A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

Study Guide for Foundations of Maternal-Newborn and Women's Health Nursing 7th Edition W B Saunders Company

This essential student resource is designed to help the student master the information presented in Maternal/Child Nursing Care, 3rd Edition. Specially designed to parallel material in the book, this helpful study guide is just what you need for in-depth study and review of the most important facts and information on maternity and pediatric nursing. Matching or fill-in-the-blank questions give students the opportunity to test their ability to define all key terms highlighted in the corresponding textbook chapter. A variety of questions (matching, fill-in-the-blank, true/false, short answer, and multiple choice) are used to provide students with ample opportunity to assess their knowledge and comprehension of the information covered in the text. Students are required to apply concepts (Thinking Critically) found in the chapter to solve problems, make decisions concerning care management, and provide responses to patient's questions and concerns. Answers to all questions are provided at the end of this Study Guide. The content reflects what's in the 3rd edition of the text book.

All organizational and test names are trademarks of their respective owners. The Mometrix guide is filled with the critical information you will need in order to do well on your Maternal Newborn exam: the concepts, procedures, principles, and vocabulary that the National Certification Corporation (NCC) expects you to have mastered before sitting for your exam. The Factors Affecting Maternal/Neonatal Outcomes section covers: Antenatal factors Intrapartal factors The Maternal Assessment and Management in the Postpartum Period section covers: Physiologic changes and physical assessment Nursing care and education Lactation and newborn feeding The Newborn Assessment and Management section covers: Transition to extrauterine life Physiologic changes and physical assessment Nursing care and family education The Aspects of Professional Practice section covers: Research Guidelines for practice Ethical/legal issues ...and much more Our guide is full of specific and detailed information that will be key to passing your exam. Concepts and principles aren't simply named or described in passing, but are explained in detail. The Mometrix Maternal Newborn study guide is laid out in a logical and organized fashion so that one section naturally flows from the one preceding it. Because it's written with an eye for both technical accuracy and accessibility, you will not have to worry about getting lost in dense academic language. Any test prep guide is only as good as its practice questions and answer explanations, and that's another area where our guide stands out. The Mometrix test prep team has provided plenty of Maternal Newborn practice test questions to prepare you for what to expect on the actual exam. Each answer is explained in depth, in order to make the principles and reasoning behind it crystal clear. Many concepts include links to online review videos where you can watch our instructors break down the topics so the material can be quickly grasped. Examples are worked step-by-step so you see exactly what to do. We've helped hundreds of thousands of people pass standardized tests and achieve their education and career goals. We've done this by setting high standards for

Mometrix Test Preparation guides, and our Maternal Newborn Nursing Exam Secrets Study Guide is no exception. It's an excellent investment in your future. Get the Maternal Newborn review you need to be successful on your exam.

Study Guide for Maternal Child Nursing Care - E-Book W B Saunders Company

Corresponding to the chapters in the 12th edition of Lowdermilk's market-leading Maternity & Women's Health Care, this study guide offers a complete review of content and a wide range of activities to help you understand key nursing concepts and apply your knowledge. It includes critical thinking exercises, multiple-choice and matching questions, and more; answers are included in the back of the book. Chapter review activities assess your understanding of the content with fill-in-the-blank, matching, multiple choice, and short answer questions. Critical thinking case studies require you to apply the concepts found in the text chapters to solve problems, make decisions concerning care management, and provide responses to patient questions and concerns. Answer key contains answers to all questions and is located at the end of the book. NEW! Chapter organization and content updated and revised to match changes to main text. *Canadian Maternity and Pediatric Nursing* Elsevier Health Sciences

The new Study Guide for Perry's Maternal Child Nursing Care in Canada is designed to help you review and master content from the core text and learn how to think critically in applying your knowledge. Chapters parallel those in the text and provide review, critical thinking applications, engaging activities, and more, with an answer key at the back of the book. This comprehensive study guide also contains case studies to help you integrate information and develop the critical thinking, clinical reasoning, and clinical judgement skills required to pass your licensure examination and excel in clinical practice. Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.

Maternal & Child Health Nursing Study Guide Elsevier Health Sciences

This instructive self-study guide is written to help students grasp important content in each chapter of the main text. Learning Activities include matching terms; listing important signs and symptoms; describing medical therapy, nursing measures and their rationales; and labeling illustrations. Check Yourself multiple choice questions offer a test of factual items and higher-level questions requiring application of knowledge in new ways. Case Studies help students "practice" skills with simulated clients, while Developing Insight encourages further thinking as students gain clinical experience. As appropriate, answers are either provided at the end of each chapter or left to the student's independent research in the main text.
