Traveling thousands of miles from home to enter college is the only way nineteen-year-old Avery Morgansten can escape what happened at that fateful Halloween party five years ago—an event that

forever changed her life. What she never planned on was capturing the attention of the one guy who could shatter the precarious future she's building for herself. Some things are worth experiencing . . . Cameron Hamilton is six feet, three inches of swoon-worthy hotness, complete with a pair of striking blue eyes and a remarkable ability to make Avery want things she believed had been

irrevocably stolen from her. Getting involved with him is dangerous. Yet ignoring the simmering tension that sparks between them—and brings out a side of her she never knew existed—is impossible. Some things shouldn't be kept quiet . . . But when Avery starts receiving threatening e-mails and phone calls, she's forced to face a past she wants to keep buried and acknowledge

that someone is refusing to allow her to let go of that night when everything changed. If the devastating truth comes out, will she resurface with one less scar? And will Cam be there to help her? And some things are worth fighting for . . .

The author investigates the

appearance of a fashion in clothing, involving a knotted mantle worn across the chest, on many Attic stelae of the Roman period. She suggests that this style can be traced to Egyptian roots, and might have been particularly associated with a cult of Isis, popular among wealthy Athenians. The book presents a catalogue of the 106 known Isis reliefs from Attica and a

review of all forms of evidence for the cult.

CONOR: I'm a dead man walking. I promised him I wouldn't go near her, promised him that I would treat his sister like she was my little sister. But that was a lie. Because Darcey Sawyer was not my sister. She was my forbidden fruit. Forbidden fruit that I have waited four years to touch, four

years to have one little taste. I was Conor 'King' Royce, and this King needed his Queen. DARCEY: Four years ago Conor Elijah Royce came into my life, and it hasn't been the same since. He was my brother's best friend. They met in Buck Hall Private School and have been inseparable ever since their first meeting. He was everything I shouldn't want. Forbidden

fruit, but I still wanted him. Now more than ever. A key mission of the Bureau

of Engraving and Printing of the Department of the Treasury is the design and printing of U.S. banknotes. The BEP is responsible for producing easily recognizable currency that is difficult to counterfeit. In recent years, the bureau has recognized the modern information technology could lead to entirely new types of counterfeiting threats, and it has requested a number of studies by the

NRC to assess these evolving threats. In this new request, the BEP asked the NRC to identify and evaluate significant emerging counterfeiting threats and to assess technologically feasible counterfeit-deterrent features for potential use in new designs. This first report provides an assessment of emerging threats including a wide range of digital imaging and printing techniques. It

also presents an analysis of a systems approach to the counterfeiting threat. The second report will offer an evaluation of new banknote features to address these threats.
