PETTY JORDON

The Saga of the Volsungs
HarperCollins
"Daniel Randolph Deal is a Southern aristocrat, having the required bloodline, but little of the nobility. A man resistant to the folly of ethics, he prefers a selective, self-indulgent morality. He is a confessed hedonist, albeit responsibly so."--Back

cover.
Two Sagas of Mythical Heroes Blurb
Millions love the hit television show Vikings—but how many fans know that its main character, Ragnar, is based on an actual Viking king whose ambitious and terrifying exploits have been legend since the ninth century AD? As fierce, cunning, and determined as the character he inspired, King Ragnar Lodbrok is perhaps most famous for his

sacking of Paris in 845 AD. He is also widely regarded to be among the first Viking leaders to target the riches of the British Isles not simply for plunder, but also for Danish settlement. The Legend of Ragnar Lodbrok presents fascinating translations of ninth, twelfth, and thirteenth-century writings—including sagas, poems, and historical accounts—that describe, in

vivid detail, the adventures of Ragnar, his sons, and his formidable wives, Lagertha the Shieldmaiden and Princess Aslaug. These absorbing convergences of fact and Norse mythology include a new translation of The Saga of Ragnar Lodbrok; a new translation of The Tale of Ragnar's Sons; The Anglo-Saxon Chronicle, the single most important source for English history

during the early Middle ages; Krákumál, a famous twelfth-century poem thought to be Ragnar's death song; and the Gesta Danorum, a patriotic work that describes the origin of Lagertha and her relationship with Ragnar. Whether Ragnar was a single man of a thousand deeds or an amalgam of heroes may never be proven, but The Legend of Ragnar Lodbrok offers thrilling

insight into his brutal, unforgettable world.

Siegfried: Dragon Slayer

PIMS
Of all the stories kept in being by the saga-tellers and left for our delight, there is none that so epitomises human experience; has within the same space so much of nature and of life; so fully the temper

and genius of the Northern folk, as that of the Volsungs and Niblungs, which has in varied shapes entered into the literature of many lands. In the beginning there is no doubt that the story belonged to the common ancestral folk of all the Teutonic of Scando-Gothic peoples in the earliest days of their wanderings. Whether they came from the Hindu Kush, or originated in Northern Europe, brought it with

them from Asia, or evolved it among the mountains and rivers it has taken for scenery, none know nor can; but each branch of their descendants has it in one form or another, and as the Icelanders were the very crown and flower of the northern folk, so also the story which is the peculiar heritage of that folk received in their hands its highest expression and most noble form.

With the Saga of Ragnar Lothbrok
 Penguin
 Many years ago, J.R.R. Tolkien composed his own version of the great legend of Northern antiquity, recounted here in *The Legend of Sigurd and Gudrún*. In the *Lay of the Völsungs* is told the ancestry of the great hero Sigurd, the slayer of Fáfnir, most celebrated of dragons; of his awakening of the Valkyrie Brynhild, who

slept surrounded by a wall of fire, and of their betrothal; and of his coming to the court of the great princes who were named the Niflungs (or Nibelungs), with whom he entered into blood-brotherhood. In scenes of dramatic intensity, of confusion of identity, thwarted passion, jealousy, and bitter strife, the tragedy of Sigurd and Brynhild, of Gunnar the Niflung and Gudrún his sister, mounts

to its end in the murder of Sigurd, the suicide of Brynhild, and the despair of Gudrún. The Lay of Gudrún recounts her fate after the death of Sigurd, her marriage against her will to the mighty Atli, ruler of the Huns (the Attila of history), his murder of her brothers, and her hideous revenge.

Song of the Nibelungs

Hackett Publishing
The Volsunga Saga is a legendary saga written

as an epic poem in the traditions of writers like Vergil and Homer, but this one is a 13th century writing from an unknown author (or authors) in Iceland, telling the story of the rise and fall of the Völsung clan (including the story of Sigurd and Brynhild and destruction of the Burgundians). The origins of the material are considerably older than the 13th century, depicting events that

happened in Europe during the Migration period just after the Roman empire fell in 476 A.D. *Karlamagnús Saga* Hackett Publishing From the translator of the bestselling Poetic Edda (Hackett, 2015) comes a gripping new rendering of two of the greatest sagas of Old Norse literature. Together the two sagas recount the story of seven generations of a single legendary heroic family and comprise our best

source of traditional lore about its members-- including, among others, the dragon-slayer Sigurd, Brynhild the Valkyrie, and the Viking chieftain Ragnar Lothbrok.

 Part of a new series
 Legends from the Ancient North, Beowulf is one of the classic books that influenced JRR Tolkien's *The Hobbit* and *The Lord of the Rings* 'So the company of men led a

careless life, All was well with them: until One began To encompass evil, an enemy from hell. Grendel they called this cruel spirit...' J.R.R. Tolkien spent much of his life studying, translating and teaching the great epic stories of northern Europe, filled with heroes, dragons, trolls, dwarves and magic. He was hugely influential for his advocacy of Beowulf as a great work of literature and, even if

he had never written The Hobbit and The Lord of the Rings, would be recognised today as a significant figure in the rediscovery of these extraordinary tales. Legends from the Ancient North brings together from Penguin Classics five of the key works behind Tolkien's fiction. They are startling, brutal, strange pieces of writing, with an elemental power brilliantly preserved in

these translations. They plunge the reader into a world of treachery, quests, chivalry, trials of strength. They are the most ancient narratives that exist from northern Europe and bring us as near as we will ever get to the origins of the magical landscape of Middle-earth (Midgard) which Tolkien remade in the 20th century. *Parallel Myths* Graymalkin Media An epic poem of over 10,000

lines that was said to be Morris's own favorite of his poems. Following the tragic story of a Norse hero Sigmund, his son Sigurd and Sigurd's wife Gudrun. Morris had a fascination with the Volsung legend and had this inspired several other literary treatments of the story. William Morris was born in London, England in 1834. Arguably best known as a textile designer, he

founded a design partnership which deeply influenced the decoration of churches and homes during the early 20th century. However, he is also considered an important Romantic writer and pioneer of the modern fantasy genre, being a direct influence on authors such as J. R. R. Tolkien. As well as fiction, Morris penned poetry and essays. We are republishing these classic works in

affordable, high quality, modern editions, using the original text and artwork. The Legend of Sigurd and Gudrún Good Press
Once there was another Sun and another Moon; a different Sun and a different Moon from the ones we see now. Sol was the name of that Sun and Mani was the name of that Moon. But always behind Sol and Mani wolves went, a wolf behind each. The wolves caught on them at

last and they devoured Sol and Mani. And then the world was in darkness and cold. In those times the Gods lived, Odin and Thor, Hödur and Baldur, Tyr and Heimdall, Vidar and Vali, as well as Loki, the doer of good and the doer of evil. And the beautiful Goddesses were living then, Frigga, Freya, Nanna, Iduna, and Sif. But in the days when the Sun and Moon were destroyed the Gods were destroyed

too—all the Gods except Baldur who had died before that time, Vidar and Vali, the sons of Odin, and Modi and Magni, the sons of Thor. Orkneyinga Saga The Saga of the Volsungs "The Story of the Volsungs (Volsunga Saga); with Excerpts from the Poetic Edda" by Anonymous (translated by Eiríkr Magnússon, William Morris). Published by Good Press. Good Press publishes a

wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that

are user-friendly and accessible to everyone in a high-quality digital format. *The Children of Odin the Book of Northern Myths* Penguin UK Byock sees the crucial element in the origin of the Icelandic sagas not as the introduction of writing or the impact of literary borrowings from the continent but the subject of the tales themselves - feud. This simple thesis is developed

into a thorough examination of Icelandic society and feud, and of the narrative technique of recounting it.

With Excerpts from the Poetic Edda(illustrated)

"This is a book of the highest importance.

No one should attempt to teach about Viking society or claim to understand it without being familiar with this chilling and enduring myth."--

Eleanor Searle, author of *Predatory*

Kinship & the Creation of Norman Power "Byock's translation is excellent, but his thorough introduction is of equal scholarly importance. . .

. His section on Richard Wagner's use of the Volsung material in writing his *Ring* will expand the topic toward modern Wagnerians."--

Michael Bell, University of Colorado "The *Saga of the Volsungs* is one of the most important texts of Old Icelandic

literature, with its treatment of Old Scandinavian heroic traditions. . . .

The most difficult part of the text to translate is, of course, the poetry, but also here the translator has been successful."--

Vésteinn Olason, University of Oslo *Völsunga Saga*

Yale University Press The *Wanderer's Hávamál* features Jackson Crawford's complete, carefully

revised English translation of the Old Norse poem Hávamál, newly annotated for this volume, together with facing original Old Norse text sourced directly from the Codex Regius manuscript. Rounding out the volume are Crawford's classic Cowboy Hávamál and translations of other related texts central to understanding the character, wisdom, and mysteries of Óðinn (Odin).

Portable and reader-friendly, it makes an ideal companion for both lovers of Old Norse mythology and those new to the wisdom of this central Eddic poem wherever they may find themselves. The Saga of the Volsungs Read Books Ltd Saga of the Greenlanders and Erik the Red's Saga are the main literary sources of information for the Norse exploration of North America.

These sagas relate the colonization of Greenland by Erik the Red and his followers and they describe several expeditions further west led by Erik's children and Þorfinnr "Karlsefni" Þórðarson. *The Story of the Volsungs* e-artnow Composed in medieval Iceland, Hrolf's Saga is one of the greatest of all mythic-legendary sagas, relating half-fantastical events that were said to

have occurred in fifth-century Denmark. It tells of the exploits of King Hrolf and of his famous champions, including Bodvar Bjarki, the 'bear-warrior': a powerful figure whose might and bear-like nature are inspired by the same legendary heritage as Beowulf. Depicting a world of wizards, sorceresses and 'berserker' fighters - originally members of a cult of Odin -

this is a compelling tale of ancient magic. A work of timeless power and beauty, it offers both a treasury of Icelandic prose and a masterful gathering of epic, cultic memory, traditional folk tale and myths from the Viking age and far earlier.

Völsunga

Saga

University of Texas Press
Written around AD 1200 by an unnamed Icelandic author, the Orkneyinga Saga is an

intriguing fusion of myth, legend and history. The only medieval chronicle to have Orkney as the central place of action, it tells of an era when the islands were still part of the Viking world, beginning with their conquest by the kings of Norway in the ninth century. The saga describes the subsequent history of the Earldom of Orkney and the adventures of great Norsemen such as Sigurd

the Powerful, St Magnus the Martyr and Hrolf, the conqueror of Normandy. Savagely powerful and poetic, this is a fascinating depiction of an age of brutal battles, murder, sorcery and bitter family feuds. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics

represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. **The Story of the Volsungs (Volsunga Saga)** Delacorte Books for

Young Readers
**illustrated edition
The Völsunga saga (often referred to in English as the Volsunga Saga or Saga of the Völsungs) is a legendary saga, a late 13th century poetic rendition in the Icelandic language of the origin and decline of the Völsung clan (including the story of Sigurd and Brynhild and destruction of the Burgundians). The saga covers themes including the power

struggles among Sigurd's ancestors; Sigurd's killing of the dragon Fafnir; and the influence of the cursed ring Andvaranaut. The saga has given rise to operatic and literary adaptations including Richard Wagner's *Der Ring des Nibelungen*, Henrik Ibsen's *The Vikings at Helgeland*, William Morris's *The Story of Sigurd the Volsung and the Fall of the Niblungs*, and J. R. R. Tolkien's *The Legend of Sigurd and Gudrún*. [Völsunga Saga](#) Univ of California Press Inherited through the line of the berserker Angantýr and his war-loving daughter Hverfing, the ever-lethal, shining sword Tyrfing and its changes of hands frame the uncanny story of *The Saga of Hverfing and Heiðrek*. A second heroic saga, *Hrólfr Kraki and His Champions*, recounts the daring deeds of the members and entourage of the ancient Danish house of Skjoldung. Passed down orally in pre-Christian Norse times, transmitted in writing in medieval Iceland, and here wielded by the hand of Jackson Crawford, the tales told in this volume retain their sharp edges and flashes of glory that never fail to slay. [The Norse Epic of Sigurd the Dragon Slayer](#) Penguin UK From the

translator of the bestselling Poetic Edda (Hackett, 2015) comes a gripping new rendering of two of the greatest sagas of Old Norse literature. Together the

two sagas recount the story of seven generations of a single legendary heroic family and comprise our best source of traditional lore

about its members—including, among others, the dragon-slayer Sigurd, Brynhild the Valkyrie, and the Viking chieftain Ragnar Lothbrok.
