The historical background-This story is about the most cherished South Indian Pandya King who reigned during 8th century AD - 'Sri Maran Sri Vallabhan'( 815 AD to 862 AD) and he had accomplished many great victories which are cherished by history.The story line of this book narrates about the adventures performed by 'Sri Maran Sri Vallabhan' in Podhigai territory, before he became the ruler of Pandya Empire in Tamil Nadu,India.Readers who are aware about the historical fiction story 'Neel Vizhi' by eminent Tamil Novelist 'Sandilyan' would know about the great adventures performed by the South Indian Pandya King 'Jadila Parantaka Nedunchadaiya Pandiyan' during 775 AD. The valiant battles fought by this great king in 'Pennadagam' and his adventures are depicted gloriously in the story 'Neel Vizhi' by the author - Sandilyan. The story "Vijaya Nadhini" is about the South Indian Pandya king 'Sri Maran Sri Vallabhan' - who is the son of 'Jadila Parantaka Nedunchadaiya Pandiyan'.The characters 'Jadila Parantaka Nedunchadaiya Pandiyan' and his brave chief minister 'Maran Kari' are depicted in the story 'Neel Vizhi' by Sandilyan. The same characters will come in this story as key characters along with the lead character 'Sri Maran Sri Vallabhan'.The Pandya king 'Sri Maran Sri Vallabhan' is associated with the construction and renovation of Artha mandapa(' intermediary space between the temple exterior and the sanctum sanctorum') of the Sittanavasal cave temple - a place not known to many, but very few. The Sittanavasal cave paintings are the most delicate and beautiful evidence available to date for the unique fresco painting techniques used in ancient days. Sittanavasal is a small settlement in Pudukkottai district of Tamil Nadu in India. Similar to the famous Ajanta cave paintings, the paintings found in Sittanavasal cave are one of the very few remnants that exist today with the unique fresco paintings intact. The fresco paintings depicted in the ceiling of the Jain temple located inside this cave was painted by saint Ilangauthaman along with the support of the Pandiya King 'Sri Maran Sri Vallabhan'. He had done enormous amount of restructuring to the cave temple and created new paintings during the reign of Sri Maran Sri Vallabhan. Along with several other beautifull paintings, Saint Igangauthaman had also painted the king Sri Maran Sri Vallabhan along with his queen in one of the pillar in the cave temple.

In recent years, research on microelectronics has been specifically focused on the proposition of efficient alternative methodologies and materials to fabricate feasible integrated circuits. This book provides a general background of thin film transistors and their simulations and constructions. The contents of the book are broadly classified into two topics: design and simulation of FETs and construction of FETs. All the authors anticipate that the provided chapters will act as a single source of reference for the design, simulation and construction of FETs. This edited book will help microelectronics researchers with their endeavors and would be a great addition to the realm of semiconductor physics.

The expansion of the Cholas from their base in the Kaveri Delta saw this growing power subdue the kingdoms of southern India, as well as occupy Sri Lanka and the Maldives, by the early eleventh century. It was also during this period that the Cholas initiated links with Song China. Concurrently,

the Southeast Asian polity of Sriwijaya had, through its Sumatran and Malayan ports, come to occupy a key position in East-West maritime trade, requiring engagement with both Song China to the north and the Chola kingdom to its west. The apparently friendly relations pursued were, however, to be disrupted in 1025 by Chola naval expeditions against fourteen key port cities in Southeast Asia. This volume examines the background, course and effects of these expeditions, as well as the regional context of the events. It brings to light many aspects of this key period in Asian history. Unprecedented in the degree of detail assigned to the story of the Chola expeditions, this volume is also unique in that it includes translations of the contemporary Tamil and Sanskrit inscriptions relating to Southeast Asia and of the Song dynasty Chinese texts relating to the Chola Kingdom.

Metallurgy is a field of material science and engineering that studies the chemical and physical behavior of metallic elements, intermetallic compounds, and their mixtures, which are called alloys. These metals are widely used in this kind of engineering because they have unique combinations of mechanical properties (strength, toughness, and ductility) as well as special physical characteristics (thermal and electrical conductivity), which cannot be achieved with other materials. In addition to thousands of traditional alloys, many exciting new materials are under development for modern engineering applications. Metallurgical engineering is an area concerned extracting minerals from raw materials and developing, producing, and using mineral materials. It is based on the principles of science and engineering, and can be divided into mining processes, which are concerned with the extraction of metals from their ores to make refined alloys, and physical metallurgy, which includes the fabrication, alloying, heat treatment, joining and welding, corrosion protection, and different testing methods of metals. Conventional metal forming/shaping techniques include casting and forging, which remains an important processing route.

Electrodeposition is one of the most used methods for metal and metallic alloy film preparation in many technological processes. Alloy metal coatings offer a wider range of properties than those obtained by a single metal film and can be applied to improve the properties of the substrate/coating system. This book covers a wide range of topics related to recent advancements in metallurgical engineering and electrodeposition such as metallurgy forming, structure, microstructure properties, testing and characterizations, and electrodeposition techniques. It also highlights the progress of metallurgical engineering, the ferrous and non-ferrous materials industries, and the electrodeposition of nanomaterials and composites.

Because my questions made Amir uncomfortable, he pronounced talaq just like that on the wife who had abandoned everything for him because his religion gives him that privilege. Where do I now stand, sir? Do you have any solutions for me?' Lakshmi, a rebellious, free-spirited and intelligent film-maker, breaks ties with her staunchly Gandhi an father to marry Amir, the man she loves. She even agrees reluctantly to Amir's request that she convert to Islam, as a formality and

change her name to Razia. However, she is shocked to discover that her husband is not the open-minded, progressive individual he claimed to be. For after marriage, Amir takes his family's side in trying to force her to follow the more rigorous tenets of their faith. This sets her off on a personal journey into India's history to uncover the many layers of religion, caste and creed. Her quest leads her to the many parallels in the narratives between the past and the present and she gradually finds that though much has changed in Indian society over the centuries, much remains the same. The second historical novel by celebrated Kannada author S.L. Bhyrappa, translated for the first time into English by Sandeep Balakrishna, Aavarana: The Veil raises pertinent and searching questions about religion, liberalism and identity and highlights the importance of unshackling oneself from the bonds of false knowledge.

Indira Parthasarathy calls Krishna a metaphor that fulfils all the dark and lurking desires in our deep unconscious and represents the collective vision of the community as a whole. In his view Krishna cannot be judged by the moral yardstick set for others. Krishna's magical charm has always appealed to people of all generations. People from different lifestyles have interpreted his ideologies based on their values. He exists in the imagination of the Indian people as the fountainhead of eternal energy, pranks and wisdom. His godfather-like relationship with the Pandavas, his political strategies and his solutions to various problems continue to impress us even in the twenty-first century. Narada, the narrator of the novel, begins the story with Jara the hunter shooting an arrow at Krishna's feet in the aftermath of the Kurukshetra war. Narada's witticisms enhance the spirit of the story. He unfolds to us the life of Krishna as revealed to Jara by Krishna himself. The prank young Krishna played on the gopikas, his battle with various evil forces, his role in the lives of the Pandavas and the part he played in the Kurukshetra war all these form interesting episodes in Krishna's life. Indira Parthasarathy's Krishna is more than the lord's story as told in the Harivamsam, Sri Bhagavatam, Vishnu Purana and the Mahabharata. Here he is the hero, the central figure around whom things happen unlike the Krishna of the epics. The novel gives us the essence of the Krishnavatara, revealing the surpassing love and compassion with which Krishna blesses all living things. The tale is told in a contemporary idiom, sparkling with references to events

and personalities across aeons.
