ADRIENNE CULLEN

Cengage Advantage Series: The Enduring Vision: A History of the American People Brooks/Cole Publishing Company

Put the work of a Pulitzer prize-winning author in your students' hands every day The American Vision boasts an exceptional author team with specialized expertise in colonial, Civil War, 20th-century, and Civil Rights history. The full panorama of American history comes alive through their vivid and accurate retelling, and the co-authorship of National Geographic ensures that the program's new maps, charts, and graphs are correct to the last detail.

American Vision Currency

THE ENDURING VISION's engaging narrative integrates political, social, and cultural history within a chronological framework. Known for its focus on the environment and the land, the text is also praised for its innovative coverage of cultural history, public health and medicine, and the West--including Native American history. The eighth edition incorporates new scholarship throughout, and includes a variety of new photos. Based on the popularity of the Going to the Source feature, which was introduced in the previous edition, additional Going to the Source selections are offered online in the eighth edition. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Behold, America CUP Archive

The Institute of Medicine study Crossing the Quality Chasm (2001) recommended that an interdisciplinary summit be held to further reform of health professions education in order to enhance quality and patient safety. Health Professions Education: A Bridge to Quality is the follow up to that summit, held in June 2002, where 150 participants across disciplines and occupations developed ideas about how to integrate a core set of competencies into health professions education. These core competencies include patient-centered care, interdisciplinary teams, evidence-based practice, quality improvement, and informatics. This book recommends a mix of approaches to health education improvement, including those related to oversight processes, the training environment, research, public reporting, and leadership. Educators, administrators, and health professionals can use this book to help achieve an approach to education that better prepares clinicians to meet both the needs of patients and the requirements of a changing health care system.

The Films of Frank Capra McGraw-Hill Education

THE ENDURING VISION's engaging narrative integrates political, social, and cultural history within a chronological framework. Known for its focus on the environment and the land, Boyer, et al's text is also praised for its innovative coverage of cultural history, public health and medicine, and the American West -- including Native American history. The ninth edition maintains these strengths while enhancing coverage of women's history and incorporating new scholarship. A thoroughly redesigned last chapter discusses topics such as income inequality and mass incarceration, while bringing the discussion up to date with coverage of the 2016 presidential campaign. The ninth edition also incorporates new features that support learning. Each section begins with a historical question; new conclusions include summaries organized around each of the chapter questions. Available in the following split options: THE ENDURING VISION, 9th Edition Complete, Volume 1: To 1877, and Volume 2: Since 1865. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Epic History of Art in America McGraw-Hill Education

The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

The Death and Life of Great American Cities Houghton Mifflin College Division

How did slave-owning Southern planters make sense of the transformation of their world in the Civil War era? Matthew Pratt Guterl shows that they looked beyond their borders for answers. He traces the links that bound them to the wider fraternity of slaveholders in Cuba, Brazil, and elsewhere, and charts their changing political place in the hemisphere. Through such figures as the West Indian Confederate Judah Benjamin, Cuban expatriate Ambrosio Gonzales, and the exile Eliza McHatton, Guterl examines how the Southern elite connectedÑby travel, print culture, even the prospect of future conquestÑwith the communities of New World slaveholders as they redefined their world. He analyzes why they invested in a vision of the circum-Caribbean, and how their commitment to this broader slave-owning community fared. From Rebel exiles in Cuba to West Indian apprenticeship and the Black Codes to the Ólabor problemÓ of the postwar South, this beautifully written book recasts the nineteenth-century South as a complicated borderland in a pan-American vision.

The 1619 Project Cengage Learning

THE ENDURING VISION, CONCISE EDITION, is an engaging narrative that integrates political, social, and cultural history within a chronological framework. Known for its focus on the environment and the land, the text is also praised for its innovative coverage of cultural history, public health and medicine, and the West--including Native American history. The Seventh Edition brings the work fully up to date, and was carefully revised to create a sharper narrative. Chapters 26 through 29 have been reorganized to consolidate coverage of the Cold War, the civil rights movement, and the Vietnam War, so that each is addressed cohesively. Available in the following split options: THE ENDURING VISION, CONCISE Seventh Edition (Chapters 1-31); Volume 1: To 1877 (Chapters 1-16); Volume 2: From 1865 (Chapters 16-31). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Enduring Vision: A History of the American People, Volume 1: To 1877 SUNY Press

"The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive

economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." Sometimes controversial and always provocative, *A HISTORY OF THE AMERICAN PEOPLE* is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

The Other America Harper Collins

The presence of the Catholic Church in the United States reaches back to the founding days of our country through the leadership of Archbishop John Carroll, the first Catholic bishop in the United States. His story like the stories at the start of each chapter in the United States Catholic Catechism for Adults give us a glimpse into the lives of Catholics who lived out their faith throughout our country's history. Each chapter in the Catechism for Adults includes stories, doctrine, reflection, quotations, discussion questions, and prayer to lead the reader to a deepening faith. The Catechism for Adults is an excellent resource for preparation of catechumens in the Rite of Christian Initiation of Adults and for ongoing catechesis of adults.

American Republics: A Continental History of the United States, 1783-1850 Harvill Press
In this classic novel, James A. Michener brings his grand epic tradition to bear on the four-hundred-year saga of America's Eastern Shore, from its Native American roots to the modern age. In the early 1600s, young Edmund Steed is desperate to escape religious persecution in England. After joining Captain John Smith on a harrowing journey across the Atlantic, Steed makes a life for himself in the New World, establishing a remarkable dynasty that parallels the emergence of

America. Through the extraordinary tale of one man's dream, Michener tells intertwining stories of family and national heritage, introducing us along the way to Quakers, pirates, planters, slaves, abolitionists, and notorious politicians, all making their way through American history in the common pursuit of freedom. BONUS: This edition includes an excerpt from James A. Michener's Hawaii. Praise for Chesapeake "Another of James Michener's great mines of narrative, character and lore."—The Wall Street Journal "[A] marvelous panorama of history seen in the lives of symbolic people of the ages . . . An emotionally and intellectually appealing book."—The Atlanta Journal-Constitution "Michener's most ambitious work of fiction in theme and scope."—The Philadelphia Inquirer "Magnificently written . . . one of those rare novels that is enthusiastically passed from friend to friend."—Associated Press

Ecologism and the Shaping of an Alternative American Vision Basic Books

A Washington Post and BookPage Best Nonfiction Book of 2021 From a Pulitzer Prize-winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children, husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly removed most of the Native peoples living east of the Mississippi.

At the end of the period the United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Cady Stanton and Margaret Fuller. It captures the high-stakes political drama as Jackson and Adams, Clay, Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota. Absorbing and chilling, *American Republics* illuminates the continuities between our own social and political divisions and the events of this formative period. *Southern Slaveholders in the Age of Emancipation* Cengage Learning
Robert Hughes begins where American art itself began, with the Native Americans and the first Spanish invaders in the Southwest; he ends with the art of today. In between, in a scholarly text that crackles with wit, intelligence and insight, he tells the story of how American art developed. Hughes investigates the changing tastes of the American public; he explores the effects on art of America's landscape of unparalleled variety and richness; he examines the impact of the melting-pot of cultures that America has always been. Most of all he concentrates on the paintings and art objects themselves and on the men and women - from Winslow Homer and Thomas Eakins to Edward Hopper and Georgia O'Keeffe, from Arthur Dove and George Bellows to Jackson Pollock and Mark Rothko - who created them. This is an uncompromising and refreshingly opinionated exploration of America, told through the lens of its art. *The Enduring Vision* Cengage Learning
New edition provides a clear pathway through the content to maximize class time and minimize preparation time with lesson plans, activities and assessment based on the research of Jay McTighe, co-author of *Understanding by Design*.
