**Working with Young Children** Macmillan Higher Education

Written as part of a training pack for practitioners working in children's services and child protection, and bringing together leading figures from a range of disciplines, this important text shows how the latest child development theories can be applied to professionals' working practice. Considering theories of development throughout the lifespan from the early years through to adolescence, and transitions to adulthood, this resource is essential reading for a

range of professionals including social workers, teachers, and health and mental health professionals. The authors build up an integrated picture of the developing world of the child, looking at genetic and biological influences alongside individual psychological, interpersonal, familial, educational and wider community domains. The final part of the book looks specifically at issues for practice, including chapters on communicating with children exercising

professional judgement, and planning, interventions and outcomes in children's services.

This current and comprehensive handbook will guide educators, students, and clinicians in developing the awareness, knowledge, and skills necessary to work effectively with LGBTQI+ populations. Twenty-five chapters

written by experts in the field provide direction for working with clients in an authentic, ethical, and affirmative manner that is tailored to their individual strengths, needs, and identity. The book is divided into four sections, which explore the science behind gender and affectional orientation; developmental issues across the life span and treatment issues; the specialized needs of nine distinct populations; and the intersectionality of ethnicity and overlapping identities, the role of

religion, and counselor advocacy. To further a deeper understanding of the content, each chapter contains an "Awareness of Attitudes and Beliefs Self-Check," a case narrative relating to the material covered, questions for discussion, and a list of online resources. The book concludes with an extensive glossary of terms, both preferred and problematic, which counselors working with these communities should understand and use appropriately. \*Requests for digital versions from

[Early Childhood Assessment in School and Clinical Child Psychology](#)  
Knopf Books for Young Readers

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that

may come packaged with the bound book. Social Studies for the Preschool/Primary Child, 9/e, written by respected authors Sharon Castle and Renee C. Falconer, and begun by the late Carol Seefeldt, remains one of the most popularly read texts on teaching social studies to young children. Filled with a multitude of ideas, suggestions, and activities that prospective early childhood teachers can use to interest young children in social studies, the practicality and applicability of this

resource is proven. Not only will novice teachers learn the content and methods of teaching social studies, but also they will be given sound ways to integrate social studies in other areas of the curriculum, including science, the arts, literacy and mathematics. The importance of understanding and using child development knowledge is a focus throughout the book. It includes a full chapter on play as a crucial part of children's learning and

development, and incorporates ideas for play throughout the material. Revised with the most current research, topics, and more, the book includes three extensively revised chapters to offer all of the 10 NCSS Thematic Strands; a new emphasis on the use of such technology as e-mail, digital cameras, and the World Wide Web; and thoroughly incorporates the current NAEYC standards for quality, curriculum, and professional preparation.

The primary strength of *BEGINNINGS AND BEYOND: FOUNDATIONS IN EARLY CHILDHOOD EDUCATION*, 10th Edition, is its blend of simplicity and depth. In a clear and easy-to-understand style, the book lays out basic questions any student of early childhood education would want answered -- and presents key concepts, the latest research, and practical examples so that

questions are thoroughly answered. Coverage of the current Developmentally Appropriate Practices (DAP) is woven throughout the text, as is material on diversity and development, which enables readers to understand that issues of age, gender, race/ethnicity, ability, and family are part of every aspect of teaching and learning. Every chapter has a feature focused on how brain-based research is connected to development, and another

that highlights intentional teaching. Through its tone, visuals, and pedagogy, the book is accessible to and respectful of readers with a range of abilities and learning styles.
