EUROPE SINCE NAPOLEON Cambridge University Press

After the French Revolution and the Napoleonic Wars, the leaders of Europe at the Congress of Vienna aimed to establish a new balance of power. The settlement established in 1815 ushered in the emergence of a genuinely European security culture. In this volume, leading historians offer new insights into the military cooperation, ambassadorial

conferences, transnational police networks, and international commissions that helped produce stability. They delve into the lives of diplomats, ministers, police officers and bankers, and many others who were concerned with peace and security on and beyond the European continent. This volume is a crucial contribution to the debates on securitisation and security cultures emerging in response to threats to the international order.

Europe Since Napoleon Bloomsbury Publishing

An A-Z of Modern Europe 1789-1999 is a comprehensive dictionary which defines

modern Europe through its important events and people. It includes entries on: * key people from Napoleon Bonaparte to Hitler * key political and military events * influential political, social, cultural and economic theories. An A-Z of Modern Europe 1789-1999 offers accessible and concise definitions of nearly 1000 separate items. The book is cross-referenced and thus provides associated links and connections while the appendices contain essential extra information. The book contains five helpful maps to guide the reader along.

History of Europe from the Fall of Napoleon, in MDCCCXV., to the Accession

of Louis Napoleon, in MDCCCLII. (With Index.). Cornell University Press

The story of the women, financiers, and other unsung figures who helped to shape the post-Napoleonic global order. In 1814, after decades of continental conflict, an alliance of European empires captured Paris and exiled Napoleon Bonaparte, defeating French military expansionism and establishing the Concert of Europe. This new coalition planted the seeds for today's international order, wedding the idea of a durable peace to multilateralism, diplomacy, philanthropy, and rights, and making Europe its center. Glenda Sluga reveals how at the end of the Napoleonic wars, new conceptions of the politics between states were the work not only of European statesmen but also of politically ambitious aristocratic and bourgeois men and women who seized the moment at an extraordinary crossroads in history. In this panoramic book, Sluga reinvents the study of international politics, its limitations, and its potential. She offers multifaceted portraits of the leading statesmen of the age, such as Tsar Alexander, Count Metternich, and Viscount Castlereagh, showing how they operated in the context

of social networks often presided over by influential women, even as they entrenched politics as a masculine endeavor. In this history, figures such as Madame de Staël and Countess Dorothea Lieven insist on shaping the political transformations underway, while bankers influence economic developments and their families agitate for Jewish rights. Monumental in scope, this groundbreaking book chronicles the European women and men who embraced the promise of a new kind of politics in the aftermath of the Napoleonic wars, and whose often paradoxical contributions to modern diplomacy and international politics still resonate today.

Europe Since Napoleon John Wiley & Sons
Creating a French Empire and establishing French dominance over Europe constituted Napoleon's most important and consistent aims. In this fascinating book, Alexander Grab explores Napoleon's European policies, as well as the response of the European people to his rule, and demonstrates that Napoleon was as much a part of European history as he was a part of French history. Napoleon and the Transformation of Europe: - Examines the

formation of Napoleon's Empire, the Emperor's impact throughout Europe, and how the Continent responded to his policies - Focuses on the principal developments and events in the ten states that comprised Napoleon's Grand Empire: France itself, Belgium, Germany, the Illyrian Provinces, Italy, the Netherlands, Poland, Portugal, Spain, and Switzerland - Analyses Napoleon's exploitation of occupied Europe - Discusses the broad reform policies Napoleon launched in Europe, assesses their success, and argues that the French leader was a major reformer and a catalyst of modernity on a European scale

Europe in the Age of Napoleon

Routledge

In *From Victory to Peace*, Elise Kimerling Wirtschafter brings the Russian perspective to a critical moment in European political history. This history of Russian diplomatic thought in the years after the Congress of Vienna concerns a time when Russia and Emperor Alexander I were fully integrated into European society and politics. Wirtschafter looks at how Russia's statesmen who served Alexander I across Europe, in South America, and in

Constantinople represented the Russian monarch's foreign policy and sought to act in concert with the allies. Based on archival and published sources—diplomatic communications, conference protocols, personal letters, treaty agreements, and the periodical press—this book illustrates how Russia's policymakers and diplomats responded to events on the ground as the process of implementing peace unfolded. Thanks to generous funding from the Sustainable History Monograph Pilot and the Mellon Foundation the ebook editions of this book are available as Open Access (OA) volumes from Cornell Open (cornellpress.cornell.edu/cornell-open) and other Open Access repositories.

Europe Since Napoleon Routledge
 Napoleon Bonaparte dominated the public life of Europe like no other individual before him. Not surprisingly, the story of the man himself has usually swamped the stories of his subjects. This book looks at the history of the Napoleonic Empire from an entirely new perspective – that of the ruled rather than the ruler. Michael Broers concentrates on the experience of the people of Europe – particularly the vast

majority of Napoleon's subjects who were neither French nor willing participants in the great events of the period – during the dynamic but short-lived career of Napoleon, when half of the European content fell under his rule.

Europe Since Napoleon Bloomsbury Publishing

Excerpt from *Europe Since Napoleon* This brief history of the nineteenth century was written before the present European situation arose, and therefore with no special reference to the events of to-day. I hope, however, that it may supply a rapid outline of past events since the great Napoleonic struggle, which will throw some light upon the present. It is intended, primarily, for young people who have had no opportunity of following European politics during a long period of years, through the newspapers. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Europe Under Napoleon Princeton University Press

This title covers interconnected events in Europe leading to the July Revolution of 1830 in France against the government of King Charles X. The attempt of the ultraroyalists under Charles to return to the Ancien régime provoked the opposition of the middle classes, who wanted more voice in the government. The lengthy Belgian Revolution resulted in the secession of the Southern Provinces from the United Kingdom of the Netherlands and established an independent Kingdom of Belgium. Poland also had a lengthy history of political upheaval prior to the November Uprising against the Russian Empire.

Europe Since Napoleon ... With Introductory Note by Richard Lodge

[and with Maps and Illustrations].

Penguin Books, Limited (UK)

A history of Europe since Napoleon, covering all of the main topics of that period.

Europe Since Napoleon Forgotten Books
Histories of the Napoleonic period are almost exclusively biographies of the man, or political-military accounts of his wars. But such wars were only the first stage in a far more ambitious programme; the establishment of a rational state which would force the pace of modernising society. Through an examination of the experiences of French domination, Napoleon's Integration of Europe explores the implications of such a project for France and its relationship with the rest of Europe. It examines the problems of ruling

a progressively expanding empire, as seen through the eyes of a trained corps of bureaucrats who were convinced that their scientific methods would enable them to understand and govern the mechanisms of society. However it also looks at the populations subjected to French rule, at the nature of their resistance and adaptation to the principles of the Napoleonic project. This book is the first overall comparative study of Europe in the Napoleonic years. It is a study not only of an early exercise in imperialism, but of the conflict that is aroused between the rationalising tendencies of the modern state and the spatial and cultural heterogeneity of individual societies. As well as a history of France, it is also a

history of Italy, Germany, Belgium, Holland, Switzerland, Poland and Spain at a crucial moment in the history of each nation state.
