The Archaeological Evidence of Noah's Flood and Ark Akademisyen Kitabevi Rick Antonson joined a five-member expedition to the 5,167-metre summit of Mount Ararat, the most fabled mountain in the world. He traces the earliest

mountaineers seeking to scale Ararat initially drawn by eyewitness accounts of Biblical "Ark" sightings and later for the simple quest of conquering the seemingly unconquerable. Noah's Ark: I Touched it New Leaf Publishing Group Acclaimed travel writer Rick Antonson sets his adventurous compass on Mount Ararat, exploring the region's long history, religious mysteries, and complex

politics. Mount Ararat is the most fabled mountain in the world. For millennia this massif in eastern Turkey has been rumored as the resting place of Noah's Ark following the Great Flood. But it also plays a significant role in the longstanding conflict between Turkey and Armenia. Author Rick Antonson joined a five-member expedition to the mountain's nearly 17,000-

foot summit, trekking alongside a contingent of Armenians, for whom Mount Ararat is the stolen symbol of their country. Antonson weaves vivid historical anecdote with unexpected travel vignettes, whether tracing earlier mountaineering attempts on the peak, recounting the genocide of Armenians and its unresolved debate, or depicting the Kurds' ambitions for their own

nation's borders, which some say should include Mount Ararat. What unfolds in Full Moon Over Noah's Ark is one man's odyssey, a tale told through many stories. Starting with the flooding of the Black Sea in 5600 BCE, through to the Epic of Gilgamesh and the contrasting narratives of the Great Flood known to followers of the Judaic, Christian and Islamic religions, Full Moon Over

Noah's Ark takes readers along with Antonson through the shadows and broad landscapes of Turkey, Iraq, Iran and Armenia, shedding light on a troubled but fascinating area of the world. *Verses And Poems About Mount Ararat, The Flood And Noah's Ark* Treasured Truth Publishing This incredible book details the dramatic climbs, political intrigue, and sheer danger

involved in a quest for the greatest archaeological treasure of all time. Never-before-seen photographs, expedition accounts, and persuasive evidences point to a massive, man-made abject hidden on remote Mt. Ararat. *Agri-Dagh* iUniverse  
The recent translation of a Babylonian tablet launches a groundbreaking investigation into one of the most famous stories in the world, challenging

the way we look at ancient history. Since the Victorian period, it has been understood that the story of Noah, iconic in the Book of Genesis, and a central motif in Judaism, Christianity and Islam, derives from a much older story that existed centuries before in ancient Babylon. But the relationship between the Babylonian and biblical traditions was shrouded in mystery. Then, in 2009,

Irving Finkel, a curator at the British Museum and a world authority on ancient Mesopotamia, found himself playing detective when a member of the public arrived at the museum with an intriguing cuneiform tablet from a family collection. Not only did the tablet reveal a new version of the Babylonian Flood Story; the ancient poet described the size and completely

unexpected shape of the ark, and gave detailed boat building specifications. Decoding this ancient message wedge by cuneiform wedge, Dr. Finkel discovered where the Babylonians believed the ark came to rest and developed a new explanation of how the old story ultimately found its way into the Bible. In *The Ark Before Noah*, Dr. Finkel takes us on an adventurous

voyage of discovery, opening the door to an enthralling world of ancient voices and new meanings. *Noah's Ark and the Ararat Adventure* AuthorHouse One of the most stunning, unique and captivating books on the account of the Ark and the global Flood of Noah's day ever produced. Based on the account recorded in Genesis 6-9 in the Bible, the narrative is true to the

biblical record and its timeline of events concerning Noah and the Great Flood, with added insight as to what it might have been like to be in Noah's shoes. This book is not just material for Ministry to Children, but can also be used as an excellent Evangelical tool. The thrilling adventure of Noah comes to life through the dazzling, detailed illustrations by Bill Looney and from the

multi-media presentation of author Tom Dooley. This dramatic and exciting retelling of a timeless Bible story is an excellent resource and should have a place in every Church Library.

A retelling of the story of Noah's ark, embellished with elements from Romanian folklore, including how the devil sneaked aboard, the

reason Noah threw a cat overboard, and the role of a snake in saving the ark. In this Romanian folk version of the Noah story, getting the animals to march, two by two, onto the ark is the easy part. It's Noah's stubborn wife who insists that she's staying on dry land. Frustrated, Noah finally declares, "Oh, you devil, come in!" and not only persuades his wife but also gives the Devil himself

the invitation he needed to come aboard.

In the summer of 1943, while a U. S. Army sergeant stationed in Hamadan, Iran, Ed Davis became friends with some local Kurd tribesman (or Lourd, in Davis's original account), who told him of Noah's ark on Mount Ararat. The ark and items from it were considered holy relics,

generally kept from outsiders, but the patriarch's friendship with Davis made him an exception. They showed him items from the ark, including a cage door, latches, and shepherd staffs. All the wooden items were described as petrified. Tribal leader Abas-Abas and seven of his sons led Davis up the northeast side of Ararat, but bad weather prevented getting closer than half a mile to the

ark. But Davis did see it; it was broken into three or four pieces, of which Davis saw two; the nearer had at least three floors. Abas-Abas supplied other details. The living space for people is at the top; the ark's door was hinged at the top; construction was done with wooden pegs.  Never To Die is a novel about the quest to find Noah's Ark on Mt. Ararat and also about the historical account of Armenia. Alternating chapters revert back and forth starting from a young

Armenian/American engineer joining a French archaeological team seeking to find the ark. Succeeding chapters take the reader from the initial signs of civilization in the Ararat region, to the founding of the Armenian nation, to Armenias status in the Soviet Union. The text includes fictional characters who contact real life great chronicled personalities. Historical events are accurately conveyed by the characters as the narrations progress from chapter to chapter. The volume also relates on the burden of the young Armenian/American who feels he has the deep responsibility of maintaining the memories of those who have been martyred. In essence, the book covers the trials and tribulations of both the ark exploration team and Armenias growth in her 10,000-year history. Mount Ararat and Noah's Ark Researches Dundurn.com Ararat, a behemoth of a mountain, is 17,000 feet of pain for anyone who dares trespass upon its icy heights. It is a place of dread where one wrong step can send climbers careening down a steep, glacial field into the abyss known as the Ahora Gorge. Many have died on those slopes, and some have never been seen again. So

why do climbers come to this place on the far east of the Turkish Frontier? It is not for sport alone; in fact, for most, that is far from the real reason. They come to Ararat flirting with death to find an old boat we all know as Noah's ark. It is said that its rotting corpse is somewhere up there in the swirling clouds and slumbering silence of ancient ice. Come with Mary Irwin, one of the original "ark-aeologists," as

she travels to Ararat and back again uncovering many of the ancient secrets of Noah's ark. You may be surprised what you find! Second International Symposium of Mount Ararat and Noah's Ark Putnam Publishing Group The Bible and Hebrew texts tell us: The Bible tells us in Genesis 8:4 that the ark rested "upon the mountains of Ararat." Hebrew text tells us the ark came to rest on the

mountains of "rrt." There are no vowels in original Hebrew text, so "rrt" translated to Urartu and later to Ararat. Research tells us the area extended from southeastern Turkey across the present border into Iran and north to include most of present day Armenia to the southwest corner of Georgia then southwest to about the present city of Malatya and back southeast and south of Lake Van and

southeast Turkey. It covered much of the eastern 1/3 of the present day Turkey. Mount Ararat is within that general area. Additional research that includes the time when Genesis is understood to have been written by Moses (1400-1450 BC) indicates that the Urartu Kingdom may have included the area into what is now Northern Iraq and to Historic Assyria. Additional research using

Wikipedia tell us Assyrian sources from early 1300 BC have the Urartu Kingdom in the vast mountainous regions southwest of the Black Sea and Southwest of the Caspian Sea. Mount Ararat is within that general area. If the "mountains of Ararat," or Urartu has included such a large area or areas over the centuries, then since there has been no verifiable discovery that

has been proven to be a large structure of a great age, It can be understood why some researchers are of the opinion that Mount Ararat may not have been in the area of Urartu at the time of the writing of the book of Genesis, or the ark did not land on Mount Ararat, but on another mountain within the vast area. Some other mountains suggested by those who have varied opinions are mentioned in

chapter 17. There is also the belief by some that Mount Ararat is a post-flood mountain. This rationale is pursued despite the many reports (more than 40) of an ark sighting on Mount Ararat. A question here given regarding the landing place of the ark may be: Was Mount Ararat in the Urartu Kingdom at the time Genesis was written? (You have read this book; you know my position on the position of

Mount Ararat when the ark landed and when Genesis was written). It certainly was in the Urartu Kingdom in the 9th century BC which later succeeded to the Armenians in the 6th century BC, but was Mount Ararat included in the "mountains of Ararat" (Gen. 8:4) when the book of Genesis was written? Moses is understood to have written the book of Genesis. Henrietta C. Mears

(chapter 9, foot note 13) says the book of Genesis closes about 300 years before Moses was born. Moses could have only received the information to write the book by a direct revelation from God, or by historical records. If historical records were involved, where did the records come from? She writes: "No doubt it was written long before by Abraham, Noah, or Enoch, who knows?" Dr.

Henry Morris agrees (also chapter 9, footnote 14) and adds that oral traditions handed down over the centuries may have been involved here too. God shared the records with Moses in whatever manner he chose to do so. The Word of God is truth. As far as Mt. Ararat being a post-flood mountain as some seem to believe, Dr. John Morris, Dr. Tim LaHaye and other scientists tell

us the mountain was pre-flood and grew to its greatest height with all the geological activity that took place during the flood (Chapter 9). Turkish geologist Dr. Bayraktutan has located what are believed to be “basement rocks” that give proof that Mount Ararat was pre-flood (“Who We Are” section). A question may be: What area did the Urartu Kingdom occupy long before Moses arrived on the

scene? Wherever the area was I am of the belief that Mount Ararat was included in that area that would be known as the “mountains of Ararat” at the time the ark landed on it. I have personally talked with at least 6 people who have seen, or have personal knowledge of the ark on Ararat. They are the Reverend Vince Will who saw it from an aircraft in WWII, Ed Davis who during WWII

was taken to see the ark by Kurds from his base in neighboring Iran, two 2 Kurdish shepherds who told me they saw part of a large structure, Dudley Thomas who held a top secret security clearance and saw satellite photographs and classified information in the "Science and technology Highlights" classified journal when in the navy, and Saim Sahin who was taken to the ark and was

able to touch it. Their stories are in chapters 5 and 17, as well as in "Who We Are" and the "Sketches and Photo Sections." A complete study of the Urartu Kingdom can be seen here: [https://www.noahsarksearch.com/Urartu\\_Ararat\\_Boundaries.pdf](https://www.noahsarksearch.com/Urartu_Ararat_Boundaries.pdf) *Like the Ark* Baptist Sunday School Board This is a new release of the original 1933 edition.
