Beyond Flesh and Blood: The Ultimate Guide To Angels and Demons goes far beyond the average Sunday School teaching on spiritual warfare. Minister Fortson takes an in depth look at the origin of both angels and demons, and attempts to answer the tough questions on the minds of many Christians. 1) When were angels created? 2) When did Lucifer rebel against God? 3) Where do angels fit into human history? 4) Are fallen angels and demons the same thing? 5) Were the gods of mythology really fallen angels? 6) What do angels have to do with modern UFO sightings? 7) Is our current scientific pursuit of transhumanism a spiritual issue? These questions are just the beginning of the journey. As the book progresses, Minister Fortson tackles many other areas of the supernatural, such as the origin of ghosts, vampires, and our modern obsession with UFOs and aliens. You will also discover what our modern pursuit of creating hybrids has in common with various ancient mythologies from around the world, and the possible origin of these pursuits. Throughout the book, Minister Fortson explores historical text from many different cultures and belief systems in order to find out if the Hebrews were the only culture to encounter both angels and demons. The Bible tells us that our war is not with flesh and blood, but what does that statement really mean? Is the spiritual war crossing over into the physical realm? One thing is for sure, after you read this book, you will never look at the world we live in the same again.

In this "raucous, moving, and necessary" (San Francisco Chronicle) story by a Pulitzer Prize finalist, the De La Cruzes, a family on the Mexican-American border, celebrate two of their most beloved relatives during a joyous and bittersweet weekend. National Bestseller and National Book Critics Circle Award finalist A New York Times Notable Book / One of the Best Books of the Year from National Public Radio, American Library Association, San Francisco Chronicle, BookPage, Newsday, BuzzFeed, Kirkus Reviews, St. Louis Post-Dispatch, Literary Hub "All we do, mija, is love. Love is the answer. Nothing stops it. Not borders. Not death." In his final days, beloved and ailing patriarch Miguel Angel de La Cruz, affectionately called Big Angel, has summoned his entire clan for one last legendary birthday party. But as the party approaches, his mother, nearly one hundred, dies, transforming the weekend into a farewell doubleheader. Among the guests is Big Angel's half brother, known as Little Angel, who must reckon with the truth that although he shares a father with his siblings, he has not, as a half gringo, shared a life. Across two bittersweet days in their San Diego neighborhood, the revelers mingle among the palm trees and cacti, celebrating the lives of Big Angel and his mother, and recounting the many inspiring tales that have passed into family lore, the acts both ordinary and heroic that brought these citizens to a fraught and sublime country and allowed them to flourish in the land they have come to call home. Teeming with brilliance and humor, authentic at every turn, *The House of Broken Angels* is Luis Alberto Urrea at his best, and cements his reputation as a storyteller of the first rank. "Epic . . . What is Information Governance? Information governance is using the business strategy to apply objectivity, economics, and efficiencies of scale to the processes necessary for the management of information in the achievement of business success. The point of Information or Data Governance is to create TRUSTED data for the business. But how is that actually done? This book is for the individual who is looking for a starting place for establishing a path to better information for their business through a data governance program. The book focuses on describing deliverables and techniques necessary to quantify and measure the Trust of information, including creating dashboards to monitor the success of the Information Management and Governance (IMG) Program as well as an overall Trust Dashboard for the enterprise. If you are trying to answer any of the following questions, then this book can help you out: How do we decrease the number of data silos? How much management and governance is needed for the data? Who owns the data? How do we get the business to trust the data? What measurements can I use to prove the data is good? What do I show executives to illustrate the progress of a data governance program? How can trust of business data be quantified? How is the relevance of data to the business determined? What is the appropriate level of management and governance necessary for the data? This book will help you answer these questions and start improving (and measuring the improvement) of data for your business. My father's suspicious death, perhaps at the hands of a small town sheriff's department, forced my mother to flee our hometown--Idamay, West Virginia--a few days after he died in 1954. She was told that he'd hung himself in a jail cell in Fairmont, West Virginia, where he was being held for driving while intoxicated. She was afraid they would do something to her and leave us kids orphaned. Though we left Idamay, that town and our devastating loss followed us. My father's absence, though seldom spoken about, was "present" everywhere we turned. My mother never looked back. But when she died forty-two years later, his death came back to me in full force. I felt compelled to investigate further. I'd heard conflicting stories all my life. This book documents an investigation that yields more questions than answers for the seven-year-old survivor who has an insatiable

need to know. This book is about this seven-year-old whose entire life was indelibly marked by this tragic loss that she experienced when she had just reached what is often called the age of reason. Her quest for the truth takes her to places she'd never dreamed she could go. Because there is so much she doesn't know, she finds herself leaning heavily on her imagination to help her to navigate this mysterious and fatherless world.
