Most people know Roald Dahl as a famous write of children’s books and adult short stories, but few are aware of his fascination with medicine. Right from his earliest days to the end of his life, Dahl was intrigued by what doctors do, and why they do it. During his lifetime, he and his family suffered some terrible medical tragedies: Dahl nearly died when his fighter plane went down in World War II; his son had severe brain injury in an accident; and his daughter died of measles infection of the brain. But he also had some medical triumphs: he dragged himself back to health after the plane crash, despite a skull fracture, back injuries, and blindness; he was responsible for inventing a medical device (the Wade-Dahl-Till valve) to treat his son's hydrocephalus (water on the brain), and he taught his first wife Patricia to talk again after a devastating stroke. His medical interactions clearly influenced some of his writing – for example the explosive potions in George’s Marvellous Medicine. And sometimes his writing impacted on events in his life – for example the research on neuroanatomy he did for his short story William and Mary later helped him design the valve for treating hydrocephalus. In this unique book, Professor Tom Solomon, who looked after Dahl towards the end of his life, examines Dahl’s fascination with medicine. Taking examples from Dahl’s life, and illustrated with excerpts from his writing, the book uses Dahl’s medical interactions as a starting point to explore some extraordinary areas of medical science. Solomon is an award-winning science communicator, and he effortlessly explains the medical concepts underpinning the stories, in language that everyone can understand. The book is also peppered with anecdotes from Dahl’s late night hospital discussions with Solomon, which give new insights into this remarkable man’s thinking as his life came to an end.

Deep in the heart of Australia’s high country, along an ancient, hidden track, lives Molly Johnson and her four surviving children, another on the way. Husband Joe is away months at a time droving livestock up north, leaving his family in the bush to fend for itself. Molly’s children are her world, and life is hard and precarious with only their dog, Alligator, and a shotgun for protection – but it can be harder when Joe’s around. At just twelve years of age Molly’s eldest son Danny is the true man of the house, determined to see his mother and siblings safe – from raging floodwaters, hunger and intruders, man and reptile. Danny is mature beyond his years, but there are some things no child should see. He knows more than most just what it takes to be a drover’s wife. One night under the moon’s watch, Molly has a visitor of a different kind – a black ‘story keeper’, Yadaka. He’s on the run from authorities in the nearby town, and exchanges kindness for shelter. Both know that justice in this nation caught between two worlds can be as brutal as its landscape. But in their short time together, Yadaka shows Molly a secret truth, and the strength to imagine a different path. Full of fury and power, Leah Purcell’s The Drover’s Wife: The Legend of Molly Johnson is a brave reimagining of the Henry Lawson short story that has become an Australian classic. Brilliantly plotted, it is a compelling thriller of our pioneering past that confronts head-on issues of today: race, gender, violence and inheritance.

From the author of Make Your Home Among Strangers, essays on being an “accidental” American—an incisive look at the edges of identity for a woman of color in a society centered on whiteness In this sharp and candid collection of essays, critically acclaimed writer and first-generation American Jennine Capó Crucet explores the condition of finding herself a stranger in the country where she was born. Raised in Miami and the daughter of Cuban refugees, Crucet examines the political and personal contours of American identity and the physical places where those contours find themselves smashed: be it a rodeo town in Nebraska, a university campus in upstate New York, or Disney World in Florida. Crucet illuminates how she came to see her exclusion from aspects of the theoretical American Dream, despite her family’s attempts to fit in with white American culture—beginning with their ill-fated plan to name her after the winner of the Miss America pageant. In prose that is both fearless and slyly humorous, My Time Among the Whites examines the sometimes hopeful, sometimes deeply flawed ways in which many Americans have learned to adapt, exist, and—in the face of all signals saying otherwise—perhaps even thrive in a country that never imagined them here.

The persecution of Old World German Protestants and Anabaptists in the seventeenth century--following debilitating wars, the Reformation, and the Inquisition-- brought about significant immigration to America. Many of the immigrants, and their progeny, settled in the Appalachian frontier. Here they established a particularly old set of religious beliefs and traditions based on a strong sense of folk spirituality. They practiced astrology, numerology, and other aspects of esoteric thinking and left a legacy that may still be found in Appalachian folklore today. Based in part on the author's extensive collection of oral histories from the remote highlands of West Virginia, Signs, Cures, and Witchery; German Appalachian Folklore describes these various occult practices, symbols, and beliefs; how they evolved within New World religious contexts; how they arrived on the Appalachian frontier; and the prospects of those beliefs continuing in the contemporary world. By concentrating on these inheritances, Gerald C. Milnes draws a larger picture of the German influence on Appalachia. Much has been written about the Anglo-Celtic, Scots-Irish, and English folkways of the Appalachian people, but few studies have addressed their German cultural attributes and sensibilities. Signs, Cures, and Witchery sheds startling light on folk influences from Germany, making it a volume of tremendous value to Appalachian scholars, folklorists, and readers with an interest in Appalachian folklife and German American studies.

While debating literature's greatest heroines with her best friend, thirtysomething playwright Samantha Ellis has a revelation—her whole life, she's been trying to be Cathy Earnshaw of *Wuthering Heights* when she should have been trying to be Jane Eyre. With this discovery, she embarks on a retrospective look at the literary ladies—the characters and the writers—whom she has loved since childhood. From early obsessions with the March sisters to her later idolization of Sylvia Plath, Ellis evaluates how her heroines stack up today. And, just as she excavates the stories of her favorite characters, Ellis also shares a frank, often humorous account of her own life growing up in a tight-knit Iraqi Jewish community in London. Here a life-long reader explores how heroines shape all our lives.
