Cosimo, Inc.
A magnificent new collection of stories by "the contemporary Hungarian master of apocalypse" (Susan Sontag) In *The World Goes On*, a narrator first speaks directly, then tells eleven unforgettable stories, and then bids farewell ("for here I would leave this earth and these stars, because I would take nothing with me"). As László Krasznahoraki himself explains: "Each text is about drawing our attention away from this world, speeding our body toward annihilation, and immersing ourselves in a current of thought or a narrative..." A Hungarian interpreter obsessed with waterfalls, at the edge of the abyss in his own mind, wanders the chaotic

streets of Shanghai. A traveler, reeling from the sights and sounds of Varanasi, encounters a giant of a man on the banks of the Ganges ranting on the nature of a single drop of water. A child laborer in a Portuguese marble quarry wanders off from work one day into a surreal realm utterly alien from his daily toils. *The World Goes On* is another amazing masterpiece by the winner of the 2015 Man Booker International Prize. "The excitement of his writing," Adam Thirwell proclaimed in the *New York Review of Books*, "is that he has come up with this own original forms—there is nothing else like it in contemporary literature." Doubt, Hope and Uncertainty Shawline Publishing Group
A timeless classic of economic theory that remains fascinating and

pertinent today, this is Frank Knight's famous explanation of why perfect competition cannot eliminate profits, the important differences between "risk" and "uncertainty," and the vital role of the entrepreneur in profitmaking. Based on Knight's PhD dissertation, this 1921 work, balancing theory with fact to come to stunning insights, is a distinct pleasure to read.
FRANK H. KNIGHT (1885-1972) is considered by some the greatest American scholar of economics of the 20th century. An economics professor at the University of Chicago from 1927 until 1955, he was one of the founders of the Chicago school of economics, which influenced Milton Friedman and George Stigler.

Books

“[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes” (Vice). A book as powerful and influential as Rebecca Solnit’s *Men Explain Things to Me*, her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new

introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. “One of the best books of the 21st century.” —The Guardian “No writer has better understood the mix of fear and possibility, peril and exuberance that’s marked this new millennium.” —Bill McKibben, *New York Times*-bestselling author of *Falter* “An elegant reminder that activist victories are easily forgotten, and that they often come in extremely unexpected, roundabout ways.” —The *New Yorker* [A Guide to Thriving in the Challenging World of Today](#) The Uncertainty of Hope
Maybe: A simple yet powerful mindset for coping with stress and worry Allison Carmen spent many years fighting a powerful addiction. It wasn’t drugs, alcohol or fame. It was an addiction to certainty. If she didn’t know what the future would bring – and who does? – she felt anxious and afraid. This decades-long struggle followed her

through college, marriage, parenthood, and a successful law career. While everything seemed fine from the outside, Allison was in a constant battle that was unwinnable, sapping her energy, attention, and spirit. Until the day she discovered *The Gift of Maybe*. *Maybe* is a simple yet powerful philosophy that has transformed Allison’s life, and the life of her many clients (now that she has ditched her legal career and has become a successful life coach). The message is this: In the face of uncertainty, *Maybe* opens your mind and heart. It creates a little space for hope. It allows you to take a deep breath, stay in the present, and forge your own path. Many things in life are beyond our control, but the mindset of *Maybe* presents a simple, powerful way to stay connected to what’s possible, and work to make it happen. It is just one change of perspective, but *Maybe* it changes everything! *An American Lyric* *New York Review of Books* From the former Governor of the Bank of Canada, a far-seeing guide to the powerful economic forces that will shape the decades ahead. The

economic ground is shifting beneath our feet. The world is becoming more volatile, and people are understandably worried about their financial futures. In this urgent and accessible guide to the crises and opportunities that lie ahead, economist and former Governor of the Bank of Canada Stephen Poloz maps out the powerful tectonic forces that are shaping our future, and the ideas that will allow us to master them. These forces include an aging workforce, mounting debt, and rising income inequality. Technological advances, too, are adding to the pressure, putting people out of work, and climate change is forcing a transition to a lower-carbon economy. It is no surprise that people are feeling uncertain. The implications of these tectonic tensions will cascade throughout every dimension of our lives—the job market, the housing market, the investment climate, as well as government and central bank policy, and the role of the corporation within society. The pandemic has added momentum to many of them. Poloz skillfully argues that past crises,

from the Victorian Depression in the late 1800s to the more recent downturn in 2008, give a hint of what is in store for us in the decades ahead. Unlike the purely destructive power of earthquakes, the upheaval that is sure to come in the decades ahead will offer unexpected opportunities for renewal and growth. Filled with takeaways for employers, investors, and policymakers, as well as families discussing jobs and mortgage renewals around the kitchen table, *The Next Age of Uncertainty* is an indispensable guide for those navigating the fault lines of the risky world ahead. [A critical exploration of political violence in selected literary works](#) Routledge One of The New York Times Book Review's "10 Best Books of 2021" Shortlisted for the 2021 International Booker Prize A fictional examination of the lives of real-life scientists and thinkers whose discoveries resulted in moral consequences beyond their imagining. When We Cease to Understand the World is a book about the complicated links between scientific and

mathematical discovery, madness, and destruction. Fritz Haber, Alexander Grothendieck, Werner Heisenberg, Erwin Schrödinger—these are some of luminaries into whose troubled lives Benjamín Labatut thrusts the reader, showing us how they grappled with the most profound questions of existence. They have strokes of unparalleled genius, alienate friends and lovers, descend into isolation and insanity. Some of their discoveries reshape human life for the better; others pave the way to chaos and unimaginable suffering. The lines are never clear. At a breakneck pace and with a wealth of disturbing detail, Labatut uses the imaginative resources of fiction to tell the stories of the scientists and mathematicians who expanded our notions of the possible. *Build Unbreakable Strength, Will, and Hope to Live Well in Times of Uncertainty* Mad Design, Incorporated This coloring book provides imagery for those practicing Exposure Therapy, a unique type of therapy that aims to help folks manage and understand their distress

or discomfort. Each coloring sheet depicts a variation of fear in the artwork and is accompanied by a description of symptoms experienced. There are many variations of OCD and Anxiety-this coloring book only scratches the surface!-so if you do not experience OCD or a related Anxiety Disorder, I hope you become curious about Exposure Therapy and learn more about these disorders. If you do experience OCD or Anxiety, I hope this book causes you some discomfort in true exposure form!

How do you keep going when things fall apart? How do you find purpose and meaning in uncertainty? Build a resilient mindset immune to adversity. We all face common pain, difficulty, and insecurity. We live in an unpredictable environment we cannot control. The only way out of it is through it. Strengthening our resilience muscle and awakening the warrior in each of us has never been more important. This book offers practical tools to take control back of our

lives. How do you prepare for the worst and expect the best without becoming too pessimistic? Unshakable Resilience is a guidebook on becoming someone who doesn't crumble when life gets hard. What is mental resilience? It is a state of mind relying on balanced habits, strong self-assessment skills, and the will to bounce back from any negative thought spiral into reality. This book will help you learn about each of these skills, and also how to put them into action with less than 10 minutes of practice a day. Build unshakable resilience. Zoe McKey is an internationally bestselling author. She uses a variety of sources in her writing including academic studies, scientific research, counseling, and her own life experience. She's lived alone since the age of 15, which shaped her mental strength, tenacity, resilience, and her perseverance in going forward despite life's adversities. Transform pain to wisdom, fear to courage, and loneliness to solidarity. - Overcome your obstacles while staying strong. - Uncover and break through your fears and excuses for taking action. - Practical

tips to get grounded in times of uncertainty. - Learn to cope with any level of adversity. Build discipline to own your thoughts and prevent them from sabotaging you. - Understand and learn to control our four major fears. - Two guided meditation routines for a peace of mind. - Practical tips to de-escalate conflict at home. Life will never be without uncertainty, obstacles, or hardships. Resilience is essential for surviving and thriving in a world full of adversities. We all get knocked down. Would you like to learn how to get back up? [How the World Can Adapt to a Riskier Future](#) Guilford Publications "So now faith, hope, and love abide, these three; but the greatest of these is love." (I Corinthians 13:13) For years I've missed the middle word in that list. Hope. I've tried so hard to have faith and love that I've neglected hope. I've gotten busy doing life and taken hope for granted. Marriage. Family. Friendship. Adoption. The hopelessness I've felt at times has been suffocating. But God has been faithful. The Gospel frees us to find hope in the middle of whatever we face. Jesus' death on

our behalf rebuilds and renews all the hopelessly broken pieces. In Him we can find hope in the middle of uncertainty.

Hope in the Dark Roaring Brook Press

"A resistance novel for our time." - The New York Times

"A hopeful story about recovery, empathy, and the bravery of young people." - Booklist "This well-crafted and suspenseful novel touches on the topics of refugees and immigrant

integration, terrorism, Islam, Islamophobia, and the Syrian war with sensitivity and grace." - Kirkus, Starred Review

Fourteen-year-old Ahmed is stuck in a city that wants nothing to do with him. Newly arrived in

Brussels, Belgium, Ahmed fled a life of uncertainty and suffering in Aleppo, Syria, only to lose his father on the perilous

journey to the shores of Europe. Now Ahmed's struggling to get by on his own, but with no one left to trust and nowhere to go, he's starting to lose hope. Then he meets Max,

a thirteen-year-old American boy from Washington, D.C. Lonely and homesick, Max is struggling at his new school and just can't seem to do anything right. But with one startling

discovery, Max and Ahmed's lives collide and a friendship begins to grow. Together, Max and Ahmed will defy the odds, learning from each other what it means to be brave and how hope can change your destiny. Set against the backdrop of the Syrian refugee crisis, award-winning author of *Jepp, Who Defied the Stars* Katherine Marsh delivers a gripping, heartwarming story of resilience, friendship and everyday heroes. Barbara O'Connor, author of *Wish and Wonderland*, says "Move *Nowhere Boy* to the top of your to-be-read pile immediately."

Celebrated speaker, author, and coach Joe Bakhmoutski uses his lived experience with cancer and mental health struggles to share inspiration and advice on how to thrive despite the setbacks and challenges you might be facing today.

Thoughts on Reclaiming the American Dream

BenBella Books

Each day presents many unique paths to explore and experience the remarkable world God has created. *Before the Day Ends* captures some of

these moments in a series of reflections organized around seven opportunities where we can find hope and strength in times of uncertainty. A collection of questions has been included which can be used for a small group study or the reader's personal reflection. Within these pages, I hope you will find encouragement, enjoyment, humor, and perhaps a new perspective here and there.

The Next Age of Uncertainty

Penguin
'A patient is standing in the middle of the river. He gazes across the water to the city and the mountain above where the sun is setting. His back is turned to the hospital. The nurses are waiting for him patiently on the river bank. He seems uncertain whether to cross the river or to return. There is no danger. He is on the edge, in an in-between space, as is the hospital where I have worked as a specialist psychiatrist for over twenty-five years.' For many of us, what lies beyond conventional portrayals of mental illness is often shrouded in mystery, misconception and fear. Dr Sean Baumann spent decades as a psychiatrist at

Valkenberg Hospital and, through his personal engagement with patients' various forms of psychosis, he describes the lived experiences of those who suffer from schizophrenia, depression, bipolar and other disorders. The stories told are authentic, mysterious and compelling, representing both vivid expressions of minds in turmoil and the struggle to give form and meaning to distress. The author seeks to describe these encounters in a respectful way, believing that careless portrayals of madness cause further suffering and perpetuate the burden of stigma. Baumann argues cogently for a more inclusive way of making sense of mental health. With sensitivity and empathy, his enquiries into the territories of art, psychology, consciousness, otherness, free will and theories of the self reveal how mental illness raises questions that affect us all. Madness is illustrated by award-winning artist Fiona Moodie.

The Cunning of

Uncertainty CRC Press

This collection explores the productive potential of uncertainty for people living in Africa as well as

for scholars of Africa. Eight ethnographic case studies from across the continent examine how uncertainty is used to negotiate insecurity, create and conduct relationships, and act as a source for imagining the future.

Stories of Uncertainty and Hope Penguin
An intuitive and mathematical introduction to subjective probability and Bayesian statistics. An accessible, comprehensive guide to the theory of Bayesian statistics, *Principles of Uncertainty* presents the subjective Bayesian approach, which has played a pivotal role in game theory, economics, and the recent boom in Markov Chain Monte Carlo methods. Both rigorous and friendly, the book contains: Introductory chapters examining each new concept or assumption Just-in-time mathematics - the presentation of ideas just before they are applied Summary and exercises at the end of each chapter Discussion of maximization of expected

utility The basics of Markov Chain Monte Carlo computing techniques Problems involving more than one decision-maker Written in an appealing, inviting style, and packed with interesting examples, *Principles of Uncertainty* introduces the most compelling parts of mathematics, computing, and philosophy as they bear on statistics.

Although many books present the computation of a variety of statistics and algorithms while barely skimming the philosophical ramifications of subjective probability, this book takes a different tack. By addressing how to think about uncertainty, this book gives readers the intuition and understanding required to choose a particular method for a particular purpose.

Living with Hope, Coping with Uncertainty John Wiley & Sons

This volume examines the relationship between hope, mobility, and immobility in African migration. Through case studies set within and beyond the continent, it demonstrates that hope offers a unique prism for analyzing the social imaginaries and aspirations which

underpin migration in situations of uncertainty, deepening inequality, and delimited access to global circuits of legal mobility. The volume takes departure in a mobility paradox that characterizes contemporary migration. Whereas people all over the world are exposed to widening sets of meaning of the good life elsewhere, an increasing number of people in the Global South have little or no access to authorized modes of international migration. This book examines how African migrants respond to this situation. Focusing on hope, it explores migrants' temporal and spatial horizons of expectation and possibility and how these horizons link to mobility practices. Such analysis is pertinent as precarious life conditions and increasingly restrictive regimes of mobility characterize the lives of many Africans, while migration continues to constitute important livelihood strategies and to be seen as pathways of improvement. Whereas involuntary immobility is one consequence, another is the emergence and consolidation of new destinations emerging in the Global South. The

volume examines this development through empirically grounded and theoretically rich case studies in migrants' countries of origin, zones of transit, and in new and established destinations in Europe, North America, the Middle East, Latin America and China. It thereby offers an original perspective on linkages between migration, hope, and immobility, ranging from migration aspirations to return.

Knot in Time Jacana Media Goodreads Choice winner for Nonfiction 2021 and instant #1 bestseller! A deeply moving collection of personal essays from John Green, the author of *The Fault in Our Stars* and *Turtles All the Way Down*. "The perfect book for right now." -People "The Anthropocene Reviewed is essential to the human conversation." -Library Journal, starred review The Anthropocene is the current geologic age, in which humans have profoundly reshaped the planet and its biodiversity. In this remarkable symphony of essays adapted and expanded from his groundbreaking podcast, bestselling author John Green reviews different facets of the human-centered planet on a five-star scale—from the

QWERTY keyboard and sunsets to Canada geese and Penguins of Madagascar. Funny, complex, and rich with detail, the reviews chart the contradictions of contemporary humanity. As a species, we are both far too powerful and not nearly powerful enough, a paradox that came into sharp focus as we faced a global pandemic that both separated us and bound us together. John Green's gift for storytelling shines throughout this masterful collection. The Anthropocene Reviewed is a open-hearted exploration of the paths we forge and an unironic celebration of falling in love with the world. *The Certainty of Uncertainty* Routledge This volume examines the relationship between hope, mobility, and immobility in African migration. Through case studies set within and beyond the continent, it demonstrates that hope offers a unique prism for analyzing the social imaginaries and aspirations which underpin migration in situations of uncertainty, deepening inequality, and delimited access to global circuits of legal mobility. The volume takes departure in a mobility

paradox that characterizes contemporary migration. Words and Images of Australian Migrants from Lesvos Penguin

The world is full of people who are very certain—in

politics, in religion, in all manner of things. In addition, political, religious, and social organizations are marketing certainty as a cure all to all life's problems. But is such certainty possible? Or even good? The Certainty of Uncertainty explores the question of certainty by looking at the reasons human beings crave certainty and the religious responses we frequently fashion to help meet that need. The book takes an in-depth view of religion, language, our senses, our science, and our world to explore the inescapable uncertainties they reveal. We find that the certainty we crave does not exist. As we reflect on the unavoidable uncertainties in our world, we come to understand that letting go of certainty is not only necessary, it's beneficial. For, in embracing doubt and uncertainty, we find a more meaningful and courageous religious faith, a deeper encounter with mystery, and a way to build strong relationships across religious and philosophical lines. In The Certainty of Uncertainty, we see that embracing our belief systems with humility and uncertainty can be transformative for ourselves and for our

world.
