The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence, on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation, step-by-step techniques for the re-creation of the energy field of the evolved human, which is the key to ascension and the next dimensional world. If done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others and even of the planet. Embrace the expanded vision and understanding that Drunvalo offers to the world. Coincidences abound, miracles flourish and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life.

Time management remains a huge challenge for most people. This book shares the habits and processes used by top leaders worldwide to minimize distractions and maximize accomplishments. In researching more than 1,260 managers and executives from more than 108 different organizations, Steve and

Rob Shallenberger discovered that 68 percent of them feel like their number one challenge is time management, yet 80 percent don't have a clear process for how to prioritize their time.

Drawing on their forty years of leadership research, this book offers three powerful habits that the top 10 percent of leaders use to Do What Matters Most. These three high performance habits are developing a written personal vision, identifying and setting Roles and Goals, and consistently doing Pre-week Planning. And Steve and Rob make an audacious promise: these three habits can increase anyone's productivity by at least 30 to 50 percent. For organizations, this means higher profits, happier employees, and increased innovation. For individuals, it means you'll find hours in your week that you didn't know were there—imagine what you could do! You will learn how acquiring this skillset turned an “average” employee into her company's top producer, enabled a senior vice president to reignite his team and achieve record results, transformed a stressed-out manager's work and home life, helped a CEO who felt like he'd lost his edge regain his fire and passion, and much more. By implementing these simple and easy-to-understand habits, supported by tools like the Personal Productivity Assessment, you will learn how to lead a life by design, not by default. You'll feel the power that comes with a sense of control, direction, and purpose.

Hook Point: How to Stand Out in a 3-Second World, by out of the box thinker Brendan Kane, breaks down the most effective strategies to generate new opportunities, innovate and scale your business, and create a compelling brand--both online and off--so you can thrive in the new micro-attention world in which we live. A lot of people know who they are, what they do, and a few even know why they do it--but even when brands or individuals have clarity in these areas, they often struggle to grab a potential audience's attention for long enough to get them to learn about their attributes. Others have amazing products or services that fail to achieve great success because they don't know how to talk about what they do effectively. This is because digital and social media have reshaped our world into one of micro-attention. There are over sixty billion messages shared on digital platforms each day, and the average person is exposed to between four thousand to ten thousand ads a day. This bombardment of stimuli has changed the way we communicate and market content both online and off. In fact, research shows that you have less than three seconds to capture a person's attention. With such a short window of time, we need to hook audiences quickly, efficiently, and consistently if we want to successfully fuel brand awareness and growth. Luckily, Brendan Kane, an out of the box thinker and strategist who's built platforms for celebrities like Taylor Swift and Rhianna, and worked with Fortune 500 companies like Paramount, Viacom, and MTV has mastered the art of standing out. In Hook Point: How to Stand Out in a 3-Second World he reveals the power of hook points--a communication tool that helps marketers package their messages in a succinct, attention-grabbing way that leads to better opportunities both online and off. Whether you're promoting a brand, product, or service this book is the essential guide for making it in our three-second world.
