When designing a supercar, no expense can be spared; it is supposed to exceed all other cars in all facets of performance, handling, appearance, and even price. For Supercars 2015, photographer James Mann pulled some of the rarest and most expensive vehicles into his studio, showing the brilliance of their design in gorgeous photography. A must-have for the fan of any make, this large format calendar includes the best from Ferrari, Lamborghini,

Bugatti, McLaren and Alfa Romeo.

A True Story of Invention, Automotive Daring, and the Race to Revive America Motorbooks International

Television studies must now address a complex environment where change has been vigorous but uneven, and where local and national conditions vary significantly. Globalizing media industries, deregulatory policy regimes, the multiplication, convergence and trade in

media formats, the emergence of new content production industries outside the US/UK umbrella, and the fragmentation of media audiences are all changing the nature of television today: its content, its industrial structure and how it is consumed. Television Studies after TV leads the way in developing new ways of understanding television in the post-broadcast era. With contributions from leading international scholars, it considers the full range of

convergent media now implicated in understanding television, and also focuses on large non-Anglophone markets – such as Asia and Latin America — in order to accurately reflect the wide variety of structures, forms and content which now organise television around the world.

Using the modern home as a springboard, *Atoms under the Floorboards* introduces the reader to the fascinating and surprising scientific explanations behind a

variety of common (and often entertainingly mundane) household phenomena, from gurgling drains and squeaky floorboards to rubbery custard and shiny shoes. Packed with facts and fun, each chapter focuses on a feature in each of the areas and slowly unpicks the science behind it. * Is it better to build skyscrapers like wobbly jellies or stacks of biscuits? *Can you burn your house down with an electric drill? *How many atoms would you have to split to power a lightbulb?

*How can a raincoat be waterproof and breathable at the same time? *Atoms under the Floorboards* answers all these questions, and hundreds more. You'll never look at your home the same way again ...

The How Things Work Encyclopedia takes a look at the technology all around us-and then explains how it works. In each themed section of the encyclopedia, inventions are unpacked to show how and why

they work the way they do. Readers can lift the hood of a car engine, get inside a TV set, and discover the power of invisible microwaves. Photographs of the inventions and discoveries, with close-ups, cutaways, and diagrams, bring the technology to life so children can really see and understand what's going on inside.

Named after Elisa, the granddaughter of Lotus's

owner at the time, Romano Artioli of Bugatti fame, the Lotus Elise was launched at the Frankfurt Show in 1995. In the subsequent twenty-five years it has not only established itself as the embodiment of what Lotus stands for, it retains a unique place in the international sports car market. No other manufacturer came up with a car to seriously rival the Elise, nor the Exige, in terms of handling dexterity on both road and racetrack, and it aptly characterizes the

definition of a sports car. Written in Johnny Tipler's inimitable style this book includes a detailed evolution of the Elise and Exige, including full specification tables; interviews with key individuals involved in their design and development, including Richard Rackham, Gavan Kershaw, Neil Thomas, Russell Carr, Barney Hatt and Andy Pleavin; Elisa Artioli on her namesake, its past and future; motor sport adaptations and successes and finally, driving experiences on

road and track. The production of the Elise and Exige was sustained through four corporate upheavals. Now in Geely ownership, the future for Lotus looks bright.  Last night Tennant Truman got drunk and fell asleep in Tokyo. This morning he awoke in Los Angeles with a terrible hangover... and no memory of the last five years of his life. Not a good day to be pursued by a Chinese assassin... Fans of *The Bourne Identity* and *The Girl With the Dragon Tattoo* won't want to miss this thrilling

novel of suspense spanning two continents! His every memory of the last five years is gone. The girl he loved replaced by a woman he doesn't recognize. Where before he could only speak English, now he's fluent in Chinese, Japanese and Russian. A briefcase of enormous value has been left with his ex-girlfriend for safekeeping. And he is pursued by Zhang— a Chinese assassin, who wants to use him as a pawn in a game of international dominance. What happened to

Tennant Truman? The only way he can find out... is to stay alive. From *Inside The Novel...* There was a coldness to her voice. It kind of freaked me out. "Well," I said, trying to be helpful, "why don't you move into—" "We'll just get stuck in that lane, instead." It had been like this since she arrived that morning, and her mood seemed to be blackening. Now that she saw me back in normal clothing, maybe the situation was beginning to sink in. "Listen," I said, trying to be diplomatic,

“maybe we got off to a bad start.” All I got was silence from her. I looked around. Such a nice dash. And those controls, so well designed. And a flappy-paddle gearbox. What technology! “It’s a nice set of wheels you got here,” I said. “You have real good taste in automobiles.” Vivian looked over. “You brought it home without telling me. I wanted a Prius.”

From humble beginnings as a 1970s motoring show, *Top Gear* has gone on to achieve diesel-powered world domination. After

Clarkson and producer Andy Wilman successfully pitched a new format to BBC bosses, Top Gear returned to become the irreverent, funny and often controversial show we now know and love. The Star in a Reasonably Priced Car, the Cool Wall and Power Laps by the mysterious Stig have all become staples of Britain's favourite Sunday evening entertainment. Recent series have been defined by their madcap challenges such as driving across Africa in clapped-out bangers - with

predictably hilarious results. However, the show's most shocking moment came in 2006, when Hammond suffered serious head injuries while driving a Vampire turbojet drag racing car at over 300mph. Clarkson, Hammond and May; they are the politically-incorrect-joking, stone-washed-denim-wearing, bloke-hero trio for the modern(ish) age. This brilliant, detailed book is fitting tribute to the show, its presenters and its most memorable moments.

Car Marques is the most detailed and comprehensive guide to car badges ever published. In 224 pages it reveals the history and design of over 90 marques from around the world, each with color illustrations and annotated diagrams. British motoring journalist Simon Heptinstall, who helped launch BBC Top Gear magazine, describes each badge, details the story behind it, and uncovers snippets of

information that will delight motoring enthusiasts. The introduction outlines how the book works and provides an overview of the history of car badges. Feature spreads show how the badges of iconic marques such as Buick and Peugeot have changed over time. It also contains profiles of major figures in the history of the automotive industry such as André Citroën, Gottlieb Daimler, William C. Durant, and Enzo Ferrari. The badges are arranged in alphabetic

order and include world-famous marques such as Alfa Romeo, Aston Martin, BMW, Buick, Corvette, Lamborghini, Mercedes, Mustang, Porsche, and Toyota.

Years I looked for a book that had pictures of all the great cars I admired from modern megacars to favorite old classic to rare one-of-a-kind show pieces. I found one book with maybe a third of my dream cars. With help of some friends I decided to

create CARS THAT MATTER, a handy photographic guide with lots of descriptions and historical notes about the most interesting, rare, and fun cars produced over the last century. Every car collector and wannabe collector I knew found something they'd not heard of in this first edition but I kept adding cars. Finally at 333 pages of brilliant images I decided to share this with the car-loving world. I hope you like it. 100 years. 100 cars. The greatest of all time. The
