A Frequency Dictionary of German is an invaluable tool for all learners of German, providing a list of the 4,034 most frequently used words in the language. Based on a 4.2 million-word corpus which is evenly divided between spoken, fiction and non-fiction texts, the dictionary provides a detailed frequency-based list plus alphabetical and part of speech indexes. All entries in the rank frequency list feature the English equivalent,

a sample sentence plus an indication of major register variation. The dictionary also contains twenty-one

thematically organized lists of frequently used words on a variety of topics as well as eleven special vocabulary lists. A Frequency Dictionary of German aims to enable students of all levels to maximize their study of German vocabulary in an efficient and engaging way.

English Vocabulary - is
a list of more than
38000 words
translated from English
to German, as well as

translated from German to English. Easy to use- great for tourists and English speakers interested in learning German. As well as German speakers interested in learning English. *Get Fluent and Increase Your German Vocabulary with 2000 German Phrases* Routledge Unlike your average A-to-Z German/English dictionary, *Mastering German Vocabulary* presents more than 5,000 words in 41 separate categories. This arrangement allows students to understand the relationships of various words. Categories cover the human body, health and medicine, sports, culture and religion, and dozens of other subjects. Engaging example

sentences help illustrate the meanings of words and also inform readers on idiomatic expressions, grammatical exceptions, and cultural and geographical information. English-speaking readers will find help in translating those German words and phrases that may be too specialized to be found in ordinary alphabetically arranged bilingual dictionaries. Engaging line art illustrations, charts, and a comprehensive alphabetical word index enhances this volume's usefulness. A fine school supplement for language teachers, students, and language labs, and an aid for anyone who must sometimes get information from German journals and

other publications.

It's true that some people spend years studying German before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking.

Unlike most traditional language courses that try to teach you the rules of German, #LanguageHacking shows you how to learn and speak German through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the

language hacks - shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in German from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with

traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a

language any more.

A new comparative reference guide for English speaking learners of Alsatian German. This comparative multilingual dictionary is based on the main similarities between the two languages and will show how English speakers can take advantage of the resources of English and thus learn basic Alsatian through English. Owing to striking similarities between Alsatian and

English, English speakers can put their knowledge of everyday English to good use when learning basic Alsatian.

A Practical Guide to Troublesome Words

T&p Books

How often have you looked up an English word in a German dictionary only to be confronted by a bewildering array of German equivalents? Which is the correct word for the context in question? Thirty years' experience in teaching Germanic languages at tertiary level to English-speaking students have made the author acutely aware of this problem. *Mastering German Vocabulary* explains how to use over 2,200 common German words correctly, using example sentences in

German with English translations. In order to aid quick consultation, all German and English words are listed in separate indexes. The book is designed for all upper secondary and tertiary students of German and complements Routledge's grammar, dictionary and vocabulary building textbooks. It is a practical companion for anyone serious about perfecting their German.

Turkish vocabulary for English speakers - 7000 words T&p Books

This intensive lexical builder is addressed to B1-B2 intermediate learners of German, who are already capable of reading easy German stories, and who would like to enrich (and/or refresh) their vocabulary up to the advanced level in order to approach more complex German texts. Each piece of vocabulary is embedded in at least three example sentences in order to appeal to active understanding and trigger both short-term and long-term memory. Whenever

possible, different meanings of the terms or expressions concerned are also illustrated. The vocabulary lessons are interspersed with concise but essential reminders of German grammar. At the end of the book, readers are offered a bilingual, paragraph for paragraph version of one of E. T. A. Hoffmann's famous stories, namely "Rath Krespel" (1818), translated in English by J. T. Bealby (1885). In each pair of bilingual paragraphs, important words to retain or recognize are emphasized in bold or underlined. Finally, the bilingual version is followed by the original, German only text of Hoffmann's novel - which readers are advised to go

through, even if by now they know the narrative - since it is essential to retrieve and fully consolidate all learned German terms into their original context. This paperback comes with a free copy of the e-book version. Should you have any suggestions

as to how this book can be improved, please email us at: hermeslanguage@reference@gmail.com, or visit us at www.hermeslanguage@reference.wordpress.com And of course, as always when it comes to foreign language learning, remember to stay brave!
