To the everlasting power of love . . . When Deb, an author and publisher, survives the bomb blasts at Chandni Chowk, he knows his life is nothing short of a miracle. And though he escapes with minor injuries, he is haunted by the images and voices that he heard on that unfortunate day. Even as he recovers, his feet take him to where the blasts took place. From the burnt remains he discovers a diary. It seems to belong to a dead man who was deeply in love with a girl. As he reads the heartbreaking narrative, he knows that this story must never be left incomplete. Thus begins Deb's journey with his girlfriend, Avantika, and his best friend, Shrey, to hand over the diary to the man's beloved. Highly engrossing and powerfully told, *If It's Not Forever* . . . tells an unforgettable tale of love and life.

**Mathematics for the International Student: Worked solutions** Crown

The H-function or popularly known in the literature as Fox's H-function has recently found applications in a large variety of problems connected with reaction, diffusion, reaction-diffusion, engineering and communication, fractional differential and integral equations, many areas of theoretical physics, statistical distribution theory, etc. One of the standard books and most cited book on the topic is the 1978 book of Mathai and Saxena. Since then, the subject has grown a lot, mainly in the elds of applications. Due to popular demand, the authors were requested to - grade and bring out a revised edition of the 1978 book. It was decided to bring out a new book, mostly dealing with recent applications in statistical distributions, pa- way models, nonextensive statistical mechanics, astrophysics problems, fractional calculus, etc. and to make use of the expertise of Hans J. Haubold in astrophysics area also. It was decided to con ne the discussion to H-function of one scalar variable only. Matrix variable cases and many variable cases are not discussed in detail, but an insight into these areas is given. When going from one variable to many variables, there is nothing called a unique bivariate or multivariate analogue of a given function. Whatever be the criteria used, there may be many different functions qualified to be bivariate or multivariate analogues of a given univariate function. Some of the bivariate and multivariate H-functions, currently in the literature, are also questioned by many authors.

Sometimes, love is just an illusion. Sometimes, it becomes the sole purpose of your life. While stories on social media were trending, Raghu was lost in books. For him, even the idea of falling in love was limited to books-until he met Ruhi. As their love plays out against the backdrop of the upcoming student elections, Raghu finds himself embroiled in a mess he cannot seem to get out of. When his closest friends hatch a plan to rescue him, it only puts him in further jeopardy. Will his love sail through or will it get swept away by the storm of campus politics? Set in this elaborate sociopolitical milieu, Sudeep's new book explores the dark side of relationships, the pursuit of power and the hypocrisy of the powerful.

Now in its eighth edition, Higher Engineering Mathematics has helped thousands of students succeed in their exams. Theory is kept to a minimum, with the emphasis firmly placed on problem-solving skills, making this a thoroughly practical introduction to the advanced engineering mathematics that students need to master. The extensive and thorough topic coverage makes this an ideal text for upper-level vocational courses and for undergraduate degree courses. It is also supported by a fully updated companion website with resources for both students and lecturers. It has full solutions to all 2,000 further questions contained in the 277 practice exercises.

*Pregnant With Justice* Arihant Publications India limited

Here is a highly motivating book for grade-school students that will introduce them to many of the world's most popular (and historically significant) scientific experiments. They'll learn about gravity simply by following the acrobatic antics of an ordinary coin. By trying to blow an egg out of a cup, they'll discover the principles of air pressure. Dancing soap bubbles will help them understand the effects of static electricity, and by dropping quarters into a full glass of water without causing it to overflow, they'll study the effects of surface tension. These and over 40 other experiments have been carefully selected by noted educators Eugene and Asterie Baker Provenzo to familiarize children with classic science experiments involving optics, inertia, air pressure, magnetism, sound, topology, light, density, vibration, prisms, elasticity, gases, vacuum, perspective, geometry, centrifugal force, buoyancy, color, and much more. Some experiments, such as the optical "Newton's Rings" are hundreds of years old. Still others, like the straw lever test, are based on Greek experiments with leverage and the center of gravity — first carried out thousands of years ago. Easy-to-follow instructions and illustrations show youngsters how to perform each experiment, most of which are prefaced with historical background, a list of necessary materials and an explanation of key terms. Almost all experiments can be carried out with common household items (tissue paper, scissors, tapes, rubber balloons, pens, pencils, etc.) and can be worked at home or in the classroom to demonstrate specific scientific principles or to supplement a science-curriculum unit. Sources for all historical illustrations given in the text are listed at the end of the book.

**DSSSB** Penguin UK

1. The book is prepared for the SSC Constable (GD) recruitment exam 2. It is divided into 4 main sections 3. Current Affairs are provided in a separate section 4. Solved Papers & Practice Sets are given for robust practice "If a window of opportunity appears, don't pull down the shade." This year the Staff Selection Commission has released SSC Constable (GD) Recruitment notification about 84000 vacancies in the 10 Posts. All the aspirants who are wishing to make their in Government sector; Arihant presents the newly updated edition of "SSC Constable Recruitment Examination 2021 (male/female)" giving coverage of the whole syllabus. The Study Guide is divided into 4 main sections as per the latest syllabus. Current Affairs are also given in the separate section giving total summary of the events happening around the globe the world. Based on the exam pattern, it provides Solved Papers & Practice Sets giving insights of the exam questions. With the easy to understand language and student friendly notes this book is a total package of preparation. Reasoning is equally weighed section in any competitive examination. Reasoning tests the thinking power and mind applicability skills of the candidates. The questions on reasoning asked in various competitive examinations are not easy to solve without having enough practice. Verbal & Analytical Reasoning will help candidates master the 'Tricks of the Trade' as it covers verbal and analytical reasoning very much comprehensively. This book has been divided into two Sections - Verbal Reasoning and Analytical Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Verbal Reasoning section has been divided into 21 chapters covering Analogy, Classification, Series, Coding-Decoding, Logical Arrangement of Words, Mathematical Operation, Venn Diagram, Clocks, Calendar, Decision Making, Input-Output, Puzzles, Data Sufficiency, etc whereas the Analytical Reasoning section has been divided into eight chapters covering Statement & Arguments, Statement & Assumptions, Course of Action, Passage & Conclusions, Cause & Effects, Syllogism, etc. Ample number of solved problems have been covered in each chapter followed by practice exercises at the end to help aspirants practice the concepts discussed in each chapter. Also the book contains previous years' solved questions of different competitive examinations like CAT, XAT, UPSC, SSC, etc to help aspirants get an

insight into the types of reasoning questions asked. The book will be highly useful for aspirants preparing for Management (CAT, XAT, CMAT, IIFT, SNAP & other), Bank (PO & Clerk), SSC (CGL, 10+2, Steno, FCI, CPO & Multitasking), LIC (AAO & ADO), CLAT, RRB, UPSC and other state PSC Exams. As the book covers Verbal and Analytical Reasoning both in detail with ample number of solved problems, it for sure will help aspirants prepare both the types in a thorough manner and score high in the upcoming competitive & recruitment exams.
