An accessible and
practical discussion of
organizational behavior In
the newly updated third
edition of Organizational

Behavior, a team of
accomplished educators
delivers a
multidimensional text that
combines analysis,
knowledge, personal
development, and

synthesis with useful pedagogical features that bring organizational behavior to life. This edition reconsiders organizational behavior from an interdisciplinary vantage point, showing students the interdependence of factors that explain human behavior. Frequently addressed organizational behavior subjects are considered from within an integrated framework and are employed to answer functionally relevant questions about why

people behave the ways in which they do, as well as how to effectively influence and manage others.
Course Design Strategy
 John Wiley & Sons
 Does taking time off lead to more stress than relaxation because you're worried what will (or won't) happen at the office while you're gone? Are you looking for a way to demonstrate the skills and value you contribute to your organization and team? Do you want to be ready to act if your dream job suddenly becomes

available? If the answer is "yes," then you need to create your administrative procedures, and this book can help! Become a Procedures Pro, the third book from All Things Admin Founder Julie Perrine, is a complete and easy-to-follow guide that features instructions for creating effective office systems and procedures, as well as the many benefits and uses for them. Some featured sections of the book include: - Getting started with documenting your systems and procedures -

Why procedures make good business sense - Procedures' role in strengthening your team - The career benefits of procedures - The difference between systems and procedures - Getting started with systems development - Creating effective office procedures - Using checklists, forms, and templates - And many more!

This report covers activities undertaken by the Office for Victims of

Crime (OVC) & its grantees with Crime Victims Fund revenues during Fiscal Years 1995-1996. It examines the Crime Victims Fund, funding services for crime victims, OVC-funded training & technical assistance, using OVC's diverse resources to assist victims of terrorism & mass violence, OVC's international efforts on behalf of victims, disseminating information & responding to constituent requests, & future directions. Figures, tables, appendices.

Virtual Training Tools and Templates SAGE Publications

An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives.

“Written by three experts in the field, Deep Learning is the only comprehensive book on the subject.”

—Elon Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX
Deep learning is a form of machine learning that

enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers

deep. This book introduces a broad range of topics in deep learning. The text offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and machine learning. It describes deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks,

sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate

inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors.

Effective Training

Manuals Association for Talent Development
From the participation of researchers in most

important international conferences in the field, it is noted that activities in automatic document processing have been continuously growing. This book is an edited volume in Digital Document Processing where the chapters are written by several internationally renowned researchers in the domain. It will be useful for both students and researchers working on various aspects of document image analysis and recognition problems. It contains chapters on

topics that are not covered by any textbook, but are more futuristic like “Going beyond the Myth of Paperlessness”, or interesting application areas like “The Role of Document Image Analysis in Trustworthy Elections” as well as “Word Recognition for Museum Index Cards with SNT-Grid”. Persons developing document analysis software for industry may also find the chapters useful and attractive. The language of the chapters is simple and clear, along with drawings/diagrams

wherever necessary. An adequate number of references are given at the end of each chapter. Overall, the book is highly readable and will be an asset to the community. Renowned contributors include George Nagy, Hiromichi Fujisawa, F Kimura, D Lopresti, Chew Lim Tan, S Uchida, Thierry Paquet, Laurent Heutte, V Govindaraju, R Manmatha.

Contents: Document Image Analysis Using Markovian Models: Application to Historical Documents (S Nicolas, T

Paquet and L Heutte) Information Just-in-Time: Going Beyond the Myth of Paperlessness (H Fujisawa, H Ikeda, N Furukawa, K Konishi and S Nakagami) The Role of Document Image Analysis in Trustworthy Elections (G Nagy and D Lopresti) Information Retrieval from Document Image Databases (S Lu and C L Tan) Indexing and Retrieval of Handwritten Documents (H Cao and V Govindaraju) Comprehensive Check Image Reader (M Shridhar, G F Houle, R Bakker and F

Kimura) Statistical Deformation Model for Handwritten Character Recognition (S Uchida) Robust Word Recognition for Museum Index Cards with the SNT-Grid (S M Lucas and A Foullon-Pérez) Historical Handwritten Document Recognition (S L Feng and R Manmatha) Statistical Modeling of Document Appearance (P Sarkar) Reverse-Engineering of PDF Files (R Ingold, J-L Bloechle and M Rigamonti) Recognition of Bangla Handwriting: Current Status and Future

Directions (U
Bhattacharya, S K Parui
and B B Chaudhuri)

Each of us has but one life
to live on this earth. What
we do with it is our
choice. Are we drifting
through it as spectators,
reacting to our
circumstances when
necessary and wondering
just how we got to this

point anyway? Or are we directing it, maximizing the joy and potential of every day, living with a purpose or mission in mind? Too many of us are doing the former--and our lives are slipping away one day at a time. But what if we treated life like the gift that it is? What if we lived each day as though it were part of a bigger picture, a plan? That's what New York Times bestselling author Michael Hyatt and executive coach Daniel Harkavy show us how to do: to design a life with

the end in mind, determining in advance the outcomes we desire and path to get there. In this step-by-step guide, they share proven principles that help readers create a simple but effective life plan so that they can get from where they are now to where they really want to be--in every area of life. [Become a Procedures Pro](#) Apress
In the corporate world, businesses are focused on increasing their revenues but ignore the cries of social and environmental

concerns from nearby communities. At the other end of the spectrum, nonprofits seek to help their local communities but are constantly required to create fundraisers without having adequate time to put those collected donations to use. The world needs an industry to combine civic engagement and public service with wealth and value creation to provide self-sustaining opportunities for public services that are sometimes overlooked or

ignored. The Handbook of Research on Value Creation for Small and Micro Social Enterprises defines the concept of social enterprise and provides vital insight into the importance of rebalancing, creating, and promoting economic activities that achieve social fairness, cultural fulfillment, and the protection of the environment. While highlighting topics such as marketing strategies, cross-cultural frameworks, and public policy, this publication focuses on

empowering rather than controlling sustainable solutions for various communities and consumers. This book is ideally designed for researchers, policymakers, academicians who teach and/or research small and micro social enterprises, and advanced-level students furthering their research exposure to pertinent topics in this field.

Recipe Manual ASCD

What is understanding and how does it differ from knowledge? How can

we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of

Understanding by Design. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth

the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of Understanding by Design apply to district

frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of Understanding by Design offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

The Definitive Guide to
Interwoven TeamSite is

the first book to cover the TeamSite enterprise content management system, a product used by nine of the top 10 largest companies in the world, and thousands of other organizations around the globe The technical reviewer is the product manager for Interwoven TeamSite Authored by TeamSite experts Brian Hastings and Justin McNeal, who are presently leading the TeamSite upgrade project for MasterCard International Guided by a real-world example project, readers

will learn the concepts and strategies necessary to develop, deploy, and maintain a large-scale content management system using this product **Monitoring and Evaluation Training** IGI Global Are your virtual training tools ready for a tune-up? You've discovered the best way to reach remote audiences without boarding a single plane. And you've learned that an effective virtual training program is relatively short, highly relevant, and extremely

engaging. Now you need the tried-and-true tools that will make your next program an all-out success. Virtual Training Tools and Templates: An Action Guide to Live Online Learning offers proven resources for delivering top-notch virtual training programs. Make expert trainer Cindy Huggett's professional array of virtual tools your own, and discover new perspectives from a range of training trailblazers. You'll find their real-world lessons learned and get full access to their secrets

of the trade. Starting with a simple four-step process (get started, get ready, get buy-in, and get going), Huggett helps you select the right technology, then offers detailed sections on how to design content, develop activities, and work with both facilitators and producers. And if you're wondering how to prepare participants and evaluate program results, Huggett does not disappoint. Follow along as she guides you with new and relevant tips, tools, and templates

every step of the way. A virtual training pioneer, Huggett wrote this book for you---instructional designers, facilitating trainers, learning coordinators, and training managers. And she continues to experiment with creative techniques and hone her skills so you can jump in with confidence. This complete guide builds on the author's popular *The Virtual Training Guidebook*---use them together or on their own to delve into Huggett's holistic approach to

virtual training.

This six-volume set of LNCS 14187, 14188, 14189, 14190, 14191 and 14192 constitutes the refereed proceedings of the 17th International Conference on Document Analysis and Recognition, ICDAR 2021, held in San

José, CA, USA, in August 2023. The 53 full papers were carefully reviewed and selected from 316 submissions, and are presented with 101 poster presentations. The papers are organized into the following topical sections: Graphics Recognition, Frontiers in Handwriting Recognition, Document Analysis and Recognition. [The Organized Admin](#) John Wiley & Sons
Education is the new currency. Regardless of what business or industry you are in; if you wish to sell what you have to

others, your commercial survival depends on you becoming the EDUPRENEUR. Consumers are tired of sales pitches and promises, and instead are seeking information and knowledge. By giving it to them you get to demonstrate your capability and expertise as much as they get to experience it - making you choice number 1 for their needs. Edupreneurs strategically share their expertise in a way that provides unprecedented global reach, immeasurable impact on

the lives of others, and unlimited income potential. Every single person on Earth has an abundant and unique set of skills, experiences, and knowledge that could be turned into commercially profitable products and services. In this book, Sarah Cordiner will take you through the fundamentals of monetising your expertise and profitably sharing what you know with the world. Whether you are an absolute beginner in creating and selling information and

education-based products and services, or are uplevelling to a serious education-based business operation; this book will help you get there. Inside this book: How to commercialise your skills, knowledge, and expertise and start profiting from what is already in your head. How to create your own unique 'funnel of service', so that you no longer need to 'sell', and instead have your customers coming eagerly to you for your advice and expertise. A deep dive into the 10 stages of designing

and building a highly successful information or education-based business so that you maximise your impact and income. How to price your informational and educational products and services; including courses, consulting, workshops and more. Where and how to sell your educational products for maximum exposure and sales - particularly online courses. The critical elements of an online education based business. What online tools, apps

and products you need and how they all fit together for maximum profitability, scalability, and automation. How to use your expertise to become a well-known leader in your industry. *The Training Design Manual* Maintraining Pty Limited
Now you can access Jean Barbazette's systematic process for creating winning training materials that will help raise your skills to the next level. The book is filled with easy-to-use tools and templates that answer all

the questions trainers, course designers, and subject matter experts (SMEs) have about what it takes to develop training materials and how they can easily create the best training program in the shortest amount of time. "Jean is a master at providing her readers with new ideas and innovative approaches to the art of delivering excellent learning solutions. Our field has gone through so many changes and Jean is on top of them and out in front all at the same time. Bravo!" Beverly Kaye,

founder/chairman of the board, Career Systems International and coauthor of *Help Them Grow or Watch Them Go* "Barbazette has done it again: she has made your job easier with step-by-step guidelines for developing training materials. Jean covers the entire process in her typical easy-to-follow manner, simplifying the complicated and making you the hero! Don't miss this one!" Elaine Biech, ebb associates inc. and author of *The Business of Consulting* "Once again

master trainer Barbazette has provided an elegantly simple, step-by-step guide to what can often be the most tedious part of the training process: writing training materials that support and expand a learner's results. Both seasoned professional and newcomer will find this an easy-to-follow guide and valuable resource to be used over and over." Eileen McDargh, president, McDargh Communications, and author of *Talk Ain't Cheap It's Priceless* "Barbazette is back to fill another gap

in the training literature. This extensive work on how and when to write training materials is chock-full of templates and other tools. Systematic and thorough, this is an exceptional guide for those wanting to efficiently create successful training interventions." Jane Bozarth, Ed.D., eLearning Coordinator, State of North Carolina and author of *Better Than Bullet Points Official Documents, Comprising the Department and Other*

Reports John Wiley & Sons
The production of this manual is a joint activity between the Climate, Energy and Tenure Division (NRC) and the Technologies and practices for smallholder farmers (TECA) Team from the Research and Extension Division (DDNR) of FAO Headquarters in Rome, Italy. The realization of this manual has been possible thanks to the hard review, compilation and edition work of Nadia Scialabba, Natural Resources officer (NRC) and Ilka Gomez and

Lisa Thivant, members of the TECA Team. Special thanks are due to the International Federation of Organic Agriculture Movements (IFOAM), the Research Institute of Organic Agriculture (FiBL) and the International Institute for Rural Reconstruction (IIRR) for their valuable documents and publications on organic farming for smallholder farmers. *Handbook of Research on Value Creation for Small and Micro Social Enterprises* DIANE Publishing

"This book is a collection of empirical research regarding the status of F/OSS projects, presenting a framework and state-of-the-art references on F/OSS projects, reporting on case studies covering a wide range of F/OSS applications and domains. It asserts trends in the evolution of software practices and solutions to the challenges ubiquitous nature free and open source software provides"--Provided by publisher. Are you struggling to make sense of the disorganized chaos that is your workspace? Do you want more effective systems for keeping yourself and your executive organized? Do you want to better understand your organizational style? If you answered, "yes" to these questions, we have an exciting announcement for you! Julie Perrine, founder of All Things Admin, has released her second book, *The Organized Admin!*

This new book includes advice, information, and resources on developing simple organization systems that promote administrative career success. Readers will discover how to organize everything from their workspace to meetings and events, and they'll gain a better understanding of their organization style preferences for space and time. If you would like to learn more about your organization style, visit www.TheOrganizedAdmin.com to access the Time &

Space Style Inventory (TSSI) assessment. It's time to finally get organized!

Document Analysis and Recognition - ICDAR

2023 McGraw Hill Professional

This workbook and the accompanying online resources provide a one-stop reference manual to designing and delivering a successful training course. Written in a practical and user-friendly style, The Training Design Manual provides both theory and practical exercises; guiding the reader

through the total design process from start to finish. Theory and concepts are followed by practical application and a blend of text and graphics appeals to a wide range of learning styles.

Accompanying online material includes design templates which the reader can use to record ideas as they progress through the book so that by the end, they will have a complete course design. Online supporting resources include dozens of activities, examples and templates.
