A Top Editor's Take on the State of Journalism Today—and His Prescient Forecast of Its Future "This is a personal and insightful book about one of the most important questions of our time: how will journalism make the transition to the digital age? Steve Shepard made that leap bravely when he went from being a great magazine editor to the first dean of the City University of New York journalism school. His tale is filled with great lessons for us all." —Walter Isaacson, bestselling author of Steve Jobs "An insightful and convivial account

of a bright, bountiful life dedicated to words, information and wonder."

—Kirkus Reviews (Starred Review) "This is two compelling books in one: Shepard's story of his life in print journalism, and a clearheaded look at the way journalism is evolving due to electronic media, social networking, and the ability of anyone with a computer and an opinion to make him- or herself heard." —Booklist Shepard's book will resonate with many and should be read by anyone interested in the flow of information today and its simpact on society as a whole." —Library Journal "The book is in part a memoir, a tale of a life lived at the height of print journalism when print journalism itself was at its height. But it is also an analysis, an examination of the new challenges

facing an old industry as it ambles and occasionally sprints its way into the digital age.” —The Washington Post
About the Book: “My personal passage is, in many ways, a microcosm of the larger struggle within the journalism profession to come to terms with the digital reckoning. Will the new technologies enhance journalism . . . or water it down for audiences with diminished attention spans? What new business models will emerge to sustain quality journalism?” Stephen B. Shepard has seen it all. Editor-in-chief of BusinessWeek for more than 20 years, Shepard helped transform the magazine into one of the most respected voices of its time. But after his departure, he saw it collapse—another victim of the digital age. In *Deadlines and Disruption*,

Shepard recounts his five decades in journalism—a time of radical transformations in the way news is developed, delivered, and consumed. Raised in the Bronx, Shepard graduated from City College and Columbia, joined BusinessWeek as a reporter, and rose to the top editorial post. He has closed the circle by returning to the university that spawned him, founding the Graduate School of Journalism at the City University of New York. In the digital age, anyone can be a journalist. Opinion pieces are replacing original reporting as the coin of the realm. And an entire generation is relying on Facebook friends and Twitter feeds to tell them what to read. Is this the beginning of an irreversible slide into third-rate journalism? Or the start of a better world

of interactive, multimedia journalism? Will the news industry live up to its responsibility to forge a well-informed public? Shepard tackles all the tough questions facing journalists, the news industry, and, indeed, anyone who understands the importance of a well-informed public in a healthy democracy. The story of Shepard's career is the story of the news industry—and in *Deadlines and Disruption*, he provides peerless insight into one of the most critical issues of our time.

Vivienne Westwood was the Queen of Punk Rock and her fashions have scandalized and fascinated the world since the Sixties. Parading models bare-

breasted down the catwalks of Paris, posing pantiless outside Buckingham Palace-she has an insatiable appetite for anarchic outrageousness. She has never lost her power to shock, and her continued innovations make her one of the most talked about fashion designers in the world. But little is know about this essentially private woman. What is she like What is the secret of her success.Gleaned from more than thirty years of interviews with Westwood herself, Vivienne Westwood describes for the first time in detail Westwood's childhood and early years; it also exposes the inside story of her stormy and bizarre relationship with musician and fashionista Malcolm McLaren. The author looks at the origins of Westwood's witty and erotic sensibility,

placing it in the context of the sixties, and throwing light on the dynamics of punk and on Westwood's later ability to tap into the inner logic of fashion - a Romantic perversity which is at the heart of mass consumption itself. As a dirty history of the Sixties shared by Westwood, McLaren and the author, and as a story of the triumph of a mad, bad, outrageous girl, Vivienne Westwood succeeds brilliantly.

The SUNDAY TIMES Top Ten Bestseller #1 Book of the Year, UNCUT #1 Book of the Year, ROUGH TRADE A Book of the Year, MOJO Joy Division emerged in the mid-70s at the start of a two-decades long Manchester scene that was to become much mythologised. It was then a city still labouring in the wake of the war and entering a phase of huge social and physical change, and something of this spirit made its way into the DNA of the band. Over the course of two albums, a handful of other seminal releases, and some legendary gigs, Joy Division became the most successful and exciting underground band of their generation. Then, on the brink of a tour to America, Ian Curtis took his own life.

In This searing light, the sun and everything else, Jon Savage has assembled three decades worth of interviews with the principle players in the Joy Division story: Bernard Sumner, Peter Hook, Stephen Morris, Deborah Curtis, Peter Saville, Tony Wilson, Paul Morley, Alan Hemsall, Lesley Gilbert, Terry Mason, Anik Honoré, and many more. It is the story of how a band resurrected a city, how they came together in circumstances that are both accidental and extraordinary, and how their music galvanised a generation of fans, artists and musicians. It is a classic story of how young men armed with electric guitars and good taste in literature can change the world with four chords and three-and-a-half minutes of music. And it is the story of how illness

and demons can rob the world of a shamanic lead singer and visionary lyricist. This searing light, the sun and everything else presents the history of Joy Division in an intimate and candid way, as orchestrated by the lodestar of British music writing, Jon Savage.

The True Cost of Chinese Competitive Advantage Routledge

An in-depth look at the Chinese car industry that sheds new light on the delicate nature of China's planned economy China's unprecedented growth over the last three decades, along with the recent financial crisis in the West, has raised questions about the superiority of state-led capitalism. In Designated Drivers: How China Plans to Dominate the Global Auto Industry, G.E. Anderson, a specialist in finance and Chinese political economics, uses the auto industry to examine how China's industrial planning works, and explores whether state involvement in the economy really is a winning formula for sustainable growth. Bringing to light the

strengths and weaknesses that define the Chinese economy, Anderson finds that in some ways the government has become its own worst enemy, unable to choose between industrial competitiveness and social stability. While the economy is booming now, evidence suggests that long-term success is far from assured. Tracing the evolution of the post-Mao auto industry through thirteen case studies, Designated Drivers raises the difficult questions about the future of China that few people have dared to ask. Offers a unique insight into the Chinese economy through the lens of the auto industry Explores how successful the central government has been in spurring economic growth and the long-terms costs of intervention Uses case studies

to illustrate China's explosive growth over the last three decades A painstakingly researched analysis of the Chinese automobile industry, *Designated Drivers* explains the risks and rewards inherent in doing business in China that anyone interested in, or already working there need to understand.

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am

twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who

can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

As a veteran war correspondent, Chris Hedges has survived ambushes in Central America, imprisonment in Sudan, and a beating by Saudi military police. He has seen children murdered for sport in Gaza and petty thugs elevated into war heroes in the Balkans. Hedges, who is also a former divinity student, has seen war at its worst and knows too well that to those who pass through it, war can be exhilarating and even addictive: "It gives us purpose, meaning, a reason for living." Drawing on his own

experience and on the literature of combat from Homer to Michael Herr, Hedges shows how war seduces not just those on the front lines but entire societies—corrupting politics, destroying culture, and perverting basic human desires. Mixing hard-nosed realism with profound moral and philosophical insight, *War Is a Force that Gives Us Meaning* is a work of terrible power and redemptive clarity whose truths have never been more necessary.

A revelatory look at the life of the great American author—and how it shaped his most beloved works Jack London was born a working class, fatherless Californian in 1876. In his youth, he was a boundlessly energetic adventurer on the bustling West Coast—an oyster

pirate, a hobo, a sailor, and a prospector by turns. He spent his brief life rapidly accumulating the experiences that would inform his acclaimed bestselling books *The Call of the Wild*, *White Fang*, and *The Sea-Wolf*. The bare outlines of his story suggest a classic rags-to-riches tale, but London the man was plagued by contradictions. He chronicled nature at its most savage, but wept helplessly at the deaths of his favorite animals. At his peak the highest paid writer in the United States, he was nevertheless forced to work under constant pressure for money. An irrepressibly optimistic crusader for social justice and a lover of humanity, he was also subject to spells of bitter invective, especially as his health declined. Branded by shortsighted critics as little more than a hack who

produced a couple of memorable dog stories, he left behind a voluminous literary legacy, much of it ripe for rediscovery. In *Jack London: An American Life*, the noted Jack London scholar Earle Labor explores the brilliant and complicated novelist lost behind the myth—at once a hard-living globe-trotter and a man alive with ideas, whose passion for seeking new worlds to explore never waned until the day he died. Returning London to his proper place in the American pantheon, Labor resurrects a major American novelist in his full fire and glory.

A remarkable eyewitness account of the most brutal combat of the Pacific War, from Peleliu to Okinawa, this is the true story of R.V. Burgin, the real-life World War II Marine Corps hero featured in HBO®'s *The Pacific*. "Read his story and marvel at the man...and those like him."—Tom Hanks When a young Texan named R.V. Burgin joined the Marines 1942, he never imagined what was waiting for him a world away in the Pacific. There, amid steamy jungles, he encountered a ferocious and desperate enemy in the Japanese, engaging them in some of the most grueling and deadly fights of the war. In this remarkable memoir, Burgin reveals his life as a special breed of Marine. Schooled by

veterans who had endured the cauldron of Guadalcanal, Burgin's company soon confronted snipers, repulsed jungle ambushes, encountered abandoned corpses of hara-kiri victims, and warded off howling banzai attacks as they island-hopped from one bloody battle to the next. In his two years at war, Burgin rose from a green private to a seasoned sergeant, fighting from New Britain through Peleliu and on to Okinawa, where he earned a Bronze Star for valor. With unforgettable drama and an understated elegance, Burgin's gripping narrative stands alongside those of classic Pacific chroniclers like Robert Leckie and Eugene Sledge—indeed, Burgin was even Sledge's platoon sergeant. Here is a deeply moving account of World War II, bringing to life

the hell that was the Pacific War.

This volume offers accounts of two of the 19th-century expeditions that took place in the so-called "heroic era" of Antarctic exploration. The first is Sir Douglas Mawson's 1911-14 Australasian Antarctic Expedition. The other is Ernest Shackleton's unsuccessful attempt to cross the Antarctic continent from 1914-16 and the extraordinary survival of his entire party after the expedition's ship, *Endurance*, was crushed and sunk in the pack ice. Chronicled in black-and-white images by the Australian photographer Frank Hurley, these two narratives are combined within this double volume. There is also an introduction by journalist and historian

Tim Bowden.
