With 12 Practice Tests Cengage Learning
Do what you do best and let technology do the rest. Technology has transformed our lives. Virtually every school and classroom is connected. Why then, has it not transformed education? Consider these five ways educators can begin to optimize classroom technology and rethink its use. See technology as a complement rather than a replacement. Embrace its creation potential over consumption function. Encourage design and personalized learning over standards and outcomes. Celebrate the journey toward digital competence over curriculum improvement. Focus on tech-pedagogy over product usage. Learn how to let technology cultivate student autonomy, creativity, and responsibility while focusing on lessons that hone higher-order and critical thinking skills. "Dr. Zhao continues to push educators' thinking by taking a serious examination of the role technology has played in education. The struggles he lays out are challenges educators try to overcome on an almost daily bases. The new thinking in this book needs to be read by those in the classroom and leaders alike." Steven W. Anderson, Author
Content Curation: How to Avoid Information Overload, @web20classroom
This book masterfully address the issues related to technology integration in schools. Dr. Zhao artfully navigates through the misconception of technology as the ultimate solution to the challenges of teaching. Jared Covili, Author of *Going Google and Classroom in the Cloud*

320 AP Calculus AB Problems Arranged by Topic and Difficulty Level, 2nd Edition Simon and Schuster

Rogawski's remarkable textbook was immediately acclaimed for balancing formal precision with a guiding conceptual focus that engages students while reinforcing the relevance of calculus to their lives and future studies. Precise formal proofs, vivid examples, colorful graphics, intuitive explanations, and extraordinary problem sets all work together for an introduction to the course that is engaging and enduring. Watch instructor video reviews here. Now Rogawski's Calculus returns in a meticulously updated new edition, in a version designed specifically for AP courses. Rogawski's Calculus for AP*, Second Edition features a new coauthor, Ray Cannon, formerly AP Calculus Chief Reader for the College Board. Among other contributions, Dr. Cannon wrote this version's end-of-chapter multiple choice and Free Response Questions, giving students the opportunity to work the same style of problems they will see on the AP exam. TEACHERS: Download now or click here to request Rogawski's Calculus for AP*, Second Edition Chapter Sampler for Early Transcendentals, featuring Chapter 3, Differentiation
