The Rotary Club of Duarte, California, was chartered in District 530 in 1952. But just before its twenty-fifth birthday in 1976, the Duarte club violated Rotary's bylaws by inviting women to join, ultimately causing its charter to be unceremoniously revoked by Rotary International. Undeterred, the club renamed itself the Ex-Rotary Club of Duarte and its members continued on their quest not to be outcasts of one of the greatest humanitarian organizations in the world. Filled with facts and personal anecdotes, the first woman president in Rotary International shares a fascinating glimpse into the journey of the Duarte club. Sylvia Whitlock, who was present as the club enlisted help from the American Civil Liberties Union and took the case through the California court system until a landmark decision in May 1987, details the circumstances of the case as women struggled to attain equal rights, her role in the process, conversations with participants and onlookers, and the benefits she has gained personally through her own membership. *Women Also Serve* shares a compelling history of the Duarte Rotary Club and its lofty undertaking to recruit women into its chapter through the perspective of one who was there.

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again.

Instead, Dunne and Raby pose "what if" questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

This book is an "Honorable-Mention Awardee 2015" from Readers Favorite under Non-Fiction/Autobiography category. Two very young girls, one a Catholic from Poland, the other a Jew from Germany, are caught in a web of terror during World War II. These are their unforgettable true stories. "War does not spare the innocent. Two young girls, one a Catholic from Poland, the other a Jew from Germany, were witnesses to the horror of the Nazi occupation and Hitler's terror in Germany. As children they saw their homes and communities destroyed and loved ones killed. They

survived deportation, labor camps, concentration camps, starvation, disease and isolation." This is a moving personal account of history. Urbanowicz and Auerbachers painful pasts and similar experiences should guide us to make correct decisions for the future." Aldona Wos, M.D. Ambassador of the United States of America, Retired, to the Republic of Estonia Daughter of Paul Wos, Flossenburg Concentration Camp, Prisoner Number 23504 Most Holocaust survivors are no longer with us, and that is why this volume is so important. It is a moving testimony by two courageous women, one Catholic and one Jewish, about their youthful ordeals at the hands of the Nazis. They succeed in ways even the most astute historian cannot they literally capture history and bring it to life. It is sure to touch all those who read it. William A. Donohue President, Catholic League for Religious and Civil Rights Such an original book, written jointly by both a Jewish survivor and a Polish-Christian survivor of the Holocaust, Children of Terror points the way toward fresh insight, hope and redemption. If Never again is to be more than a slogan, tomorrows adults must be nourished and informed by books such as this. A fabulous piece of work, perfect for the young people who are our future. Rabbi Dr. Hirsch Joseph Simckes, St. Johns University, Department of Theology The authors were born in the same year but into different worlds: one a Polish Catholic and the other a German Jew. Despite their dramatically different traditions and circumstances, they shared a common trauma the confusion and fear of being a child in wartime. Auerbacher and Urbanowicz vividly describe the saving power of family, place, and tradition. Young readers of Children of Terror will come away with a deeper understanding of the Second World War and a profound admiration for the books authors. David G. Marwell, Ph.D., Director of the Museum of Jewish Heritage A Living Memorial to the Holocaust

When Rocky Wirtz took over the Wirtz Corporation in 2007, including management of the Chicago Blackhawks, the fiercely beloved hockey team had fallen to a humiliating nadir. As chronic losers playing to a deserted stadium, they were worse than bad—they were irrelevant. ESPN named the franchise the worst in all of sports. Rocky's resurrection of the team's fortunes was—publicly, at least—a feel-good tale of shrewd acumen. Behind the scenes, however, it would trigger a father, son, and brother-against-brother drama of Shakespearean proportions. The Breakaway reveals that untold story. Arthur Wirtz founded the family's business empire during the Depression. From roots in real estate, "King Arthur" soon expanded into liquor and banking, running his operations with an iron hand and a devotion to profit that earned him the nickname Baron of the Bottom Line. His son Bill further expanded the conglomerate, taking the helm of the Blackhawks in 1966. "Dollar Bill" Wirtz demanded unflinching adherence to Arthur's traditions and was notorious for an equally fierce temperament. Yet when Rocky took the reins of the business after Bill's death, it was an organization out of step with the times and financially adrift. The Hawks weren't only failing on the ice—the parlous state of the team's finances imperiled every facet of the Wirtz empire. To save the team and the company, Rocky launched a radical turnaround campaign. Yet his modest proposal to televise the Hawks' home games provoked fierce opposition from Wirtz family insiders, who considered any deviation from Arthur and Bill's doctrines to be heresy. Rocky's break with the edicts of his grandfather and father led to a reversal for the ages—three Stanley Cup championships in six years, a feat Fortune magazine called "the greatest turnaround in sports business history." But this

resurrection came at a price, a fracturing of Rocky's relationships with his brother and other siblings. In riveting prose that recounts a story spanning three generations, The Breakaway reveals an insider's view of a brilliant but difficult Chicago business and sports dynasty and the inspiring story of perseverance and courage in the face of intense family pressures.

Specifically designed as an introduction to the exciting world of engineering, ENGINEERING FUNDAMENTALS: AN INTRODUCTION TO ENGINEERING encourages students to become engineers and prepares them with a solid foundation in the fundamental principles and physical laws. The book begins with a discovery of what engineers do as well as an inside look into the various areas of specialization. An explanation on good study habits and what it takes to succeed is included as well as an introduction to design and problem solving, communication, and ethics. Once this foundation is established, the book moves on to the basic physical concepts and laws that students will encounter regularly. The framework of this text teaches students that engineers apply physical and chemical laws and principles as well as mathematics to design, test, and supervise the production of millions of parts, products, and services that people use every day. By gaining problem solving skills and an understanding of fundamental principles, students are on their way to becoming analytical, detail-oriented, and creative engineers. In the midst of apartheid in South Africa, journalist Maurice Hommel documented the cruel injustices and tensions running rampant within the country. What he saw forever impacted his life. Conversations and Soliloquies presents a collection of Hommels essays and articles from the last fifty-five years, documenting and analyzing South African history during and after apartheid. Over time, the essays illuminate, in sometimes graphic detail, the anti-apartheid struggle that defined South Africa for decades. Beginning with the Sharpeville Massacre of 1960, Hommel delves into the bloody history of apartheid and traces how it pervaded every segment of society. His interviews with prominent South Africans, including Desmond Tutu and Neville Alexander, offer intimate glimpses into the thoughts of those working for change. In addition, stark photographs capture the emotions of the time. In its breadth of historical perspectives, this collection is a significant contribution to an understanding of South Africa's evolution to a nonracial, nonsexist, democratic country. Although lingering prejudices and smoldering resentments remain, Hommel carries an unshakable optimism of South Africa's enormous potential. Conversations and Soliloquies captures that hope.

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Is there anything wrong with a Christian being a member of the Lodge? Are you a Christian pastor who has studied Masonry found nothing wrong with it and so you have not warned your members and possibly even joined the Lodge yourself? Does your church allow Masons to serve on your boards to teach the Bible in Sunday School and serve in other positions of influence and leadership? In this book we will document from the Masonic Ritual the authoritative book given to a person who enters and becomes a member of the Lodge how Masonry conflicts and denies foundational Christian truths. Masons are promised that nothing in Masonry's teachings will ever conflict with their own Christian belief. Has Masonry lied to or deceived Christians? In this book you will find answers to all these questions from the Masonic ritual and the Bible itself.
