 A Kyrgyz cemetery seen from a distance is
 astonishing. The ornate domes and
 minarets, tightly clustered behind stone

walls, seem at odds with this desolate mountain region. Islam, the prominent religion in the region since the twelfth century, discourages tombstones or decorative markers. However, elaborate Kyrgyz tombs combine earlier nomadic customs with Muslim architectural forms. After the territory was formally incorporated into the Russian Empire in 1876, enamel portraits for the deceased were attached to the Muslim monuments. Yet everything within the walls is overgrown with weeds, for it is not Kyrgyz tradition for the living to frequent the graves of the dead. Architecturally unique, Kyrgyzstan's dramatically sited cemeteries reveal the complex nature of the Kyrgyz people's religious and cultural identities. Often said to have left behind few permanent monuments or books, the Kyrgyz people in fact left behind a magnificent legacy when they buried their dead. Traveling in Kyrgyzstan, photographer Margaret Morton became captivated by the otherworldly grandeur of these cemeteries. *Cities of the Dead: The Ancestral Cemeteries of Kyrgyzstan* collects the photographs she made on several visits to the area and is an

important contribution to the architectural and cultural record of this region. Watch the book trailer:

 “Boelts lays out Ruben’s ethical dilemma and emotional turmoil without preaching, and his struggle toward the moral choice . . . is both dramatic and genuine.” — Publishers Weekly (starred review) Ruben feels like he is the only kid without a bike. His friend Sergio reminds him that his birthday is coming, but Ruben knows his family can’t afford that. So when Ruben sees a dollar bill fall out of someone’s purse, he picks it up and puts it in his pocket. But when he gets home, he discovers it’s not one dollar or even five or ten — it’s a hundred-dollar bill, more than enough for a new bike just like Sergio’s! Finders keepers, right? Presenting a relatable story with subtlety and heart, the creative team behind *Those Shoes* pairs up again for a story about how hard it can be to do the right thing.

One of the most influential civilizations in antiquity was that of the Iranian world. The

disparate peoples of ancient Iran were remarkable in that their imperial histories proved to be of enduring significance not only for the region from the Oxus to the Euphrates, but also for the Eurasian sphere, and briefly even for that of north Africa. Iran is often encountered through the prism of the classical and biblical worlds, where Cyrus and Darius the Great loom large as rulers of many lands and peoples. However, as Touraj Daryaee shows, neither these great kings, nor Xerxes' military expeditions to Greece, nor Sasanian encounters with the Romans centuries later, are the sum total of ancient Iran. Rather than focusing on the traditional Persian triple empires - Achaemenids, Arsacids/Parthians, and Sasanians (550 BCE-330 CE) - the author explores the much larger expanse of tribes and traditions that culminated in the formation of these great empires of antiquity. The result is a survey that fully reveals ancient Iran to student and non-specialist alike.

New York Times • Times Critics Top Books of 2021 The Times (of London) • Best Books of the Year Excerpted in The New Yorker Profiled in The Los Angeles Times Publishing for the centenary of her birth, Patricia Highsmith's diaries "offer the most complete picture ever published" of the canonical author (New York Times). Relegated to the genre of mystery during her lifetime, Patricia Highsmith is now recognized as one of "our greatest modernist writers" (Gore Vidal). Beloved by fans who were unaware of the real psychological turmoil behind her prose, the famously secretive Highsmith refused to authorize a biography, instead sequestering herself in her Switzerland home in her final years. Posthumously, her devoted editor Anna von Planta discovered her diaries and notebooks in 1995, tucked in a closet—with tantalizing instructions to be read. For years thereafter, von Planta meticulously culled from over eight thousand pages to help reveal the inscrutable figure behind the legendary

pen. Beginning with her junior year at Barnard in 1941, Highsmith ritualistically kept a diary and notebook—the former to catalog her day, the latter to brainstorm stories and hone her craft. This volume weaves diary and notebook simultaneously, exhibiting precisely how Highsmith's personal affairs seeped into her fiction—and the sheer darkness of her own imagination. Charming yet teetering on the egotistical, young "Pat" lays bare her dizzying social life in 1940s Greenwich Village, barhopping with Judy Holliday and Jane Bowles, among others. Alongside Flannery O'Connor and Chester Himes, she attended—at the recommendation of Truman Capote—the Yaddo artist colony in 1948, where she drafted *Strangers on a Train*. Published in 1950 and soon adapted by Alfred Hitchcock, this debut novel brought recognition and brief financial security, but left a heartsick Highsmith agonizing: "What is the life I choose?" Providing extraordinary insights into gender and sexuality in mid-twentieth-century America, Highsmith's diaries convey her euphoria writing *The Price of Salt* (1951). Yet her sophomore novel would have to be published under a

pseudonym, so as not to tarnish her reputation. Indeed, no one could anticipate commercial reception for a novel depicting love between two women in the McCarthy era. Seeking relief from America, Highsmith catalogs her peripatetic years in Europe, subsisting on cigarettes and growing more bigoted and satirical with age. After a stay in Positano with a new lover, she reflects in her notebooks on being an expat, and gleefully conjures the unforgettable The Talented Mr. Ripley (1955); it would be this sociopathic antihero who would finally solidify her true fame. At once lovable, detestable, and mesmerizing, Highsmith put her turbulent life to paper for five decades, acutely aware there must be "a few usable things in literature." A memoir as significant in our own century as Sylvia Plath's journals and Simone de Beauvoir's writings were to another time, Patricia Highsmith: Her Diaries and Notebooks is an historic work that chronicles a woman's rise against the conventional tide to unparalleled literary prominence.

The Six Dynasties, also known as the "Dark Age" of Chinese history, was a period of political disunity and conflict but also one of important developments in the arts, religion, and culture. This comprehensive and extensively illustrated book covers the material culture of the Six Dynasties, A.D. 220 to 589. Albert E. Dien, a foremost expert on the period, draws on the archaeological findings of mainland China journals as well as historical and

literary sources to clarify and interpret the database of over 1,800 tombs developed for this volume. During the Six Dynasties, the influences of non-Chinese nomads, the flourishing of Buddhism, and increasing numbers of foreign merchants in the capitals brought about widespread change. The book explores what the archaeological artifacts reveal about this era of innovation and experimentation between the Han and Tang dynasties.

Mechanism design is an analytical framework for thinking clearly and carefully about what exactly a given institution can achieve when the information necessary to make decisions is dispersed and privately held. This analysis provides an account of the underlying mathematics of mechanism design based on linear programming. Three advantages characterize the approach. The first is simplicity: arguments based on linear programming are both elementary and transparent. The second is unity: the machinery of linear programming provides a way to unify results from disparate areas of mechanism design. The third is reach: the technique

offers the ability to solve problems that appear to be beyond solutions offered by traditional methods. No claim is made that the approach advocated should supplant traditional mathematical machinery. Rather, the approach represents an addition to the tools of the economic theorist who proposes to understand economic phenomena through the lens of mechanism design.

The beloved New York Times bestselling author reflects on home, family, friendships and writing in this deeply personal collection of essays. "The elegance of Patchett's prose is seductive and inviting: with Patchett as a guide, readers will really get to grips with the power of struggles, failures, and triumphs alike." —*Publisher's Weekly* "Any story that starts will also end." As a writer, Ann Patchett knows what the outcome of her fiction will be. Life, however, often takes turns we do not see coming. Patchett ponders this truth in these wise essays that afford a fresh and intimate look into her mind and heart. At the center of *These Precious Days* is the title essay, a

surprising and moving meditation on an unexpected friendship that explores "what it means to be seen, to find someone with whom you can be your best and most complete self." When Patchett chose an early galley of actor and producer Tom Hanks' short story collection to read one night before bed, she had no idea that this single choice would be life changing. It would introduce her to a remarkable woman—Tom's brilliant assistant Sooki—with whom she would form a profound bond that held monumental consequences for them both. A literary alchemist, Patchett plumbs the depths of her experiences to create gold: engaging and moving pieces that are both self-portrait and landscape, each vibrant with emotion and rich in insight. Turning her writer's eye on her own experiences, she transforms the private into the universal, providing us all a way to look at our own worlds anew, and reminds how fleeting and enigmatic life can be. From the enchantments of Kate DiCamillo's children's books (author of *The Beatryce Prophecy*) to youthful memories of Paris; the cherished life gifts given by her three fathers to the unexpected influence of

Charles Schultz's Snoopy; the expansive vision of Eudora Welty to the importance of knitting, Patchett connects life and art as she illuminates what matters most. Infused with the author's grace, wit, and warmth, the pieces in *These Precious Days* resonate deep in the soul, leaving an indelible mark—and demonstrate why Ann Patchett is one of the most celebrated writers of our time.

INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous

observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by

curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Zero Days, Thousands of Nights

Sergei Ivanovich Rudenko was a prominent Russian/Soviet anthropologist and archaeologist who discovered and excavated the most celebrated of Scythian burials, Pazyryk in Siberia. During the excavation of Pazyryk tombs, he discovered the world's most spectacular tattooed mummy said to belong to the Pazyryk Culture which flourished between the 7th and 3rd centuries BC. Herodotus and other ancient writers referred to the Altay as "the golden mountain". It was there that the impregnable citadel of the Scythians (or Sacae) lay hidden for centuries. Rudenko, however, was cautious enough not to assign his findings

to the Scythians. He attributed the kurgan finds to the formidable Iron Age horsemen and warriors, whom he dubbed the "Pazyryks." Although they left no written records, Pazyryk artifacts are distinguished by a sophisticated level of artistry and craftsmanship. The Pazyryk tombs discovered by Rudenko were in an almost perfect state of preservation. They contained skeletons and intact bodies of

horses and embalmed humans, together with a wealth of artifacts including saddles, riding gear, a chariot, rugs, clothing, jewelry, musical instruments, amulets, tools, and an "apparatus for inhaling hemp smoke." Also found in the tombs were fabrics from Persia and China, which the Pazyryks must have obtained on journeys covering thousands of miles.
