Persuasive Communication for Science and Technology Leaders Explore this insightful guide to the development of persuasive leadership skills perfect for students and managers in technical fields Many technical managers receive little or no training in the persuasive arts. Though technically skilled, they often lack the ability to engage effectively with an audiences outside their field. Persuasive Communication for Science and Technology Leaders: Writing and Speaking with Confidence delivers a thorough treatment of how to connect with audiences whose knowledge, values, personal experiences, ethnic background, gender, and worldview may differ from their own. Written in a highly readable and entertaining style, this book goes beyond the scope of a standard textbook on persuasive communication. Its practical lessons illustrate the techniques of effective scientific and technical writing while emphasizing values-based leadership for a more just, inclusive, and sustainable world, a theme that seems particularly pertinent during these times of multiple crises, misinformation campaigns, and science denial. The distinguished speaker and author explores the broader importance of language and explains various techniques for expanding your expressive range and your professional influence. He will also teach you methods for conveying information clearly and precisely as well as in ways that inspire and leave a lasting impression. You will also benefit from: A thorough introduction to knowing and connecting with your audience, using voice, tone, and point of view for results, and engaging your reader with compelling openings An exploration of explaining complex technologies clearly, succeeding with challenging writing assignments, and applying a variety of persuasive strategies for agile responses to a rapidly changing world An examination of speaking effectively while thinking on your feet, including how to create a safety net and how to recover from momentary lapses Easy-to-remember guidance on avoiding common language errors that might undermine your credibility or, worse yet, make people stop listening to you Perfect for undergraduate and graduate students in scientific and technical fields such as engineering, geology, botany, climatology, and epidemiology, Persuasive Communication for Science and Technology Leaders: Writing and Speaking with Confidence will earn a place in the libraries of technical managers and leaders who seek to better connect with their audiences.

When Logan slams into the reference guy in the basement and gives him a little lip, Logan gets punished, really and truly punished. He has three days to complete three tasks before Professor Wordsworth will lift the magical punishment that keeps getting Logan in even more trouble.

How to Use Parts of Speech, Grades 6-8 Charlesbridge Publishing

Some teachers love grammar and some hate it, but nearly all struggle to find ways of making the mechanics of English meaningful to kids. As a middle school teacher, Jeff Anderson also discovered that his students were not grasping the basics, and that it was preventing them from reaching their potential as writers. Jeff readily admits, "I am not a grammarian, nor am I punctilious about anything," so he began researching and testing the ideas of scores of grammar experts in his classroom, gradually finding successful ways of integrating grammar instruction into writer's workshop. Mechanically Inclined is the culmination of years of experimentation that merges the best of writer's workshop elements with relevant theory about how and why skills should be taught. It connects theory about using grammar in context with practical instructional strategies, explains why kids often don't understand or apply grammar and mechanics correctly, focuses on attending to the "high payoff," or most common errors in student writing, and shows how to carefully construct a workshop environment that can best support grammar and mechanics concepts. Jeff emphasizes four key elements in his teaching:short daily instruction in grammar and mechanics within writer's workshop;using high-quality mentor texts to teach grammar and mechanics in context;visual scaffolds, including wall charts, and visual cues that can be pasted into writer's notebooks;regular, short routines, like "express-lane edits," that help students spot and correct errors automatically.Comprising an overview of the research-based context for grammar instruction, a series of over thirty detailed lessons, and an appendix of helpful forms and instructional tools, Mechanically Inclined is a boon to teachers regardless of their level of grammar-phobia. It shifts the negative, rule-plagued emphasis of much grammar instruction into one which celebrates the power and beauty these tools have in shaping all forms of writing. *Persuasive Communication for Science and Technology Leaders* Millbrook Press™

The ability to recognize and correctly use the different parts of speech is key to demonstrating command of the conventions of standard English grammar and usage when writing or speaking. In this book, readers will learn about the function pronouns have in sentences by following the story of Sam and his visiting cousins, Jim and Anna. The story and supplemental activity sidebars help teach concepts such as tense, correct punctuation, relative pronouns, and pronoun-antecedent agreement.

By looking at her own students' needs, Diana Hacker created an affordable and practical classroom tool that doubles as a quick reference. Developed with the help of instructors from two- and four-year schools, the sixth edition gives students quick access to the information they need to solve writing problems in any college course. In the Hacker tradition, the new contributing authors — Nancy Sommers, Tom Jehn, Jane Rosenzweig, and Marcy Carbajal Van Horn — have crafted solutions for the writing problems of today's college students. Together they give us a new edition that provides more help with academic writing and research and one that works better for a wider range of multilingual students. Flexible content options — in print and online — allow students to get more than they pay for.

Numerous studies indicate that completing a college degree reduces an individual's likelihood of recidivating. However, there is little research available to inform best practices for running college programs inside jails or prisons or supporting returning citizens who want to complete a college degree. Higher Education Accessibility Behind and Beyond Prison Walls examines program development and pedagogical techniques in the area of higher education for students who are currently incarcerated or completing a degree post-incarceration. Drawing on the experiences of program administrators and professors from across the country, it offers best practices for (1) developing, running, and teaching in college programs offered inside jails and prisons and (2) providing adequate support to returning citizens who wish to complete a college degree. This book is intended to be a resource for college administrators, staff, and professors running or teaching in programs inside jails or prisons or supporting returning citizens on traditional college campuses. *Punished!* Mark Twain Media
