STEWART MAY

From Drags to Riches Simon and Schuster

As the world well knows, on December the 8th of the year 1980, John Lennon was shot by a cowardly assassin. In the nearly 40 years since, so many of us continue to refuse to accept that this event had ever truly happened. This exciting new book offers its readers an alternate reality to the fate of John Lennon and The Beatles. While offering this alternate fate to the four members of the Beatles themselves, this book also brings back some other key figures that were lost to us in the turbulent period of the late 1960's. After John Lennon is shot, his body rests in a state of coma in a hospital room in New York City. It is then that his dearly departed mother Julia visits him and offers to him the opportunity to return to the year 1968. In spirit form, Lennon returns to that time, only to find it being much more pleasant than what he remembered. In Lennon's alternate vision of 1968, he and his bandmates are still in a state of total harmony and

commitment to both the music and to each other. Be with the Beatles as they decide to play the Woodstock Festival in 1969. Be with the Beatles as they travel to Nepal to meet with their friend The Dalai Lama. Be with the Beatles as they play at the second inauguration of President Robert F. Kennedy. Be with the Beatles as they headline the all star event known as, "The Concert for Life and Freedom", that takes place in New York's famed Central Park in 1973! This book is unlike any that you have ever read about The Beatles. Much of what is presented in this book is in harmony with what all of us have always wished for in our own personal fantasies concerning the fate of the Beatles as a band and the fate of John Lennon as an individual. Had the Beatles been just a group of guys who simply made music, we would not have cared about them as much as we still do. However, we all know the Beatles to have been voices for social change and for equality and for bringing the world together. They did make an indelible mark in their time period by expressing these principles of hope to the masses. However, what if they were shown a way to do so much more back then? More importantly, what if, in an alternate reality, the four Beatles had chosen to embrace their

opportunities to do so much more? This story tells what happened when the Beatles accepted their roles as ambassadors to the world. Written in a fast paced timeline manner, this story utilizes elements of adventure, new age philosophy and science fiction in order to rewrite the tale of John Lennon and the Beatles in the way that many of us had always wanted it to be. In that manner, this book stands as a loving tribute to not only John Lennon and the world that he personally imagined, but to a world that is still yet to fully reach its full potential. It is the author's sincere hope that this book will positively affect many souls throughout the world in a most profound way. It was written for that purpose. To some critically discerning readers, this book may come off as being overly optimistic and idealistic in its presentation. Perhaps, in this often cold and harsh world that we currently live in...what we all need now is a strong dose of idealistic optimism. When the author first conceived this book, more than 20 years ago, he wrote the last page first and awaited all the rest of the time to have the remaining parts of the story channeled into him. One thing is for certain...no reader will ever forget the last page of this book.

Medal of Honor Recipient John Chapman and the Untold Story of the World's Deadliest Special Operations Force Indiana University Press

In this gripping narrative, John Koehler details the widespread activities of East Germany's Ministry for State Security, or "Stasi." The Stasi, which infiltrated every walk of East German life, suppressed political opposition, and caused the imprisonment of hundreds of thousands of citizens, proved to be one of the most powerful secret police and espionage services in the world.

Koehler methodically reviews the Stasi's activities within East Germany and overseas, including its programs for internal repression, international espionage, terrorism and terrorist training, art theft, and special operations in Latin America and Africa. Koehler was both Berlin bureau chief of the Associated Press during the height of the Cold War and a U.S. Army Intelligence officer. His insider's account is based on primary sources, such as U.S. intelligence files, Stasi documents made available only to the author, and extensive interviews with victims of political oppression, former Stasi officers, and West German government officials. Drawing from these sources, Koehler recounts tales that rival the most outlandish Hollywood spy thriller and, at the same time, offers the definitive contribution to our understanding of this still largely unwritten aspect of the history of the Cold War and modern Germany.

This is the true love story of Joni and her husband of 30 years, Ken Tada. A love story showing what it truly means for a man and a woman to live in love ... in sickness and in health. Even the honeymoon wasn't easy. Did Ken realize what he was getting into when he proposed to Joni, a quadriplegic woman? As their marriage years moved on, Ken became increasingly overwhelmed by the never-ceasing demands of caring for Joni, who begins to experience chronic, extreme, nightmarish pain. Ken sinks into depression, and the couple finds themselves on parallel tracks in life, married and living under the same roof but drifting apart emotionally. But as they fight for their marriage and find their way through the mazes of depression and pain, they wrap their two lives around their rock—Jesus. During Ken's denial

of Joni's diagnosis, and Joni's thoughts of how wonderful a quick exit to heaven would be, they experience a personal visitation with the savior you will never forget.

The Untold Story of a Lifelong Friendship That Changed the Relationship Between Catholics and Jews Peachtree Publishers

Up from Nothing Beacon Press

An account of the late Beatle's last days discusses Lennon's relationship with Yoko Ono, Yoko's heroin use and extramarital affairs, Lennon's virtual self-imprisonment in the Dakota, his battles with Yoko, and more. Reprint.

Being John Lennon: A Restless Life Indiana University Press
Despite the nearly universal fame of the Beatles, many people only know the fairytale version of the iconic group's rise to fame. Drawing on his extensive knowledge of Liverpool, Francis Kenny reveals the real John Lennon who preceded the legend, showing how his childhood shaped his personality, creative process, and path to success, and how it also destroyed his mental health, leading to the downfall of one of the most confident and brilliant musicians of the past century. *The Making of John Lennon* is a must-read for any Beatles fan. It explains how Lennon's turbulent family background affected his relationships, why the true inspiration for "Strawberry Fields" could not be revealed, how Pete Best's college connection led to his removal from the group, and why class backgrounds were the real reason for the breakup of the legendary band. Offering a complex portrait of Lennon's early life, *The Making of John Lennon* tells the true story behind

the rise of the legendary icon.

The Hidden Pope Zondervan

An intimate yet unsparing biography of one of the greatest and most mythologized musicians of the twentieth century. What was it like to be John Lennon? What was it like to be the castoff child, the clown at school, and the middle-class suburban boy who pretended to be a working-class hero? How did it feel to have one of the most recognizable singing voices in the world, but to dislike it so much he always wanted to disguise it? *Being John Lennon* is not about the whitewashed Prince of Peace of Imagine legend—because that was only a small part of him. The John Lennon depicted in these pages is a much more kaleidoscopic figure, sometimes almost a collision of different characters. He was, of course, funny, often very funny. But above everything, he had attitude—his impudent style somehow personifying the aspirations of his generation to question authority. He could, and would, say the unsayable. Though there were more glamorous rock stars in rock history, even within the Beatles, it was John Lennon's attitude which caught, and then defined, his era in the most memorable way.

Monogamy Da Capo Press

AN INSTANT NEW YORK TIMES BESTSELLER The untold stories behind *The Office*, one of the most iconic television shows of the twenty-first century, told by its creators, writers, and actors When did you last hang out with Jim, Pam, Dwight, Michael, and the rest of Dunder Mifflin? It might have been back in 2013, when the series finale aired . . . or it might have been last night, when you watched three episodes in a row. But either way, long after the show first aired, it's more popular than ever, and fans have only

one problem—what to watch, or read, next. Fortunately, Rolling Stone writer Andy Greene has that answer. In his brand-new oral history, *The Office: The Untold Story of the Greatest Sitcom of the 2000s*, Greene will take readers behind the scenes of their favorite moments and characters. Greene gives us the true inside story behind the entire show, from its origins on the BBC through its impressive nine-season run in America, with in-depth research and exclusive interviews. Fans will get the inside scoop on key episodes from "The Dundies" to "Threat Level Midnight" and "Goodbye, Michael," including behind-the-scenes details like the battle to keep it on the air when NBC wanted to pull the plug after just six episodes and the failed attempt to bring in James Gandolfini as the new boss after Steve Carell left, spotlighting the incredible, genre-redefining show created by the family-like team, who together took a quirky British import with dicey prospects and turned it into a primetime giant with true historical and cultural significance. Hilarious, heartwarming, and revelatory, *The Office* gives fans and pop culture buffs a front-row seat to the phenomenal sequence of events that launched *The Office* into wild popularity, changing the face of television and how we all see our office lives for decades to come.

John Farnham is nothing less than an Aussie icon. In a career spanning almost five decades, the likeable, charismatic star has entertained countless Australians of every generation, selling millions of records along the way. But his extraordinary story is as much about tackling adversity as it is about topping the charts. In the mid-1980s, without a recording contract, more or less penniless, and seemingly destined to be remembered mainly

as the chirpy teenager whose debut single 'Sadie (The Cleaning Lady)' swept to number one back in 1967, Farnham had hit rock bottom. But courageously - and assisted by his great friend and manager Glenn Wheatley who mortgaged his house to finance an album - John stormed into the public consciousness again in 1986 with the epic 'You're The Voice' single and stunning LP *Whispering Jack*. His spectacular comeback complete, the fair-haired superstar has simply gone from strength to strength in the decades since. In this compelling biography, radio broadcaster and music journalist Jane Gazzo tracks down the key figures in John's life - from the 1960s to the present day - revealing Farnham as an inspirational Australian whose bubbly personality sometimes disguises his steely determination beneath the surface. Former teen idol, Australian of the Year, the man known across the nation as 'The Voice', John Farnham has earned his reputation as a genuine legend of the local entertainment industry.

The Women the Men We Loved Fell in Love With Routledge

Based on almost 200 previously unpublished letters and extensive interviews with their closest associates, Walker's biography of Margaret Mitchell and her husband, John Marsh, offers a new look into a devoted marriage and fascinating partnership that ultimately created a Pulitzer Prize-winning novel. This edition of Walker's biography celebrates the seventy-fifth anniversary of the publication of *Gone With the Wind* in 1936. In lively extracts from their letters to family and friends, John and Margaret, who also went by Peggy, describe the stormy years of their courtship, their bohemian lifestyle as a young married couple, the arduous but fulfilling years when Peggy was writing

her famous novel, the thrill of its acceptance for publication and its literary success, and the excitement of the making of the movie. In telling the private side of this twenty-four-year marriage, author Marianne Walker reveals a long-suspected truth: *Gone With the Wind* might have never been written were it not for John Marsh. He was Peggy's best friend and constant champion, and he became her editor, proofreader, researcher, business manager, and the inspiration and motivation behind her writing. At every point, including the turbulent years of Mitchell's first marriage to Red Upshaw, it was John who provided the intellectual stimulation, emotional support, and editorial insights that allowed Peggy to channel her talents into the creation of her astounding Civil War epic. From years of meticulous research, Marianne Walker details the intimate and moving love story between a husband and wife, and between a writer and her editor.

A Pope and a President Loving John

The Untold Story ABC-CLIO

From a PEN/Hemingway Award-winning author: The true story of Pope John Paul II, his Jewish childhood friend, and a milestone in religious history. In October 1978, Karol Wojtyla, Polish Archbishop of Krakow, became Pope John Paul II, the first non-Italian pontiff in 455 years. He had a mission to improve the Catholic Church's relations with Judaism, Islam, and the Anglican Communion. Only days after the election, he granted Jerzy Kluger, a virtually unknown Jewish businessman, the privilege of first audience at the Vatican. Jerzy was overwhelmed, but not surprised. When they were children, Karol and Jerzy were best

friends, known then as Lolek and Jurek. For the pope, this union of Catholic and Jewish faiths was a profound symbol of things to come. It was also a personal gesture that reflected a remarkable bond between the two men. *The Hidden Pope* is the story of that relationship, from their simple boyhood in the small town of Wadowice in southern Poland to their separation at the beginning of World War II and their survival under Nazi occupation and Soviet tyranny. The reunion almost thirty years later—after Jerzy lost his family in the Holocaust and spent years in Stalinist labor camps—would not only deepen a friendship, but also afford Jerzy a unique perspective on papal intrigue and policies when he was eventually appointed diplomat between the Vatican and Israel. Set against the landmark events of the twentieth century, and the monumental reconciliation between Christianity and Judaism, this singular portrait of John Paul II reveals him as only one of his closest friends can. Readers will come to know the Holy Father as a man, to understand his controversial ideas as expressions of his life experiences, and to discover the genesis of an enduring friendship that would impact the world. *The Hidden Pope* is “a fascinating personal tale played out against the great moments of modern European history. . . . Anyone intrigued by the often surprising confluences of history, politics and religion will relish this impressive study in faith, friendship and mutual respect” (Publishers Weekly).

Penguin

Pang, John Lennon's girlfriend from 1973 to 1975, presents these never-before-seen images of the music icon. She has written rich captions to accompany her photos—taken together, they tell a simple story of the time she and Lennon spent together.

Loving John Createspace Independent Publishing Platform
Winner of the 2021 Duke University Juan Mendez Award Named one of The Progressive's "Favorite Books of 2021" and one of the "Best of Books 2021" by Foreign Affairs The David and Goliath story of ordinary people in El Salvador who rallied together with international allies to prevent a global mining corporation from poisoning the country's main water source At a time when countless communities are resisting powerful corporations—from Flint, Michigan, to the Standing Rock Reservation, to Didipio in the Philippines, to the Gualcarque River in Honduras—The Water Defenders tells the inspirational story of a community that took on an international mining corporation at seemingly insurmountable odds and won not one but two historic victories. In the early 2000s, many people in El Salvador were at first excited by the prospect of jobs, progress, and prosperity that the Pacific Rim mining company promised. However, farmer Vidalina Morales, brothers Marcelo and Miguel Rivera, and others soon

discovered that the river system supplying water to the majority of Salvadorans was in danger of catastrophic contamination. With a group of unlikely allies, local and global, they committed to stop the corporation and the destruction of their home. Based on over a decade of research and their own role as international allies of the community groups in El Salvador, Robin Broad and John Cavanagh unspool this untold story—a tale replete with corporate greed, a transnational lawsuit at a secretive World Bank tribunal in Washington, violent threats, murders, and—surprisingly—victory. The husband-and-wife duo immerses the reader in the lives of the Salvadoran villagers, the journeys of the local activists who sought the truth about the effects of gold mining on the environment, and the behind-the-scenes maneuverings of the corporate mining executives and their lawyers. The Water Defenders demands that we examine our assumptions about progress and prosperity, while providing valuable lessons for those fighting against destructive corporations in the United States and across the world.

Jack and Lem Oxford University Press

Robert Hilburn's storied career as a rock critic has allowed him a behind-the-scenes look at the lives of some of the most iconic figures of our time. He was the only music critic to visit Folsom Prison with Johnny Cash. He met John Lennon during his lost weekend period in Los Angeles and they became friends. Bob Dylan granted him his only interviews during his "born-again" period and the occasion of his 50th birthday. Michael Jackson invited Hilburn to watch cartoons with him in his bedroom. When Springsteen took to playing only old hits, Hilburn scolded him for turning his legendary concerts into oldies revues, and

Springsteen changed his set list. In this totally unique account of the symbiotic relationship between critic and musical artist, Hilburn reflects on the ways in which he has changed and been changed by the subjects he's covered; Bono weighs in with an introduction about how Hilburn's criticism influenced and altered his own development as a musician. Corn Flakes with John Lennon is more than about one man's adventures in rock and roll: It's the gripping and untold story of how popular music reshapes the way we think about the world and helps to define the modern American character.

How Ordinary People Saved a Country from Corporate Greed

Grand Central Publishing

A Singular Bond That Changed History Even as historians credit Ronald Reagan and Pope John Paul II with hastening the end of the Cold War, they have failed to recognize the depth or significance of the bond that developed between the two leaders. Acclaimed scholar and bestselling author Paul Kengor changes that. In this fascinating book, he reveals a singular bond—which included a spiritual connection between the Catholic pope and the Protestant president—that drove the two men to confront what they knew to be the great evil of the twentieth century: Soviet communism. Reagan and John Paul II almost didn't have the opportunity to forge this relationship: just six weeks apart in the spring of 1981, they took bullets from would-be assassins. But their strikingly similar near-death experiences brought them close together—to Moscow's dismay. A Pope and a President is the product of years of research. Based on Kengor's tireless archival digging and his unique access to Reagan insiders, the book reveals: The inside story on the 1982 meeting where the

president and the pope confided their conviction that God had spared their lives for the purpose of defeating communism Captivating new information on the attempt on John Paul II's life, including a previously unreported secret CIA investigation—was Moscow behind the plot? The many similarities and the spiritual bond between the pope and the president—and how Reagan privately spoke of the "DP": the Divine Plan to take down communism New details about how the Protestant Reagan became intensely interested in the "secrets of Fátima," which date to the reported apparitions of the Virgin Mary at Fátima, Portugal, starting on May 13, 1917—sixty-four years to the day before John Paul II was shot A startling insider account of how the USSR may have been set to invade the pope's native Poland in March 1981—only to pull back when news broke that Reagan had been shot Nancy Reagan called John Paul II her husband's "closest friend"; Reagan himself told Polish visitors that the pope was his "best friend." When you read this book, you will understand why. As kindred spirits, Ronald Reagan and John Paul II united in pursuit of a supreme objective—and in doing so they changed history.

endangered and her strongest loyalties under threat, she will have to trace his past across multiple worlds and into the depths of mythology and folklore, to find the truth and uncover why the Library was first created"--

The Untold Story of Queen Dell Publishing Company

A lifetime of letters, collected for the first time, from the legendary musician and songwriter. John Lennon was one of the greatest songwriters the world has ever known, creator of "Help!", "Come Together", "Lucy in the Sky with Diamonds", "Strawberry Fields Forever", "Imagine", and dozens more. But it was in his correspondences that he let his personality and poetry flow unguarded. Now, gathered for the first time in book form, are his letters to family, friends, strangers, and lovers from every point in his life. Funny, informative, wise, poetic, and sometimes heartbreaking, his letters illuminate a never-before-seen intimate side of the private genius. This groundbreaking collection of almost 300 letters and postcards has been edited and annotated by Hunter Davies, whose authorized biography *The Beatles* (1968) was published to great acclaim. With unparalleled knowledge of Lennon and his contemporaries, Davies reads between the lines of the artist's words, contextualizing them in Lennon's life and using them to reveal the man himself.

Is This the Real Life? Open Road Media

From the senior counsel to the 9/11 Commission, a mesmerizing

real-time portrayal of that day, why we weren't told the truth, and why our nation is still at risk. As one of the primary authors of the 9/11 Commission Report, John Farmer is proud of his and his colleagues' work. Yet he came away from the experience convinced that there was a further story to be told, one he was uniquely qualified to write. Now that story can be told. Tape recordings, transcripts, and contemporaneous records that had been classified have since been declassified, and the inspector general's investigations of government conduct have been completed. Drawing on his knowledge of those sources, as well as his years as an attorney in public and private practice, Farmer reconstructs the truth of what happened on that fateful day and the disastrous circumstances that allowed it: the institutionalized disconnect between what those on the ground knew and what those in power did. He details "terrifyingly and illuminatingly" the key moments in the years, months, weeks, and days that preceded the attacks, then descends almost in real time through the attacks themselves, portraying them as they have never before been seen. Ultimately, Farmer builds the inescapably convincing case that the official version not only is almost entirely untrue but serves to create a false impression of order and security. The ground truth that Farmer captures suggests a very different scenario—one that is doomed to be repeated unless the systemic failures he reveals are confronted and remedied.
