## ALESSANDRO DAKOTA

*Adjustment to Retirement and Aging Transitions in Wisconsin* Springer Science & Business Media  
This academic book explores anthropological, geographical and rural sociological ways of studying rurality and the global rural-urban matrix under the contemporary world capitalist system. The main theme of these contributions by senior scholars is that the study of the rural is worthwhile and should not be ignored due to urban-normativity.

*Understanding and Changing the Social World* Popular Prakashan

Education and Communication for Development presents at one place the various research finding in the fields of rural psychology, rural sociology, communication, administration and training and programme planning for the quick dissemination of modern technologies to the rural people, who are the real partners of development. Contents: Concept and Types of Education / Educational Psychology as Applied to Development / Rural Sociology and Planned Social Change / Communication and Audio-Visuals for Development / Progamme Planning and Five-Year Plans / Development Programmes / Extension, Administration and Training / Abbreviations and Titles of Development Programmes in India / Appendix A / Appendix B / Bibliography / Author Index / Subject Index

**Agricultural Research And Technology Transfer In Developing Countries** Yale University Press

This book analyses the key global processes transforming rural spaces in the early 21st century – financialization; standardization; consumption, and commodification. Through detailed case studies, the book examines why these processes are important, how they work in practice, and the challenges they raise as well as opportunities created.

*A Translation of Fei Xiaotong's Xiangtu Zhongguo, with an Introduction and Epilogue* Berg  
In Indian context.

**Index, 1945-1966** Berg

The world currently faces several severe social and environmental crises, including economic under-development, widespread poverty and hunger, lack of safe drinking water for one-sixth of the world's population, deforestation, rapidly increasing levels of pollution and waste, dramatic declines in soil fertility and biodiversity, and global warming. Inequality, Democracy, and the Environment sheds light on the structural causes of these and other social and environmental crises, highlighting in particular the key role that elite-controlled organizations, institutions, and networks play in creating these crises. Liam Downey focuses on four topics—globalization, agriculture, mining, and U.S. energy and military policy—to show how organizational and institutional inequality and elite-controlled organizational networks produce environmental degradation and social harm. He focuses on key institutions like the World Bank, the International Monetary Fund, the U.S. Military and the World Trade Organization to show how specific policies are conceived and enacted in order to further elite goals. Ultimately, Downey lays out a path for environmental social scientists and environmentalists to better understand and help solve the world's myriad social and environmental crises. *Inequality, Democracy and the Environment* presents a passionate exposé of the true role inequality, undemocratic institutions and organizational power play in harming people and the environment.

*The Contemporary Debates* Emerald Group Publishing

Foot and mouth disease and BSE have both had a devastating impact on rural society. Alongside these devastating developments, the rise of the organic food movement has helped to revitalize an already politicized rural population. From fox-hunting to farming, the vigour with which rural activities and living are defended overturns received notions of a sleepy and complacent countryside. Over the years "rural life" has been defined, redefined and eventually fallen out of fashion as a sociological concept—in contrast to urban studies, which has flourished. This much-needed reappraisal calls for its reinterpretation in light of the profound changes affecting the countryside. First providing an overview of rural sociology, Hillyard goes on to offer contemporary case studies that clearly demonstrate the need for a reinvigorated rural sociology. Tackling a range of contentious issues—from fox-hunting to organic farming—this book offers a new model for rural sociology and reassesses its role in contemporary society.

*Making The Link* Lexington Books

A fascinating sociological assessment of the damaging effects of the for-profit partnership between government and corporation on rural Americans Why is government distrust rampant, especially in the rural United States? This book offers a simple explanation: corporations and the government together dispossess rural people of their prosperity, and even their property. Based on four years of fieldwork, this eye-opening assessment by sociologist Loka Ashwood plays out in a mixed-race Georgia community that hosted the first nuclear power reactors sanctioned by the government in three decades. This work serves as an explanatory mirror of prominent trends in current American politics. Churches become havens for redemption, poaching a means of retribution, guns a tool of self-defense, and nuclear power a faltering solution to global warming as governance strays from democratic principles. In the absence of hope or trust in rulers, rural racial tensions fester and divide. The book tells of the rebellion that unfolds as the rights of corporations supersede the rights of humans.

*For-Profit Democracy* Springer

Rural Community Studies in Europe: Trends, Selected and Annotated Bibliographies, Analyses, Volume 2 documents studies concerning several rural areas in Europe. The book presents information concerning a specific area, which includes a review of historical trends; annotated bibliography; and an analysis of studies conducted on the area. This volume particularly covers rural areas in the Netherlands, Germany, Hungary, Italy, and Finland. This book will be of great interest to researchers who require information about rural communities.

An Introduction to Sociology Rural Sociology

**Jean Martin and the Making of the Social Sciences in Australia** IAP

Make Sociology new with McGraw-Hill's Connect Sociology and SOC 2013. New to Connect is Investigate Sociology, a brand-new tool that develops students' sociological imaginations by placing them in provocative scenarios where they must analyze various sources and determine a solution.

Connect also comes with LearnSmart, an adaptive questioning tool proven to increase content comprehension and student results, as well as fun interactivities like In their Shoes and Applying the Perspectives that teach sociology's three theoretical frameworks. Finally, make sure students come prepared to class by assigning our many e-book activities. With McGraw-Hill's digital tools, focus on what you do best—teaching. Unique to this program, SOC 2013 uses extensive research to meet students where they are, by providing an appealing, affordable and current program. This, coupled with powerful digital learning tools, makes SOC 2013 an ideal choice for your introductory course.

If mobile technologies are to be effectively used in education, how do we best implement sustainable mobile solutions for teaching and learning? The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments. Authors from sixteen countries across the Asia-Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives. These projects focus on a variety of aspects of mobile learning innovation, from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems, to the large-scale, interuniversity implementation of technologies and pedagogies to support mobile learning. Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system, encompassing the student perspective, the educator perspective, technical processes, policies and organisational strategy, and leadership. The book also offers a unique perspective on the integration of mobile learning innovations within the educational, political and cultural environments of Asia-Pacific countries.

*Evolving Geographical Structures* Elsevier

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

As network science and technology continues to gain popularity, it becomes imperative to develop procedures to examine emergent network domains, as well as classical networks, to help ensure their overall optimization. *Advanced Methods for Complex Network Analysis* features the latest research on the algorithms and analysis measures being employed in the field of network science. Highlighting the application of graph models, advanced computation, and analytical procedures, this publication is a pivotal resource for students, faculty, industry practitioners, and business professionals interested in theoretical concepts and current developments in network domains. *Sociology An Introduction to Sociology Rural Sociology* Includes sections "Current bulletins" and "Book reviews". The Sociology of Rural Life

Jean Martin was a pioneer of sociology, inventing a version of the discipline that was uniquely suited to Australia in the post-war period. Jean Isobel Martin (1923–79) made herself a sociologist before the discipline was established in Australia. Regarded as a founder of Australian sociology, her writing, teaching and policy helped shape Australia in the period of economic growth and social development that followed World War II. The Martin Presence is a biography that examines her life and her work across the concerns of the time – the needs of country towns, the factory work floor, families and urban structure, poverty and inequality, education and immigration – and explores her far-reaching influence on the social sciences in Australia.

*The Sociology of Rural Life* NYU Press

Proceedings of the NATO Advanced Study Institute, Cappuccini, San Miniato, Italy, July 18-30, 1982

*Trends, Selected and Annotated Bibliographies, Analyses* Oxford and IBH Publishing

Includes sections "Current bulletins" and "Book reviews".

*Rural Institutions* Uitgeverij Van Gorcum

The Florence L. Kohlhagen Notebook consists of class notes of the Rural Sociology course taken by Kohlhagen at Oregon Agricultural College in 1923. The course was taught by Hector Macpherson.

Topics addressed in the course include the evolution of rural institutions; the rural community, family, and school; rural societies and associations, including churches; rural systems of transportation and communication; the dependence of national welfare upon the rural community; and the role of agriculture.

**Studying the Global Rural-Urban Matrix** Univ of California Press

This book is about International Service for National Agricultural Research's (ISNAR) study to identify key factors that influenced the effectiveness and efficiency of links between research and technology transfer. It recommends ways to improve these links and reflects the progress made till date.
