Civil Democratic Islam Hikmah

Few countries as culturally rich, politically pivotal, and naturally beautiful as Indonesia are as often misrepresented in global media and conversation. Stretching 3,400 miles east to west along the equator, Indonesia is the fourth most populous country in the world and home to more than four hundred ethnic groups and several major world religions. This sprawling Southeast Asian nation is also the world's most populous Muslim-majority country and the third largest democracy. Although in recent years the country has experienced serious challenges with regard to religious harmony, its trillion-dollar economy is booming and its press and public sphere are among the most vibrant in Asia. A land of cultural contrasts, contests, and contradictions, this ever-evolving country is today rising to even greater global prominence, even as it redefines the terms of its national, religious, and civic identity. The Routledge Handbook of Contemporary Indonesia offers an overview of the modern making and contemporary dynamics of culture, society, and politics in this powerful Asian nation. It provides a comprehensive survey of key issues in Indonesian politics, economics, religion, and society. It is divided into six sections, organized as follows: Cultural Legacies and Political Junctures Contemporary Politics and Plurality Markets and Economic Cultures Muslims and Religious Plurality Gender and Sexuality Indonesia in an Age of Multiple Globalizations Bringing together original contributions by leading scholars of Indonesia in law, political science, history, anthropology, sociology, religious studies, and gender studies this Handbook provides an up-to-date, interdisciplinary, and academically rigorous exploration of Indonesia. It will be of interest to students, academics, policymakers, and others in search of reliable information on Indonesian politics, economics, religion, and society in an accessible format.

Islamic Thought Hikmah

Jin adalah makhluk yang bersama-sama dengan kita menghuni planet bumi ini, Bahkan kehadiran jin jauh lebih dulu daripada manusia. Jin juga adalah makhluk mukallaf yang dikenai hukum dan kewajiban seperti manusia, karena mereka juga memiliki akal, nafsu dan kehendak bebas. Allah SWT berfirman: Tidakkah Aku ciptakan jin dan manusia kecuali untuk beribadah kepada-Ku. Namun, karena sifatnya secara umum yang tidak terlihat oleh mata manusia, maka kita kadang-kadang memperoleh gambaran-gambaran yang keliru tentang bentuk, sifat dan kehidupan jin. Buku ini berusaha merekam dialog antara penulisnya. Muhammad 'Isa Dawud, dengan salah satu Jin-Muslim. Dialog tersebut begitu lugas, sehingga menjadikan buku ini benar-benar asyik dibaca. Dari dialog-dialog ini, pembaca akan memperoleh berbagai informasi baru yang menakjubkan tentang dunia jin yang sebenarnya. Buku ini sedikit-banyak akan meluruskan persepsi-persepsi kita yang salah tentang bentuk, watak dan kehidupan jin: sejak asal-mula jin hingga berbagai kejadian yang berkaitan dengan jin, seperti gangguan setan dan sihir, lengkap dengan cara pengobatannya. Untuk setiap topik dialog, penulisnya menambahkan catatan yang merujuk kepada Alquran, hadis Nabi saw., serta temuan-temuan ilmiah demi mengukuhkan kebenaran pernyataan jin tersebut.

The Illusion of an Islamic State Dar Al Kotob Al Ilmiyah دار الكتب العلمية

A “timely and provocative” biography of Islam’s foundational text: “The history of the book is a map of the world we live in today” (Tribune-Review). Few books in history have been as poorly understood as the Qur’an. Sent down in a series of revelations to the Prophet Muhammad, the Qur’an is the unmediated word of Allah: a ritual, political, and legal authority; an ethical and spiritual guide; and a literary masterpiece that inspires devotion, passion, fear, and sometimes incomprehension. In *The Qur’an*, historian and Islamic Studies professor Bruce Lawrence shows precisely how the Qur’an is the embodiment of Islam. He describes the origins of the faith in seventh-century Arabia and explains why the Qur’an is memorized and recited by devout Muslims. Lawrence also discusses the Qur’an’s commentators and doubters and assesses its tremendous influence on today’s societies and politics. Above all, Lawrence emphasizes that the Qur’an is a sacred book of signs that cannot be reduced to a single, obvious message. It is a book that demands interpretation and one that can be properly understood only through its long and storied history. “An

important work for those seeking to understand—and defend—Islam.” —Kirkus Reviews

What do the religions and ideologies of the world have in common? Why should we focus first on their similarities rather than their differences? What's next in the evolution of the global ethic? Professor and theologian Hans Küng has devoted much of his life to answering these questions. A controversial figure, Küng achieved global notoriety in the late 60's when he became the first major Roman Catholic theologian of the 20th century to question the notion of papal infallibility. For this, he was stripped of his license to teach as a Roman Catholic theologian, but carried on teaching as a tenured professor of Ecumenical Theology at the University of Tübingen, Germany until his retirement in 1996. In the 1990s, Küng initiated a project subsequently referred to the Movement for a "Global Ethic" ("Weltethos" in the original German). After massive world-wide research into past and present ethical principles carried out with the collaboration of many scholars, including Professor Leonard Swidler—who continues their joint work—he spelled out clearly the foundational ethical principles that the world's religions and ideologies, past and present, de facto held/hold in common, that is: The minimal code of behavior that everyone in fact accepts (e.g., "Do not lie, steal, kill innocent persons....") Küng's goal is to highlight how the great religions/ideologies of the world converge on moral values and how this has revealed minimal, but expanding standards: e.g., slavery once was, but no longer is ethically acceptable... equality for women is painfully on that expanding path now! This English translation of The Global Ethic Handbook is a culmination of the "Movement" Küng began in the 90s. In clear language, he describes his vision for a Global Ethic, and step by step he takes the reader on a journey through the essential aspects of a Global Ethic, including its social, political, legal, economics, communications, esthetics, and philosophical applications. It even describes his translation of the Global Ethic/Weltethos into musical compositions—indeed, a full-blown opera! While Engaging the Global Ethic is a broad and comprehensive work, the actualization of a Global Ethic is concrete—not abstract. Professor Küng's vision into the future, built on the expanding Global Ethic is an inspiring read and call to action for all!

In the face of Islam's own internal struggles, it is not easy to see who we should support and how. This report provides detailed descriptions of subgroups, their stands on various issues, and what those stands may mean for the West. Since the outcomes can matter greatly to international community, that community might wish to influence them by providing support to appropriate actors. The author recommends a mixed approach of providing specific types of support to those who can influence the outcomes in desirable ways.

Recent decades have seen an apparent increase in the number and vitality of new religious movements throughout the world. They have also been marked by evident social conflict over the activities of 'cults'. These developments have been met by growing interest among social scientists in the significance of new religious movements and a proliferation of research into their activities and their social impact. In this wide-ranging survey Tom Robbins assesses the state of the art in sociological and related work on new religious movements. Concentrating on research on movements in the USA and Western Europe, he analyses theories relating the growth of new religions to sociocultural changes, the dynamics of conversion to and defection from movements, patterns of organization and institutionalization, and social controversies over cults. He also examines the impact of the study of new and deviant movements on the sociology of religion in general, and the implications of recent spiritual ferment for previous models of secularization and sect-church theory. The book concludes with a comprehensive bibliography. This text will be essential reading for students and researchers in the sociology of religion and in religious studies.

The Javanese text being published here is not appearing in print for the first time: more than half a century ago it was published by B.J.O. Schrieke in his doctor's thesis *Ret Boek van Bonang* ("The Book of Bonang") (1916). In Schrieke's work, however, the emphasis fell on the historical introduction to the text rather than on the text itself, the edition of which is free of shortcomings. Moreover, the analysis of the contents of the text appended to it could not make up for a complete translation. For the lack of a new edition and complete translation of this important text has not been made before now is due to the small number of scholars of Javanese - and the even smaller number of those among them who concern themselves with the Muslim works of Javanese literature. In short, it is the pioneering character which the study of Indonesian literatures still largely possesses that has caused people to be contented with preliminary surveys of this extensive field of study. It is true that a number of welcome milestones have been erected, but it can in no way be said that the charting of the whole field is yet complete. After the first publication of a text and summary of its contents people are only too readily inclined to proceed to other projects, more attractive because of their novelty.
