relationship between law and empire by emphasizing the role of local normative production. While European imperialism is often viewed as being able to shape colonial law and government to its image, this volume argues that early modern empires could never monolithically control how these processes unfolded. Examining the Iberian empires in Asia, it seeks

to look at norms as a means of escaping the often too narrow concept of law and look beyond empire to highlight the ways in which law-making and local normativities frequently acted beyond colonial rule. The ten chapters explore normative production from this perspective by focusing on case studies from China, India, Japan, and the Philippines. Contributors

Churches in India

Routledge
Across Europe, the parish church has stood for centuries at the centre of local communities; it was the focal point of its religious life, the rituals performed there marked the stages of life from the cradle to the grave. Nonetheless the church itself artistically and architecturally stood apart from the parish community. It was often the largest and

only stone-built building in a village; it was legally distinct being subject to canon law, as well as consecrated for the celebration of religious rites. The buildings associated with the "cure of souls" were sacred sites or holy places, where humanity interacted with the divine. In spite of the importance of the parish church, these buildings have generally not received the same attention from

historians as non-parochial places of worship. This collection of essays redresses this balance and reflects on the parish church across a number of confessions - Catholic, Lutheran, Reformed and Anti-Trinitarian - during the early modern period. Rather than providing a series of case studies of individual buildings, each essay looks at the evolution of parish churches in response to

religious reform as well as as confessional change and upheaval. They examine aspects of their design and construction; furnishings and material culture; liturgy and the use of the parish church. While these essays range widely across Europe, the volume also considers how religious provision and the parish church were translated into a global context with colonial and commercial expansion in

the Americas and Asia. This interdisciplinary volume seeks to identify what was distinctive about the parish church for the congregations that gathered in them for worship and for communities across the early modern world.

Churches and Convents of Goa

Oxford University Press, USA
The state of Goa on India's southwest coast was once the capital of the Portuguese-

Catholic empire in Asia. When Vasco Da Gama arrived in India in 1498, he mistook Hindus for Christians, but Jesuit missionaries soon declared war on the alleged idolatry of the Hindus. Today, Hindus and Catholics assert their own religious identities, but Hindu village gods and Catholic patron saints attract worship from members of both religious communities. Through fresh

readings of early Portuguese sources and long-term ethnographic fieldwork, this study traces the history of Hindu-Catholic syncretism in Goa and reveals the complex role of religion at the intersection of colonialism and modernity. *Macao's Church of Saint Paul* Penguin

The Provincial Councils of Goa and the Church of St. Thomas Christians
 Notion Press
 "Macao's Ruins of St. Paul (correct name Church of Madre de Deus) is the

only example of Baroque art and architecture in China. This beautifully illustrated book explores anew the now vanished but once renowned Church, as well as the Jesuit university college of which it was part. Both Church and College were destroyed by fire in 1835. From the perspective of the history of art they have remained poorly explored. The author remedies this

by imaginatively reconstructing their ground plans, architecture and decoration in the light of new information in original documents that he has found in archives and libraries in Europe and Macao. In his re-creation of the buildings, he illustrates and draws on the evidence of selected Jesuit buildings in Italy, Portugal, Spain and Portuguese India and considers the

historical Counter-Reformation environment that eventually led to the College of Madre de Deus in China. The most recent art-historical findings on the Mannerist and Baroque art of the Jesuits in Europe and Iberian colonies are also taken into account. The author, who first identified the surviving façade of the Church as a retable-façade, an unusual type of Iberian and Latin

American church façade resembling an altarpiece, brings his argument to its logical conclusion by relating it to the Church's plan and decoration. An extremely important aspect of the art promoted by the Jesuits, centring on the cult of passive martyrdom, is also candidly discussed. This book will enable the general public to better appreciate the Ruins and provides much of interest and value to

scholars, students, architects, art museums and cultural organizations. "--Publisher's website.

Essays on Built Heritage of Portuguese Influence in Goa

Sage
Built during the 16th and 17th centuries AD, the churches and convents of Goa -- the former capital of the Portuguese in India -- illustrate the evangelization of India. The book traces the spread of Christianity in Goa, the

historic development of the churches and convents, particularly the Se Cathedral Complex, and the influence of European building styles on the indigenous architecture. Se Cathedral, one of the largest churches in Old Goa, is built in the Portuguese-Gothic style. With a Tuscan interior and a Corinthian exterior, its main altar is dedicated to St. Catherine of Alexandria; paintings on

either side depict scenes from her life. An interesting example of religious architecture is the Church of St. Francis of Assisi, adorned with gilded and carved woodwork, murals portraying scenes from the life of St. Francis, and a floor made substantially of carved gravestones. Briefly touching upon the building traditions and technology, the book also talks about other monuments

and churches in Goa.
Religion and Empire in Portuguese India

 Examines the processes of conversion, continuity, and change in a Goan Catholic community. Analyzes the patterns of persistence and transformation that can be discerned in the socio-religious practices of Catholics in relation to the wider Hindu society with which they live. Topics include the

socio-political context of conversion; the annual ritual cycle; and life-cycle rituals such as birth, marriage, and death.

 How did the colonization of Goa in the sixteenth and seventeenth centuries take place? How was it related to projects for the conversion

of Goan colonial subjects to Catholicism?
 In *Religion and Empire in Portuguese India*, Ângela Barreto Xavier examines these questions through a reading of the relevant secular and missionary archives and texts. She shows how the twin drives of conversion and colonization in Portuguese India resulted in a variety of outcomes, ranging from negotiation to passive resistance to

moments of extreme violence. Focusing on the rural hinterlands rather than the city of Goa itself, Barreto Xavier shows how Goan actors were able to seize hold of complex cultural resources in order to further their own projects and narrate their own myths and histories. In the process, she argues, Portuguese Goa emerged as a space with a specific identity that was a result of

these contestations and interactions. The book de-essentializes the categories of colonizer and colonized, making visible instead their inner-group diversity of interests, their different modes of identification, and the specificity of local dynamics in their interactions and exchanges—in other words, the several threads that wove the fabric of colonial life. *Baroque Goa* ISPKC

The Portuguese Presence in India

Publications Division
Ministry of Information & Broadcasting

This book examines the processes of conversion, continuity and change in a Goan Catholic community. The analysis shifts from a focus on the people in Goa to a consideration, through

ethnographic material, of present-day patterns and modes of persistence and change in a rural Catholic community. The author discusses individual and collective ritual modes and issues of caste conflict as manifested in church celebrations. The issues explored include kinship and the implication of Catholicism for rules of marriage, ideas about inheritance and gender,

reasons for conversion and the clash of traditions. Overall, this book provides a rich analysis of the interplay between Christianity and colonialism as well as the emerging disharmony of tradition in a new social context. It also explores issues relating to the sociological study of convert communities in India in a comparative perspective. *Churches of Goa* Lulu.com
