### The Quest for Root

### Causes of Human Trafficking

Oxfam This is a print on demand edition of a hard to find publication. The subject of human trafficking, or the

use of force, fraud or coercion to transport persons across international borders or within countries to exploit them for labor or sex, has

received renewed attention within the last two decades. This report provides a detailed description of the processes involved in a project to identify English language research-based literature on human trafficking; the databases searched and the keywords used to identify pertinent references; discussion of the development of the taxonomy used to categorize identified research-based journal articles, reports, and books; and the results of

the categorization of the research according to the taxonomy.

### **A Paradigm Expansion in the United States**

Routledge

This clear-sighted reference examines the public health dimensions of labor and sex trafficking in the United States, the scope of the crisis, and possibilities for solutions. Its ecological lifespan approach globally traces risk and protective factors associated with this exploitation, laying a roadmap towards its prevention. Diverse

experts, including survivors, describe support and care interventions across domains and disciplines, from the law enforcement and judicial sectors to community health systems and NGOs, with a robust model for collaboration. By focusing on the humanity of trafficked persons, a public health paradigm broadens our understanding of and ability to address trafficking while adding critical direction and resources to the criminal

justice and human rights structures currently in place. Among the topics covered: Children at Risk: Foster Care and Human Trafficking LGBTQ Youth and Vulnerability to Sex Trafficking“/li> Physical Health of Human Trafficking Survivors: Unmet Essentials Research Informing Advocacy: An Anti-Human Trafficking Tool Caring for Survivors Using a Trauma-Informed Care Framework The Media and Human Trafficking: Discussion and Critique of the Dominant Narrative

Human Trafficking Is a Public Health Issue is a sobering read; a powerful call to action for public health professionals, including social workers and health care practitioners providing direct services, as well as the larger anti-trafficking community of advocates, prosecutors, taskforce members, law enforcement agents, officers, funders, and administrators. “An extraordinary collection of knowledge by survivors, academics, clinicians, and advocates who are

experts on human trafficking. Human Trafficking is a Public Health Issue is a comprehensive offering in educating readers on human trafficking through a multi-pronged public health lens.” Margeaux Gray: Survivor, Advocate, Artist, Public Speaker **Toolkit to Combat Trafficking in Persons** CRC Press Bringing together conceptual, practice, and advocacy knowledge, Ending Human Trafficking and Modern-Day Slavery: Freedom's Journey by

Annalisa Enrile explores the complexities of human trafficking and modern-day slavery through a global perspective. This comprehensive, multidisciplinary text includes a discussion of the root causes and structural issues that continue to plague society, as well as real-life case studies and vignettes, the words of human trafficking survivors, and insights from first responders and anti-trafficking advocates. Each chapter includes a

“call to action” to inspire readers to implement a range of strategies designed to disrupt, eradicate, or mitigate human trafficking and modern-day slavery.

**A Global Alliance Against Forced Labour**  
SAGE Publications  
Understanding Human Trafficking, Corruption, and the Optics of Misconduct in the Public, Private, and NGO Sectors: Causes, Actors, and Solutions, examines the complex interrelationship of human trafficking and the acts of corruption and

misconduct that sustain human trafficking and are in turn sustained by human trafficking. This book explains in detail the nature and scope of human trafficking and corruption, the global efforts to combat both, and how corruption and misconduct impact its proliferation worldwide. The book also sheds light on problems within the anti-human trafficking non-government movement and offers solutions to holding accountable the organizations that are

supposed to be helping trafficking victims, but may be doing more harm than good.

### Human Trafficking Orient Blackswan

In the post-Cold War era, economic globalization has resulted in the buying and selling of human beings. Poverty, social instability, lawlessness, gender biases, and ethnic hostility have entrapped millions in the world of modern day slavery, with the result that human trafficking is one of the fastest growing criminal industries in the world.

Every year, men, women, and children from across the globe are transported within or across borders for the purpose of forced labor and sexual exploitation. Despite the plethora of journalistic articles written on human trafficking there is a need for more rigorous academic analysis of the phenomenon. Although groups from many different ideologies have embraced policies to end human trafficking, there are still many gaps and unanswered questions, particularly with regard to

the amount of, and nature of the phenomenon. This book provides an insight into the complexity of human trafficking by addressing both how the scope of globalization impacts the sex industry and forced labor, and how vulnerability is a growing cause of human trafficking, affecting traditional diasporic and migratory patterns. This book was originally published as a special issue of the Journal of Intercultural Studies.

**A Moral Geography**  
United Nations

## Publications

This groundbreaking report is the most comprehensive account of contemporary forced labor to date. It provides the first global and regional estimates by an international organization of forced labor in the world today. The report includes the number of people affected and how many of them are victims of trafficking, as well as profits made by criminals who exploit the trafficked workers. The book sheds new light on three major categories of forced labor:

labor imposed by the state for economic, political or other purposes, labor linked to poverty and discrimination, and labor that rises from migration and trafficking of workers across the world, often associated with globalization. A Global Alliance Against Forced Labor provides clear evidence that the abolition of this practice represents a challenge for every country in the world. The book assesses experience at the national level, with particular

emphasis on the importance of sound laws and policies and their rigorous enforcement, as well as effective prevention strategies. It also reviews the actions taken over the past four years by the ILO and its partners--governments, employers, and workers--and calls for a new global alliance to relegate forced labor to history.

### **Trafficking and Global Crime Control**

Cambridge University Press

The book highlights the root cause of human

trafficking and analyses how factors of vulnerability affect the marginalized, especially during and after a disaster. Human trafficking like other studies on disaster research, needs to be tackled from various perspectives such as empowering the vulnerable people, creating awareness, strengthening the disaster risk reduction measures and creating a common platform to fight the vicious circle by breaking its continuity and making

strategies victim centric and people friendly. The book adapts a multidisciplinary approach embedding concepts from political, social, economic and anthropological perceptions. The discourse in the book revolves around the emotional and psychosocial stress factors including weak implementation of laws and policies at various levels. The content weaves around three themes -- magnitude and interlinks between disaster and human

trafficking; policies and protocols on disaster risk reduction and human trafficking and community participation and institutional support. Through these themes, the volume works on identification of the vulnerable areas which are not in compliance with the Sendai Framework of Action, 2015 in the backdrop of the Disaster Management Act of India, 2005. The volume will be of immense interest to a wide range of practitioners, researchers, academicians, policy

makers, political leaders, gender experts, international organizations, disaster management authorities, civil society organisations, and scholars working in the area of human rights in general and trafficking in particular. Note: This research was funded by Indian Council of Social Science Research (ICSSR). Human Trafficking is complex, layered and lies at the intersections of multiple vulnerabilities, gender being among the most significant ones. This gets exacerbated during

both natural and human made disasters. Any attempt to either understand or address it will be fraught with challenges if women and girls' unique vulnerabilities, as well as their needs, voice, choice, agency and safety is not centre-staged in any effort. Mondira's book does exactly that...it succinctly and in simple words explores the compounding discriminations, including structural inequalities, that cause and result in women and girls

differential gendered vulnerabilities to being trafficked during disasters. Once this is understood, the solutions can be specific, gender responsive, and sustainable. - Anju Dubey Pandey, Gender Responsive Governance and Ending Violence against Women Specialist, UN Women, New Delhi, India  
[Disaster and Human Trafficking](#) Springer  
 The last few decades have seen a huge increase in attention paid to the trafficking of human

beings, often referred to as modern-day slavery. International and national policies and protocols have been developed and billions of dollars spent to combat the issue and protect trafficking victims. Yet it continues to flourish and human beings, in both the Global North and the Global South, continue to be degraded to the level of commodities and smuggled across borders for profit. Drawing upon feminist and human rights approaches to trafficking, this book links the worlds of policy, protocols, and

social structures to the lived experience and conditions of trafficked people. Recognizing that trafficking for sex, labor, and body parts often overlaps in a broader context shaped by poverty, violence, and shrinking access to rights, the authors offer a more thoroughgoing account of this social problem. Only with such an integrated approach can we understand the exploitative conditions that make people vulnerable to trafficking, and the progress – as well

as gaps – in initiatives seeking to address it. [Making Sense of the Anti-women, Anti-science, Pro-violence, Pro-slavery and Other Crazy-Sounding Parts of Scripture](#) Toolkit to Combat Trafficking in Persons  
Brings social, economic and political elements to the policy discussion as well as strategic interventions regarding the fight against "trafficking" (the recruitment and transportation of human beings through deception and coercion for the

purposes of exploitation). Trafficking, generally, occurs from poorer to more prosperous countries and regions; however, it is not necessarily the poorest regions or communities which are most vulnerable to trafficking, and so this volume seeks to identify the factors which explain where and why vulnerability increases.-- Publisher description.

### **Complexities And**

**Pitfalls** United Nations Univ

Sweden and the U.S. have each taken leading roles

in the global fight against trafficking in persons. The American approach emphasizes strengthening legal codes and law enforcement tools while enhancing services to victims, and has led to a victim-centered approach. The Swedish model criminalizes demand for trafficking and handling the supply through more admin. means, and has led to an equality-centered approach. Both countries believe sex trafficking is an international issue that requires a mixture of law

enforcement, social welfare and foreign policies to solve. This report compares the responses in the U.S. and Sweden to identify synergies and divergences that might impact practice in both countries. Illustrations.

Human Trafficking United  
Nations Publications

Slavery is illegal  
throughout the world, yet  
more than twenty-seven  
million people are still  
trapped in one of history's  
oldest social institutions.

Kevin Bales's disturbing  
story of slavery today  
reaches from brick kilns in  
Pakistan and brothels in  
Thailand to the offices of  
multinational  
corporations. His  
investigation of conditions  
in Mauritania, Brazil,  
Thailand, Pakistan, and  
India reveals the tragic  
emergence of a "new  
slavery," one intricately  
linked to the global  
economy. The new slaves  
are not a long-term  
investment as was true  
with older forms of  
slavery, explains Bales.  
Instead, they are cheap,

require little care, and are  
disposable. Three  
interrelated factors have  
helped create the new  
slavery. The enormous  
population explosion over  
the past three decades  
has flooded the world's  
labor markets with  
millions of impoverished,  
desperate people. The  
revolution of economic  
globalization and  
modernized agriculture  
has dispossessed poor  
farmers, making them  
and their families ready  
targets for enslavement.  
And rapid economic  
change in developing

countries has bred corruption and violence, destroying social rules that might once have protected the most vulnerable individuals. Bales's vivid case studies present actual slaves, slaveholders, and public officials in well-drawn historical, geographical, and cultural contexts. He observes the complex economic relationships of modern slavery and is aware that liberation is a bitter victory for a child prostitute or a bonded miner if the result is starvation. Bales offers

suggestions for combating the new slavery and provides examples of very positive results from organizations such as Anti-Slavery International, the Pastoral Land Commission in Brazil, and the Human Rights Commission in Pakistan. He also calls for researchers to follow the flow of raw materials and products from slave to marketplace in order to effectively target campaigns of "naming and shaming" corporations linked to slavery. Disposable

People is the first book to point the way to abolishing slavery in today's global economy. All of the author's royalties from this book go to fund anti-slavery projects around the world. *Present-day News Media, True Crime, and Fiction* LAP Lambert Academic Publishing  
This volume analyses the prospects and challenges of the African Court of Justice and Human and Peoples' Rights in context. The book is for all readers interested in African institutions and

contemporary global challenges of peace, security, human rights, and international law. This title is also available as Open Access on Cambridge Core. [Understanding Human Trafficking, Corruption, and the Optics of Misconduct in the Public, Private, and NGO Sectors](#) Greenwood Publishing Group

The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations

Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators. [Human Sex Trafficking](#)

National Academies Press

Human trafficking is a criminal and security concern: it can fuel conflict, drive displacement, and undercut the ability of international institutions to promote peace and stability. The United States and its allies should take steps to reduce human trafficking in conflict and terrorism-affected contexts while promoting broader peace and stability. [Might and Realities of Child Trafficking](#) Council on Foreign Relations Press

The trafficking of human beings is a major worldwide problem. This book addresses the need for a system that provides the same set of quantitative and qualitative data to help develop a comprehensive counter-strategy. It analyzes various definitions as well as the complexity of phenomena that impair the collection and comparability of data. Coverage also examines different approaches with the aim of coming to an effective monitoring system.

### **A Global Perspective**

Cambridge University Press

In the light of the urgent need for cooperative and collaborative action against trafficking, this publication presents examples of promising practice from around the world relating to trafficking interventions. It is hoped that the guidance offered, the practices showcased and the resources recommended in this Toolkit will inspire and assist policymakers, law enforcers, judges,

prosecutors, victim service providers and members of civil society in playing their role in the global effort against trafficking in persons. The present edition is an updated and expanded version of the Toolkit published in 2006.

### Bibliography of Research-Based Literature

Zondervan

This open access edited collection examines representations of human trafficking in media ranging from British and Serbian newspapers, British and Scandinavian

crime novels, and a documentary series, and questions the extent to which these portrayals reflect the realities of trafficking. It tackles the problematic tendency to under-report particular types of victim and forms

of trafficking, and seeks to explore both dominant and marginalised points of view. The authors take a cross-disciplinary approach, utilising analytical tools from across the humanities and social sciences, including

linguistics, literary and media studies, and cultural criminology. It will appeal to students, academics and policy-makers with an interest in human trafficking and its depiction in the modern day.
