This field manual provides doctrinal framework for how infantry rifle platoons and squads fight. It also addresses rifle platoon and squad non-combat operations across the spectrum of

conflict. Content discussions include principles, tactics, techniques, procedures, terms, and symbols that apply to small unit operations in the current operational environment.

*SBCT Infantry Rifle Platoon and Squad (ATTP 3-21. 9)* CreateSpace

Field Manual FM 3-21. 8 (FM 7-8) the Infantry Rifle Platoon and Squad March 2007 Silver Rock Publishing

Field Manual FM 3-21. 8 (FM 7-8) the Infantry Rifle Platoon and Squad March 2007 Echo Point Books & Media

This manual provides guidance for MOS 11C soldiers and their trainers on the employment of the 60-mm (M224 and M19) mortars, 81-mm (M252 and M29A1) mortars, 4.2-inch (M30) mortar, and 120-mm (M120) mortars. It discusses the practical applications of

ballistics and a system combining the principals, techniques, and procedures essential to the delivery of timely and accurate mortar fire. (See FM 23-90 for information on mechanical training, crew drills, and the characteristics, components, and technical data of each mortar.)

Createspace Independent Pub  
ATTP 3-21.9, "SBCT Infantry Rifle Platoon and Squad," describes how the Stryker Brigade Combat Team (SBCT) Infantry rifle platoons and squads fight. ATTP 3-21.9 discusses how they operate as Infantry, mounted in their Stryker Infantry carrier vehicles (ICVs), with the ICV in support, and as part of the Stryker rifle company. The content includes principles, tactics, techniques, procedures, terms, and symbols that

apply to small-unit operations. ATTP 3-21.9 is intentionally designed as a companion manual to FM 3-21.8. Many of the subjects covered in FM 3-21.8 are not only mutually applicable to the Stryker platoons and squads but also nearly identical and need not be republished. Because of this, ATTP 3-21.9 focuses on the unique characteristics and capabilities of the Stryker platoons and squads. Major areas reduced, or not included in this manual, are covered in detail in FM 3-21.8 and include—Dismounted tactical movement; Employing fires; Troop-leading procedures (TLP); Sustainment; Air defense; Chemical, biological, radiological, and nuclear (CBRN) operations; Composite risk management; Fratricide avoidance;

Urban operations (UO); Sniper operations; Patrols; Employment of the dismounted element's weapons; Platoon and squad fire planning; Air assault operations; Defeating improvised explosive devices (IED); Obstacle reduction and employment; Dismounted fighting positions. These are basic skills that Stryker small units and their leaders must understand, practice, and execute. Their absence from ATTP 3-21.9 in no way diminishes their importance. Rather, they are fundamental skills applicable to all Infantry units and leaders.

*The Infantry Rifle Platoon and Squad (FM 3-21. 8 / 7-8) Field Manual FM 3-21. 8 (FM 7-8) the Infantry Rifle Platoon and Squad March 2007*
