Peugeot 206 Peugeot 206(98 - 01)The Complete Book of the World Rally Championship

For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

Peugeot 206 Cambridge University Press

In 2021 Coventry celebrates being the national City of Culture. Modern Coventry is a product of successive rounds of industrial, economic and social developments driven by regional, national and global forces. This book presents a timely opportunity to reflect on this rich, and often misunderstood, history. The book examines the development of industry, services, infrastructure and social transformation, and the role which globalising forces have played in influencing these, particularly since the 1950s. It looks at the experiences of the city of Coventry in responding to the challenges of socioeconomic change, technological advances, reconstruction and renewal. Issues of investment, economic decline, reconstruction, employment change and local and national governance are all considered in assessing the story of modern Coventry, a city influenced by new industries and development opportunities while still being shaped by its historical economic challenges. By focusing on the case of Coventry this book contributes to debates surrounding urban structural change, economic diversification and resilience from the perspective of a medium-sized city.
