Practice nurse Kate Palmer is ready for some peace and quiet in her little Cornish village, but there's soon to be a murder on her doorstep... Kate's retirement in Cornwall hasn't quite gone as planned - Lavender Cottage is in need of substantial repairs and her sister Angie's fondness for gin does rather stretch the purse-strings. So when Kate is asked to do some nursing at the luxury retirement flats in Seaview Grange, she jumps at the chance. The old Victorian house has stunning views of the sea and the retirees are a peaceful bunch. That is, until Edina Martinelli, a glamorous ex-opera singer, is found poisoned in her home. Edina's death is ruled an overdose by Digoxin, the same medication she had been on for years. But Kate is sure the woman she met was not suicidal, and with the reputation of her practice on the line, she decides to do some digging. Luckily she's got the newly retired Detective Inspector Woody Forrest to help her... It's not long before Kate discovers evidence of foul play, and there's no shortage of suspects. Was it the besotted vicar? The ill-tempered stepson? Or perhaps Edina's neighbour finally had enough of her constant warbling. It seems everyone had a motive, but who amongst them had the stomach for murder? And will they kill again? If you love murder mysteries by Agatha Christie, Faith Martin or Joy Ellis, then this page-turning novel will have you reading late into the night! What readers are saying about the Kate Palmer series: 'Looking for a cozy, British mystery novel? You've got to read *A Body in Seaview Grange* by Dee MacDonald... You'll immediately be drawn to the relatable and superb cast of close-knit seaside village characters... It's a fantastic murder mystery, a charming whodunit, really, with lots of red-herrings to keep you guessing until the last page!' Goodreads Reviewer, [REDACTED] 'Some surprising suspects, red herrings, and some really colourful characters. Loved it!' Goodreads Reviewer, [REDACTED] 'Thoroughly enjoyable, fully entertaining and satisfied a craving for some gentle escapism. Looking forward to more in what is a new series for this author...' Naturally aspirated Mopar Wedge big-blocks are quite capable of producing between 600 to 900 horsepower. This book covers how to build Mopar's 383-, 400-, 413-ci, 440-ci engines to these power levels. Discussed is how to select a stock or aftermarket block for the desired performance level. The reciprocating assembly is examined in detail, so you select the right design and material for durability and performance requirements. Cylinder heads and valve train configurations are crucial for generating maximum horsepower and torque and this volume provides special treatment in this area. Camshafts and lifters are compared and contrasted using hydraulic flat tappet, hydraulic roller and solid flat tappet cams. Also, detailed engine builds at 600, 700, 800, and 900 horsepower levels provide insight and reveal what can be done with real-world component packages.

By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed.Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the *New York Times Magazine* that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation.In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.
