Throughout her prodigious life, activist and lawyer Pauli Murray systematically fought against all arbitrary distinctions in society, channeling her outrage at the discrimination she faced to make America a more democratic country. In this definitive biography, Rosalind Rosenberg offers a poignant portrait of a figure who played pivotal roles in both the modern civil rights and women's movements. A mixed-race orphan, Murray grew up in segregated North Carolina before escaping to New York, where she attended Hunter College and became a labor activist in the 1930s. When she

applied to graduate school at the University of North Carolina, where her white great-great-grandfather had been a trustee, she was rejected because of her race. She went on to graduate first in her class at Howard Law School, only to be rejected for graduate study again at Harvard University this time on account of her sex. Undaunted, Murray forged a singular career in the law. In the 1950s, her legal scholarship helped Thurgood Marshall challenge segregation head-on in the landmark *Brown v. Board of Education* case. When appointed by Eleanor Roosevelt to the President's Commission on the Status of Women in 1962, she advanced the idea of Jane Crow, arguing that the same reasons used to condemn race discrimination could be used to battle gender discrimination. In 1965, she became the first African American to earn a JSD from Yale Law School and the following year persuaded Betty Friedan to found an NAACP for women, which became NOW. In the early 1970s, Murray provided Ruth Bader Ginsburg with the argument Ginsburg used to persuade the Supreme Court that the Fourteenth Amendment to the Constitution protects not only blacks but also women - and potentially other minority groups - from discrimination. By that time, Murray was a tenured history professor at Brandeis, a position she left to become the first black woman ordained a priest by the Episcopal Church in 1976. Murray accomplished all this while struggling with issues of identity. She believed from childhood she was male and tried unsuccessfully to persuade doctors to give her testosterone. While she would today be identified as transgender, during her lifetime no social movement existed to support this identity. She ultimately used her private feelings of being "in-between" to publicly contend that identities are not fixed, an idea that has powered campaigns for equal rights in the United States for the past half-century.

This definitive biography gives a brilliant account of the life and art of Robert Duncan (1919-1988), one of America's great postwar poets. Lisa Jarrot takes us from Duncan's birth in Oakland,

California, through his childhood in an eccentrically Theosophist household, to his life in San Francisco as an openly gay man who became an inspirational figure for the many poets and painters who gathered around him. Weaving together quotations from Duncan's notebooks and interviews with those who knew him, Jarnot vividly describes his life on the West Coast and in New York City and his encounters with luminaries such as Henry Miller, Anaïs Nin, Tennessee Williams, James Baldwin, Paul Goodman, Michael McClure, H.D., William Carlos Williams, Denise Levertov, Robert Creeley, and Charles Olson.

They are used in a variety of software products including Web browsers, interpreters in computer devices, and data compression programs; and they are used extensively in linguistics.

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Arapaho, a western Algonkian language, is still spoken on the Wind River Indian Reservation in Wyoming. Phonologically modern Arapaho looks very “un-Algonkian,” for it has undergone a rather startling number of sound changes. In this study Marc Picard attempts to use the phonological history of Arapaho as a vehicle to explore various possibilities for making accurate inferences about the chronological order of sound changes. His ultimate goal is to provide a methodology that can be applied successfully to other languages that, like Arapaho, have no recorded history.
