. And for years, he did it all with seeming impunity, even as countless rivals ran afoul of police. Yet as he watched the fraudsters around him squabble, their ranks riddled with infiltrators, their methods inefficient, he began to see in their dysfunction the

ultimate challenge: He would stage his coup and fix what was broken, run things as they should be run—even if it meant painting a bull’s-eye on his forehead. Through the story of this criminal’s remarkable rise, and of law enforcement’s quest to track him down, Kingpin lays bare the workings of a silent crime wave still affecting millions of Americans. In these pages, we are ushered into vast online-fraud supermarkets stocked with credit card numbers, counterfeit checks, hacked bank accounts, dead drops, and fake passports. We learn the workings of the numerous hacks—browser exploits, phishing attacks, Trojan horses, and much more—these fraudsters use to ply their trade, and trace the complex routes by which they turn stolen data into millions of dollars. And thanks to Poulsen’s remarkable access to both cops and criminals, we step inside the quiet, desperate arms race that law enforcement continues to fight with these scammers today. Ultimately, Kingpin is a journey into an underworld of startling scope and power, one in which ordinary American teenagers work hand in hand with murderous Russian mobsters and where a simple Wi-Fi connection can unleash a torrent of gold worth millions.

Read the story behind the award-winning film Judas and the Black Messiah On December 4, 1969, attorney Jeff Haas was in a police lockup in Chicago, interviewing Fred Hampton’s fiancée. Deborah Johnson described how the police pulled her from the room as Fred lay unconscious on their bed. She heard one officer say, "He's still alive." She then heard two shots. A second officer said, "He's good and dead now." She looked at Jeff and asked, "What can you do?" The Assassination of Fred Hampton remains Haas's personal account of how he and People's Law Office partner Flint Taylor pursued Hampton's assassins, ultimately prevailing over unlimited government resources and FBI conspiracy. Fifty years later, Haas writes that there is still an urgent need for the revolutionary systemic changes Hampton was

organizing to accomplish. Not only a story of justice delivered, this book spotlights Hampton as a dynamic community leader and an inspiration for those in the ongoing fight against injustice and police brutality. [Texas History Theses](#) Public Affairs Trump University Marketing 101 combines the biggest name in business with the 40-year teaching experience of one of the most well-known marketing thinkers in academia. Each chapter focuses on one key marketing idea and explores it in a straightforward, non-academic manner with exercises and examples that show the idea in action. But more than basic instruction, Sexton also includes his own methodologies for making vital marketing decisions—the same methodologies major corporations pay top-dollar to have him teach their employees. He has taught at Columbia for more than 35 years, is a recipient of the Business School’s Distinguished Teaching Award, and has written numerous articles on marketing and branding issues. Who Is Michael Ovitz? Riverhead Books A lyrical story about waiting for the rain to come to an isolated Aboriginal community. Tension in the community builds as the rain clouds thicken and grow dark. Everybody waits. When will the rain come? [Missionary Labours and Scenes in Southern Africa](#) University Press of Kentucky

If you're going to read one book about Hollywood, this is the one. As the co-founder of Creative Artists Agency, Michael Ovitz earned a reputation for ruthless negotiation, brilliant strategy, and fierce loyalty to his clients. He reinvented the role of the agent and helped shape the careers of hundreds of A-list entertainers, directors, and writers, including Steven Spielberg, Martin Scorsese, Meryl Streep, Sean Connery, Bill Murray, Robin Williams, and David Letterman. But this personal history is much more than a fascinating account of celebrity friendships and bare-knuckled dealmaking. It's also an underdog's story: How did a middle-class kid from Encino work his way into the William Morris mailroom, and eventually become the most powerful person in Hollywood? How did an agent (even a superagent) also become a power in producing, advertising, mergers & acquisitions, and modern art? And what were the personal consequences of all those deals? After decades of near-silence in the face of controversy, Ovitz is finally telling his whole story, with remarkable candor and insight.
